

A letter from Prof. Hodgman, too late for full publication, expresses hearty approval by the College Settlement board of Dr. Sherman's "nickle scheme." He corrects the statement that the board recommended a settlement holiday but they thought it advisable to set a day apart for lectures and collections. The movement has never been on the verge of bankruptcy and has been planned and executed in perfect harmony by the joint action of the associations and a portion of the faculty. "The board appreciates the intelligent and generous support of the University papers. A greatly awakened interest is noticed among the students and many more active workers are engaged than last year."

The Y. W. and Y. M. C. A. are planning to give a social during charter week.

The state Historical society and the state Horticultural society met at the university this week. While these meetings were only comparatively well attended, their proceedings were full of interest.

Comfort to California.

Every Thursday evening, a tourist sleeping car for Salt Lake City, San Francisco and Los Angeles leaves Omaha and Lincoln via the Burlington Route.

It is carpeted; upholstered in rattan; has spring seats and backs and is provided with curtains, bedding, towels, soap, etc. An experienced excursion conductor and a uniformed Pullman porter accompany it through to the Pacific coast.

While neither as expensively finished nor as fine to look at as a palace sleeper, it is just as good to ride in. Second-class tickets are honored and the price of a berth, wide enough and big enough for two, is only \$5.

For a folder giving full particulars, call at the B. & M. depot or city office, corner of 10th & O streets.
