

ADDITIONAL LOCALS.

O. T. Reedy '98 draughtsman in the chief engineers office at Omaha spent Sunday in the city.

The topic announced by Dr. Judson, for his commencement oration at the Oliver June 7, is "The College and the Republic."

The Phi Beta Kappa oration by President Slocum, of Colorado College, will be given in the opera house, on Wednesday June 6 at 10 o'clock in the morning.

Prof. O. V. P. Stout made a trip to Norfolk and Arlington last week to investigate the work of the gauging stations of the U. S. geological survey work.

Dr. Sherman's new edition of Tennyson's "Princess," published by Henry Holt and Co., Chicago, will appear this week. This edition has been prepared primarily for use in the classes here at the university.

Prof. O. V. P. Stout went to Omaha Monday to meet Elwood Mead expert in charge of irrigation investigations of the United States department of agriculture, and to confer with him in regard to Nebraska work which Prof. Stout has charge of for the coming year.

Word was received in regard to Dr. L. E. Hicks, who was for many years professor of geology in this university. He is at present at the head of the Baptist College in Rangoon, Burmah. He indicates that he is enjoying his life very greatly, and feels that the rest of his life will be spent in this far away country.

The Omaha Commercial College will have enrolled at the end of the present college year over twelve hundred students in all departments. The Summer Term opens Monday morning, July 9. The Fall Term will open Monday morning, September 3. Catalogue and elegant specimens of penmanship free to any address.

Among the fellowships awarded at Columbia university, New York, last week was one to Alvin Saunders Johnson, of Dakota City, in economics, who holds his bachelor's and master's degree from the University of Nebraska; also one to Hartley Burr Alexander, in Philosophy, who holds his bachelor's degree from the university in '97.

Dr. P. A. Rydberg, '91, curator of the herbarium of the New Botanical Garden, called at the chancellor's office a few days ago. He is in the west to collect and study botanical material for the institution with which he is connected and also for the University of Nebraska. He will collect about Lincoln and in the western part of the state for a time, and ultimately goes as far as southern Colorado.

Monday evening May 14 at 8 p. m., Mr. A. E. Carter '01 of the department of civil engineering will give an illustrated lecture to the engineering students in room 211, Mechanical Arts building. Mr. Carter before entering the university was connected with The Montana Power Co., and held a responsible position in the construction of their dam and plant. All interested in engineering are invited to this lecture.

The great Ecumenical conference for foreign missions recently held in New York City has stimulated an interest in that line of work in all parts of the country. Next Sunday an echo meeting will be held in the chapel as a joint meeting of the Y. W. C. A. and the Y. M. C. A. to which all students are cordially invited. Three of those in the university who are preparing to go to the foreign field will speak on the subject: "Why I am a volunteer for the foreign field." All students should attend this meeting as it doubtless will be the last union meeting of the year. Sunday at 4 p. m.

THE UNIVERSITY RECORDER.

Miss Mabel Tuttle assumed her duties as university recorder, the first of the week. Two years ago, Miss Tuttle held a place in the executive office but gave it up to accept a position on a Chicago paper. Her new duties here as recorded will be numerous and of a varied character. She will be secretary to the appointment committee and applicants for schools will consult her in the future instead of Mr. Crabtree, whom it is difficult to see because of his continued absence from the city. Miss Tuttle will also keep the records of the deans, minutes of all faculty committee meetings, and of the university senate. She will also act as stenographer and assistant to Dr. Lees, the examining dean. Her office will be in room 104, University Hall.

A new system of Shorthand, called the Gregg, is now being taught at the Omaha Commercial College, Omaha, Nebraska. This system differs from Pitman and Graham in that it has but one position, one slant, no shades, less than 200 word signs, is four times as legible, and admits of great speed. It can be learned in half the time, and is well adapted to all purposes for which Shorthand is used. Anyone thinking of becoming a stenographer should write at once for information about this new system.

**The University of Minnesota
College of Medicine
and Surgery**

The twelfth Annual Course of Lectures will commence on the 19th day of September, 1899, and will continue eight and one-half months. The course is graded and covers a period of four years. Medical Hall, the Laboratory of Medical Sciences, the Laboratory of Medical Chemistry, and the Laboratory of Anatomy are situated upon the University Campus. The clinical opportunities afforded by the hospitals and dispensaries of Minneapolis and St. Paul are at the command of the College. For out-door clinical service a new clinical building has been built in a central location.
