

RULES FOR GOOD RECITATIONS.

In the first place, lie low when you don't know a thing.
 And give someone else the first chance in the ring.
 If she misses, you know, and it is passed on to you.
 To guess, then the other is easy to do.
 If you do know a thing when the question comes around,
 In great inattention be suddenly found;
 Gaze out of the window, with far-away look,
 And mind everything but your lesson and book;
 And then when the teacher is caught by your wile,
 Spout forth what you know with an innocent smile.
 Try to study your lesson each alternate day.
 (A little will go, if you're wise, a long way),
 And if you do fall, after class stay and ask
 Some questions that shows how you've worked o'er your task.
 Find the teacher's pet hobby and work upon that,
 And get all the long definitions down pat.
 Don't expand things too much. Now and then make a guess,
 And remember "that nothing succeeds like success."

OLYMPIAN GAMES AT PARIS.

The dates of the Olympian games to be held in Paris next summer have been definitely decided upon. First will come the lawn tennis championships, which will be played in the latter part of June. Three days early in July have been set aside for the professional runners, and the amateur track events, in which the University of Pennsylvania and Princeton track teams will participate, will take place in the middle of the month. Cricket will probably be played late in July, but no matches have yet been arranged. September 9 and 10 have been allotted to base ball. France will meet Belgium at hockey on September 30 and England on October 7. In the latter part of September France will play association foot ball against teams representing Switzerland, Belgium, Germany and England, respectively. Rugby foot ball matches will be played in the middle of October between France and Germany, England and Germany, and France and England.

Dr. Shoemaker's Private Hospital.

Special attention given to all Diseases of Women. (All surgical diseases are treated by the most approved methods. Every convenience for Pelvic and Abdominal Surgery **Baths for Ladies Only.**—Special attention given to Massage and Swedish Movements in their most recent developments by the trained manipulator in charge.

The University of Minnesota

College of Medicine and Surgery.

The Twelfth Annual Course of Lectures will commence on the 19th day of September, 1899, and will continue eight and one-half months. The course is graded and covers a period of four years. Medical Hall, the Laboratory of Medical Sciences, the Laboratory of Medical Chemistry and the Laboratory of Anatomy are situated upon the University campus. The clinical opportunities afforded by the hospitals and dispensaries of Minneapolis and St. Paul are at the command of the College. For out-door clinical service a new clinical building has been built in a central location.
