the organization the athletic managers could prevent the attachment of gate receipts, by those who had claims against the association.

A motion was made to ask the treasurer to give a bond, but it was ruled out of order as there was no longer an organization and no means for conveying the instructions to the trustees was stipulated.

DEBATING NOTES.

The Delian boys' debating club Saturday evening discussed the question: "Resolved, That the United States, Great Britain and Japan should enter into an alliance and invite other powers to join with them in furnishing a board of arbitration for the settlement of international difficulties." The debate was participated in by every one present.

The Palladian club debated the topic, "Resolved, That Dreyfus should have another trial." The boys had a lively discussion.

The Union boys took for their text Saturday evening one of the problems growing out of the late war, and debated the question, "Resolved, That the army and navy should be greatly increased." The debating clubs of the University keep in close touch with college affairs, and when anything does not meet their approval, they quickly condemn it. The Union club adopted the following resolutions at their meeting Saturday evening in regard to the recent action of the athletic association.

Be it resolved, That the following declaration be passed by the Union boys' debating club and reported for publication:

The recent events in the meeting of the Athletic association this first day of October, 1898, demand attention of all true and upright students.

We heartily endorse the sentiments of the chancellor in his statement that we must have clean athletics or none at all. Imbued with this idea, we condemn the action of the recent athletic association for the dissolution of its organizations and to repudiate its honest debts. We condemn such a movement as fraudulent, degrading, and disgraceful to the University of Nebraska and hold that it should not be quietly tolerated by the student body.

We further denounce the collection of membership fees under false pretenses for the corrupt purpose of this fraudulent institution as malicious in the extreme and hold that such tactics cannot be justified in morals nor in law.

The Union boys' debating club has always been an ardent friend of all athletic games and sports designed to supplement educational work and to enforce intellectual growth. We point with pride to the record we have made in our efforts to elevate the tone of college games which is well known to have resulted in much good to University athletics.

In view of these facts we ask the co-operation of every manly student and all student organizations in opposing corrupt management of athletics, and wilful repudiation of liabilities. We solicit your aid and efforts in the support of true and noble methods in athletic politics and wholesome, uplifting sports intended to cultivate manhood.

Y. M. C. A. NOTES

One thing has been evinced during the last few weeks and that is that the Young Men's Christian association could be built into a strong organization by the united efforts of all the members as the membership has more than doubled in that time.

About fifty men have registered in Bible classes. It is hoped that the number may reach 100 in a few days.

Mr. Sam Anderson took charge of the work at the Mission Sunday afternoon. Evening services will begin there next Sunday night.

Committees have never been in as good shape as they are at the present time. Vacancies are being filled out.

The noon-day prayer meeting is proving to be one of the popular services. It is held each school day at 12:15 and continues ten minutes.

The first missionary meeting was held Sunday, as is customary. This was a union meeting and was well attended.

The state convention is held the first week of November at Hastings. Each association is allowed twenty delegates. The boys are planning to send the full number.

One of the features of the Sunday meetings is to be the instrumental music furnished by cornetists, etc. Special music is being provided each Sunday.

The concert closes Saturday night. All men are requested to hand in their cards by that time to their respective captains.

All the literary societies of the University have united in an effort to have the managers of the Trans-Mississippi exposition set apart a day for literary day. The Rock Island officials here have promised to do all they can to further the monument. It is believed that a cheap one day rate can be obtained and a large number of the students will avail themselves of the privilege thus offered to see the "expo."
