

CAPTAIN WILLIAMS RETURNS.

Captain Williams of the university foot ball team arrived in this city Saturday from Colorado, where he has been spending the summer for the benefit of his health. He says that he is greatly improved and thinks that he will be able to begin practice immediately with the team. In speaking of the schedule, he said that there were three games definitely arranged to be played on the home grounds. The visiting teams will be Kansas, Missouri and Kansas City medics. An effort is still being made to get a game with the University of California. If any of the other teams of the middle west desire to enter with Nebraska for a move of this kind it is thought that an eastern trip can be arranged for the Californians, which will include two games.

No game will be played with the University of Iowa on Thanksgiving day, as has been the custom in the past. Kansas offered serious objections to this game, and in order to keep peace in the league Nebraska allowed her demand. In place of the Omaha game Iowa will play the University of Illinois, while Nebraska has no game at all for that day. It is probable that Tarkio and Ames will both have games with Nebraska this year, but neither will be played here.

W. S. Heltzman, '98, for the last year teacher of history in the Beatrice high school, becomes head of the history department of the Lincoln high school for the coming year.

MUST MARRY.

If a girl in Russia wishes to study at any of the universities in that country etiquette does not allow her to do so until she is married, so she goes through the civil ceremony of marriage with a man student, whom very probably she has never seen before, and this marriage is quite legal, though perhaps they may never speak to each other again. On the other hand, if they like each other and wish it they are married for life; if they don't the marriage is dissolved when their university course is finished and they are free to marry some one else. The celebrated mathematician, Sonya Lovalevski, whose autobiography attracted considerable notice a few years ago, went through the marriage ceremony with a student whom she then saw for the first time, and who afterward became her husband. The education of women in Russia stands better than in most European countries, owing to the persistent efforts of the Russian women themselves. By 1886 they had managed to get four university colleges for women, with 1,442 students; one medical academy, with 500 students, and numerous intermediate schools. There are 700 women doctors in Russia, of whom nearly one-half are employed in the civil service, chiefly by the zemstvos.—Ex.

The New Season

Our present season's assortment of Dress Fabrics, of Ready-to-Wear Goods, Millinery, Shoes, Gloves, and all kinds of merchandise are much larger than usual, and, naturally, much better. Better, because of greater variety; because of richer and finer assortments, and because the prices are of that small nature so dear to the true economist.
