The first of the series of in-door base ball games was played Thursday night between the Pershing rifles and the athletic team. The Pershings may be the best military men in school, but they are certainly not the best base ball players, as the score shows. Athletics, 16, Pershings, 2. The features of the game were the "awful" work of Parmelee at short, the fine base-running of Hody; and the out-fielding of Hendy. "Parm" could play better if he had a bushel basket to assist. As for Hendy; well everyone can guess how he plays. The team work and the batting of the athletics were excellent. They had the Pershings at their mercy from the start. Everybody should come out Friday and see the base ball team "eat the Pershings up"
