

WISCONSIN'S PLAN.

All the exchanges from other universities which are received by the Cardinal of the University of Wisconsin are now to be kept on file and later in the year to be presented to the State Historical Society, of Wisconsin. Mr. Raymer, the originator of the plan, is a curator of the State Historical Society, and has always been on the alert for anything which would aid the state library and especially the students of the university. The various papers and magazines will be bound and placed in the state library where the students may have easy access to them, especially when the library is removed to the new building. The collection of the different college papers will be valuable material for reference, especially for the study of the life in the different colleges and universities of the country. Besides this many valuable articles on lectures, experiments and investigations are to be found in these files.

Another plan which has been proposed is to have all the fraternities and sororities of the university keep their monthly magazines on file and at the end of the year give them over to the state library to be bound and placed on file. These magazines would be valuable not only to the various fraternities and sororities but to all the students for works of reference, in university and fraternity life, at the different institutions of learning in this country.

LELAND STANFORD SECURES A COACH.

F. H. Yost will coach the football team of Leland Stanford next fall. Last year he coached Kansas and the preceding year Nebraska. The year before that, he coached Ohio Wesleyan, whose team of that year is well remembered by Michigan students. It was during that season they met us on Regents' field and put up as dirty a game of ball as has ever been seen on our grounds.—U. of M. Daily.

ANNUAL BANQUET.

The fourth annual banquet of the school of agriculture of the University of Nebraska was held on last Thursday in the Dairy building out at the state farm. A delicious menu was served to the guests after which came an intellectual feast. A. L. Haecker, instructor in dairying acted as toastmaster in a most happy style, and these toasts were made.

- Chancellor Bessey—"Growing Parts of the University."
- Dr. Davis—"What I know About Agriculture."
- Mrs. Monroe—"Short Course Boys."
- Prof. T. L. Lyon—"The School and the Station."
- Chas. Melich—"How can we Bring Girls to the Farm."
- O. E. Buckley—"Do I Look Like a Lawyer."
- E. G. Montgomery—"Cranks in the Dairy."
- Prof. A. E. Burnee—"The Future Farmer."
- A. J. Wilson—"The Faculty."
- Prof. A. E. Davison—"What Shall Our Future Be."
- W. Small—"When I Get a Farm."
- Prof. Bruner—"Budding" — — —
- Val. Kyser—"Long Course Boys."

worked in the government commissary department at a good salary, but concluded he could make more in a private enterprise. Another member of his company, Mr. Henderson, is in partnership with him. Mr. Slaughter expects to visit Asia, Japan, Australia, Borneo and other Oriental countries before returning to the United States.

UNIVERSITY MEN IN CONGRESS.

When in Washington recently, President Angell referred to the number of U. of M. men in congress. Several Eastern papers have undertaken to dispute the statement. The matter has been carefully looked up here and the claim has been found to be too small.

Seventy-four graduates and students of the University of Michigan have been elected or appointed to the different congresses of the United States since 1830. They have been sent from twenty-three states. Of the total number, 24 were from Michigan, 8 from Ohio, 6 from Indiana, 5 from Minnesota, 3 each from Illinois, Kansas, Nebraska, and Wisconsin, 2 each from California, Iowa, Kentucky and Utah, and one each from Colorado, Idaho, Maryland, Missouri, New Jersey, New York, North Dakota, Pennsylvania, South Dakota, Tennessee and Washington. Nine of the 74 men were elected or appointed to the senate, and the remaining 64 to the house of representatives. The present congress has twenty members who are graduates of Michigan—U. of M. Daily.

Miss Huntington of Omaha has registered this week, and will specialize in domestic science.
