#### ATHLETIC NOTES.

The approaching annual field-day contest which decides who shall represent us in the state intercollegiate meet will be the most closely contested athletic event of the year. Under Dr. Hastings' systematic training the contestants have acquired a proficiency in training and endurance which is seldom surpassed. The men are all enthusiastic over the meet. Despite the depressing conditions of the weather for outdoor work, each man is straining every nerve to get on the track team.

R. D. Andreson, assistant track manager, by his untiring zeal has secured a large number of prizes. This coupled with the fact that every event has several thoroughly trained contestants will assure keen, close competition and the breaking of former records.

Every lover of athletics and every loyal student should support the annual field-day contest and thus encourage the boys to win honors for our Alma Mater.
