The opening of the present school year gives the students of the university a chance to show their loyalty in a new way. Acting Chancellor Bessey accepted the position which he now occupies after a vigorous protest, at the time of the summer meeting of the board of regents. The fact that he was persuaded to take the position under any circumstances is most highly commendable and should gain for him a still warmer place in the hearts of the students than he already occupies. With combined support from students of all classes a successful year should be assured to all.

It is hard for the management of a upon any subject. Above all, it is hard to tell how it all happened, why it all happened, and why the paper did not come out on time. Perhaps this is especially hard when it is the first issue of the college year. However, in this case, we feel that we will receive no censure from the student body. Our contract for the year had been awarded to the principal losers in Friday mornings fire. A large amount of our copy had already been put into type and everything united to make us believe that the paper was about to enter upon its most successful year. Although we readers will see our position and not attach any blame to us.

to afford recreation to all who desire. The financial condition of athletics is good. Hard work at the close of last year put all debts out of the way, and for the first time in years it is possible to start a team with the statement that it is out of debt. This is something that ought to be impressed upon the minds of new students. From the troubles of the past, it is now ardent desire of every student of several years' standing in the institution to keep the teams on their feet and place them where they can be of the most honor to the University of Nebraska. The Nebraskan-Hesperian wishes to urge upon all the necessity of proper support to athletic teams. Let the day of season tickets be past; it is too much of a sacrifice to the management. Let each man come to the gate on the day of the game and pay the 50 cents that will be asked, and in this way much more will be raised than has ever been before.

It will be a surprise to many of the students to see the names Nebraskan and Hesperian combined. At the same time, any who have given the matter

most important steps ever taken in college journalism in this institution. been the source of constant dissentions; the troubles stirred up in this manner have been a constant detriment to the good feeling that would otherwise exist. The union of the two papers was sion of the situation by the men in charge of each. Many members of the Alumni association, faculty and student body were consulted in the matter, one and all agreeing that it was the most advisable thing that could be done. Simultaneously to the beginning of the discussion the use of the college journalism class was offered on condition that the combination be made. all. It was conceded that it must necpublic sentiment as necessary auxiliaries, the impossible was accomplished. Both papers have lost their original size, and this with the union of the names puts in the background the identity of each paper and starts another, which, with the combined efforts honor to the university and an organ to express the true feeling of each and every student. The column of signed communications is open to every one, regardless of sex or class. If anything comes up in the university that does not meet with the approval of any literary society, fraternity or class organization, any representative may express his views and may have the guarantee paper to apologize to the subscribers that whatever he says will appear in the columns exactly as he desires it. The new management desires to print a paper that will excel any college paper in the United States. For this reason an invitation is extended to all to send in suggestions as to how any matters should be dealt with. We trust that all will give us hearty support.

Last year many desired that steps be taken toward the erection of a monument of some kind in honor of Colonel John M. Stotsenburg and the students of the university who lost their lives in the Spanish war and in the Filipino alumni or members of the faculty. We are a little late for the first issue, and struggle that followed. A man whom all of the university honors has written and asked that steps be taken to erect a memorial tablet in the institution, and in order to see that his remarks are heeded he encloses a check for a goodly amount. Letters are given below which explain Major Pershing's idea on the subject:

"WASHINGTON, D. C., August 28, 1899.—Chancellor University of Nebraska, Lincoln, Neb.: My Dear Sir-I beg to enclose herewith a copy of a letter addressed to the president of the board of regents, respecting the erection of some memorial in memory of the students of the university who have participated in the Spanish war and the war in the Philippines. I hope that active steps may be taken to carry out this idea, and I can think of no better way than starting it off in this manner.

"JOHN J. PERSHING." The enclosed copy to the regents, thought will see that it is one of the mentioned by Major Pershing, follows: all parties concerned.

"JOHN J. PERSHING."

It will be seen at a glance that some systematic plan must be devised in order to fulfill the suggestion here offered. The management of the Nebraskan-Hesperian has decided to take up the matter and if possible see it to a successful completion. To place all of the names of the university boys in the war on the tablet, together with and styles. their regiment and the battles in which they were engaged, as suggested by Major Pershing, would be a task too great for the university at the present time. It seems advisable that subscribers to the fund should be either students, headed by the name of Colonel John M. Stotsenburg.

With this end in view, the Nebraskan-Hesperian desires to raise the such a memorial. Let this sum be outside of the amount given by Major Ideal, Parker, Wirt, Pershing, although combined with it for use; let the total amount be raised among the students, alumni and faculty; let all make it a matter of their personal interest; let the work be done harmoniously, and let it begin at once.

Plans upon the subject will be gladly received by the Nebraskan-Hesperian. Any who have thought upon the matter should have some idea of how the money ought to be raised. Ideas in regard to the form and material of the tablet would also be welcome. Let the student body, with their friends, unite and do honor to the men who were formerly in our midst, but who gladly gave up their lives when they were called upon to do so.
