In view of the Thanksgiving game the following concerning the game between the University of Minnesota and the Central High school will be of interest. The score was 0 to 0. We quote the Minnesota Daily:

But for the fact that the game Saturday is being taken so seriously the result would be ludicrous. As was predicted the game was made very interesting for the Varsity team. Central's last year's champion eleven showed remarkable form and played with the same dash and precision which last year won them so many victories.

On the other hand the work of the Varsity was in no way satisfactory, and in many respects it was ludicrous.

The men were inferior to their opponents in both defensive and offensive play, in rapidity of execution, and in the knowledge of the finer points of the game. They excelled Central in weight both in and behind the line, but because of their inability to mass were unable to employ this advantage to the securing of any substantial gains, though what gains Varsity made were made in this way. Though the work in some departments of the game and in certain positions calls for severe rebuke yet it seems best not to criticize anything or anyone particularly as it might give the impression that in other features and other positions the game was played well, which would be erroneous. There were few redeeming features in the Varsity's play.

IOWA.

The football practice since the team returned from camp has not been of a character to satisfy hopes. Nor has the number of candidates—at no time more than thirty-two—been as large as expected and needed. It was hoped that at least fifty candidates would appear for practice during the week just closed. Schedules have been prepared for two teams, whereas few more candidates have appeared than the necessary number from which to select one. More candidates are wanted at once.—Vedette-Reporter.

KANSAS.

The Kansas University Weekly regards the football situation there as very satisfactory and predicts a winning team. Four men from last year's team are back and there is plenty of new material. Coach Boynton is a Cornell man and comes highly recommended by Yost.

MICHIGAN.

The U. of M. Daily complains of the lack of material for a team.

INSTRUCTORS NEEDED.
President Northrop has received a communication from the superintendent of public instruction of the Philippine Islands. It is proposed to establish schools of agriculture throughout the islands and instructors for the schools are desired, men who will study the agricultural conditions there and teach the best methods of cultivation for the raising of products peculiar to the islands.
Men who desire to undertake the work specified will be expected to remain in the service at least three years. Their travelling expenses to the islands will be paid and a reasonable remuneration given for their services. The superintendent of instruction wants to know if any U. of M. graduates are available for the work. Further information can be obtained from the president and names of all applicants for positions should be handed to him.—Minnesota Daily.

SCHOOL OF MUSIC NOTES.

The first faculty recital will take place on October 16. It has been postponed one week on account of the large number of things that are going on in the city. An interesting program will be presented on that date.

Mr. Howard Kirkpatrick, one of the new members of the faculty, is meeting with great success in his work, and we hope that his voice may be heard in public very soon.

A Mandolin club has just been organized which will have a membership of about twenty. All persons who are interested in this instrument ought to make themselves known at once, and if possible get into the organization. The first public appearance will take place some time in November.

There is a larger percentage of new students in the School of Music this year than ever before, and it is a noticeable fact that many have come from other schools of music. Among those who have registered this week are Miss Nellie Wagar, Edgar, Neb.; Catharine Agnew, Plattsmouth, Neb.; Agnes McLaughlin, Harry Wharton, Lincoln; Mrs. Maud Parker, Beatrice; Lulu Armstrong, Hamilton, Mont.; Anita Sweney, Sheandoah, Ia.

Miss Daisy Houck of Grand Island spent a few days at the school during the week.

Miss Lula Jennings, after a brief illness from heart trouble, died at her temporary residence, 18th and P sts., last Sunday morning. Miss Jennings was a student of much promise and had just taken up the work vigorously when she was taken suddenly and severely ill.

The Friday morning musicals in place of the regular chapel exercises will be resumed early in October or as soon as we hold chapel exercises in the new building.

AMERICAN HISTORY SEMINAR.

Prof. Caldwell starts this year in the Seminar the very important work of collecting facts and data on the local history of our own state. The special topics taken for thesis along this line are the subjects of "Transportation," by Mr. Persinger; of "Political History," Mr. Hart; of "Constitutional History," Mr. Aylesworth, and of "Municipal Legislation," Mr. Mercer.

These gentlemen are intimately connected with the University and will evolve the questions from a good, broad standpoint. One of the questions to be discussed in the daily work of the Seminar is that of population, taking up the various peoples that have settled in the state, the Germans, the Swedes, the Irish, etc., and the effect they severally had on the development of the state's resources. This subject includes the questions of social development, clannishness, the industries that grew up among the various communities, and thrift and industry. Another interesting subject is the "Industrial History" and an important phase of that the change from a purely agricultural stage to one of diversified industries and the bearing that this change had on the granger and populist movements—how far they can be traced to that cause.

In the constitutional history an interesting phase is the evolution of the state departments. At one time the governor exercised the functions of attorney general.
