

A. N. Moody expects to study medicine at Denver.

G. Flikkema will take a theological course at a seminary in New Brunswick, New Jersey.

W. H. Forsyth will teach the rising generation how to play foot-ball and read French.

S. H. Martin will teach the young America how to scan Latin and make Greek translations.

G. E. Town expects to infuse some of his scholarly education and dignity to the youth of the land.

C. A. Elliott will study how to relieve the suffering of the human race at the Chicago homoeopathic.

Messrs. Sherman, Deary, Hoagland, Forbes, Matthews, Lyon, Powers, and Kimball will be in the Law School.

L. C. Oberlies will post in English literature and be connected with his father in the lumber and coal business.

Very few of our Senior girls will be back with us next year. So far the number that expect to post is limited to two Miss Pound and Miss Melick. Our loss, however, will be somebody's gain, and in this case the gain must be that of state since the majority of the senior girls expect to employ their time next year teaching the young idea how to shoot. Among this number, we find Misses Bell, Duty and Joe Mansfeld, Morgan, Bridge, Burks, Gray, Hunter, Clark, Loughridge, Ducker. Misses McCrosky, Gerrard, Lindley, and Gere will be ladies of leisure, expecting to remain at home. We may, however, find ourselves more favored next year than we can hope for now since a few of the seniors, Misses Fossler, Winger, Seacrest, Treat and Roberts have not decided yet what they will do and there is some possibility that they may return.

## LOCAL.

Miss Olney will not be back next year.

Prof. Allen will spend the summer in Europe.

Spectral dances are getting to be quite the fad.

Prof. Fling will spend the summer in Minnesota.

W. E. Kirk spent Sunday, the 26th, at his home in Edgar.

Miss Willa Cather spent a few days with Miss Weston in Beatrice last week.

Professor Allen gave his examinations last week and left for Europe Tuesday.

Pres. Mank, of the University of South Dakota, visited the University last week.

Miss Boose, Miss Atkinson and Miss Hopper will represent the Y. W. C. A. at Lake Geneva this summer.

Mr. F. C. Cooley is going to spend the summer at the Crow Agency, Montana, where he is well acquainted.

Professor Fossler lectured at the Falls City high school commencement last week, Tuesday, and at Pawnee Wednesday.

Rev. Albert Bushnell, D. D., of St. Joseph, Mo., addressed the Y. W. and Y. M. C. A. June 2nd, in University chapel.

Mr. Moses T. Barlow blew some concentrated nitric acid into his left eye last week. It is to be hoped no serious results will follow.

Dr. John H. Coulter of Lake Forest University, gave a very pleasing lecture on the "Botanical Outlook" in the chapel Monday evening.

A member of the class of '95 has presented to the State Historical Society two canes, trophies of the last cane-rush the University will probably ever have. The smaller one was successfully carried through the rush by a '95 and the other was captured by the same one from one of the class of '96.
