

Eleventh street. Each senior was presented with an emblematic token of remembrance and interesting talks were made.

The Kappa Kappa Gammas held a banquet at the home of the Misses Gere Thursday evening. The occasion was to celebrate the fourth anniversary of the founding of the local chapter. Covers were laid for thirty-six active and alumni.

Miss Bessie Turner entertained the Pi Phi's Thursday evening.

The fraternities hold their 2d annual Pan-Hellenic ball at the Beach Saturday evening.

Jas. Wells, Prof. of Mechanical Engineering of Montana State University, visited with Prof. Richards this week. Mr. Wells is an old class-mate of Mr. Richards and a member of the Sigma Chi fraternity.

Miss Haskell will spend the summer at her home in Maine. She intends to go via Chickamauga to say good-bye to a few of her friends before they leave for Cuba.

The Sigma Chis gave a circus party Wednesday evening. After the circus the party went to the chapter house and indulged in dancing. Circus refreshments in the way of red lemonade, pop corn and peanuts were served.

Frank J. Gustin left for his home at Kearney, Nebr., Thursday morning.

Delian Program.

The new members' program of the Delian society was given last Friday evening. Mr. Gould's ghost story was delivered in such a realistic manner that he called up some ghosts from the regions below whom even the night watch could not quiet. Miss Davis' recitation was given in a very nice manner. Mr. Fulton read a criticism on the great poem of Jack and Jill that contained many fine touches of genuine humor. Mr. Vasey sang a couple of solos that were much appreciated by the audience. Mr. Wymore's paper on the "New and Old," patted the new members on the back. Miss Buckmaster recited a very nice poem about the war. One of the very best numbers of the evening was the critic's report by Mr. Adams. It was very bright and witty. The Delians have added some very strong students to their number this year.

Summer Vacation.

What to do during vacation is a question that will probably be settled by a majority of students before examinations are finished. Some will "go home," some will "work," some "study," some "rest up." Several have already decided to stay a few weeks and make up a course or two for college credit in German, French or Spanish at the preparatory school, or to bring up some prep. work that is in arrears. Mr. John Fossler will be the instructor in German and will have one class in first year and the other in second year German. Each class will complete the entire year's work during the summer. Miss Julia M. Korsmeyer, present assistant under Dr. Edgren in Romance languages, will have charge of French. Only second year French is offered. This class will complete the year's work (two courses) in six weeks. Spanish is offered for the same length of time under Prof. F. E. Clements. The days of registration are May 28, 30 and 31. All classes except French and Spanish are scheduled to begin June 1. Mr. Wallace, the director, will be at his office in the University conservatory building daily. It is a good idea at least to talk over the matter of summer work and see how much can really be done in a short time at small expense.

Union Boy's Special Program.

The boys of the Union society gave their special program last Friday evening in Union hall. The program opened with an instrumental solo by Master Chester Parks. This was followed by special papers on some well-chosen and farcical subjects by Messrs. Morse, Kuhlman, Kinton and Rose. The telephone message sent by Messrs. Abbott and Searson to the Chancellor at Chicago and to the "Hesperian" contained many "hits" on the "profs" and student body, and the resounding applause denoted that the jokes were highly appreciated. The Union Boys' Quartette sang some very appropriate selections. Mr. Bollenbach read a very laughable poem, "The Bed Bug," which was a parody on Poe's "Raven." The question, "Resolved that Everything is Nothing," was hotly debated by Messrs. Platt and Heitzman. The pro-
