

Prof. Fossler has been giving the Sophomore German class some excellent drill in memorizing to the dot on the *i* some of the best short poems of Goethe, Schiller, Eichendorff and other German writers. This method of training is adopted in many of the best Universities and Colleges, and has many advantages in training in accuracy, besides thoroughly infusing into the Sophomore soul (?) the spirit of German verse.

The new department of Manual Training, which occupies both floors of the recent addition to the electrical laboratory started out with large classes and flattering prospects. This department comprises clay modeling, under Miss Barton's supervision, graphics and later on practical shop work. Twenty-five sets of tools have already been received and all necessary equipage is being placed in position. Director Richards is much pleased with the interest manifested thus far and feels confident that it will not be long before results will be able to speak for themselves in this line of work.

The particulars of the foot ball game between Kansas and Nebraska are necessarily crowded out. The game was a good one and enjoyed by all. The absence of slugging and all unnecessary roughness was a very noticeable feature. The Kansas boys are gentlemen and know how to play foot ball. We were beaten on account of their superior team work, and not as individuals. Special mention should be made of Pace, Flippin, Jones, and A. E. Yont. Mr. Pace is no doubt one of the best quarter backs in the west, and with Flippin as half they do good work. Jones is the first man who has given Hamil of Kansas all he wanted to do, and sometimes a little more. A. E. Yont did some good tackling and always plays a strong game. The result was 12 to 0 in favor of Kansas.

POINTERS.
