Professor Faurot has come to us recently to fill the vacancy caused by the death of Mr. Tschudy, and if recommendations count for anything Rose may consider herself lucky in getting such an efficient instructor. He was born in Michigan, but received his education at the University of Nebraska, where he graduated in 1891. From 1891 to 1893 he was engaged in high school work, and in '94 he returned to the University to take a post graduate course in German and Philology, and received the degree of Master of Arts. He spent last year abroad, making a special study of the German languages, part of the time under Professor Sievers, the famous Anglo-Saxon scholar. He divided his time abroad between the Universities of Berlin Leipsic and Wittenberg and returned home just in time to accept the position which he now holds.—The Rose Technic, Terre Haute, Ind.
