

Medical Department

COTNER ❖ UNIVERSITY.

Next Term Begins September 15, and Continues Six Months.

THE UNIVERSITY BUILDING

Is a beautiful structure, large and commodious, heated with steam, and containing all modern conveniences; is situated on Bethany Heights, a suburb on the east side of the city, commanding a magnificent view of the city and surrounding country, with street cars passing the door, which connect with other lines to all parts of the city. The Medical College has a complete corps of professors, lecturers, and demonstrators, and is equipped with all the modern appliances for instruction in the several branches of Medical and Surgical Science.

COURSE OF INSTRUCTION

Covers a period of three years, in which there are three full courses of lectures and clinics of six months each. After the session of 1893-94, the course will be increased to seven months.

Students who have taken a full preparatory course in a creditable college or university, and can pass a satisfactory examination, will be admitted to the second course.
