ATHLETIC NOTES.

The athletic men have begun an outdoor training for the approaching contests.

The trophy offered by the Farmer's and Merchant's Insurance Co., as a prize for the intercollegiate contest is now on exhibition in the window of E. Hallett, Jeweler, O Street. Attention of all students is called to this valuable silver trophy which will be contested for May 14. Let us resolve to be the winners.

Admission to the indoor Pentathlon, which will be given Friday evening, March 25th, will be by ticket in order to accommodate friends of the students and Uni. Reserved seats can be obtained at the Co-op. The net proceeds are to go toward the funds for a cinder track.

Committee on track meet met last Tuesday to discuss further plans. Those present were, Lieutenant Stotsenburg, Dr. Hastings, Moore, Cutter, Pearse, J. E. Pearson, Reedy, Benedict, Cooley, Swallow and P. O. Mahoney. Roscoe Pound and several other athletic men were unable to be present. A sub-committee was appointed consisting of Dr. Hastings, Pearson, Pearse, Sawyer and Stebbens to prepare plans for a mass meeting of the students for the consideration of several athletics. If the faculty, alumni, students and business men will assist, there will be no difficulty in securing a cinder tract. With such a track we shall have no difficulty in competing with Kansas, Minn., or Iowa who are anxious to meet us on the athletic field, but without it we would be seriously crippled.
