

Who is Ludwig?

Ludwig the College Tailor.

Princeton University celebrated her 154th birthday last Saturday.

Miss Lillian Robeson of Omaha is pledged to Delta Gamma.

Kappa Alpha Theta has pledged Miss Anna Russell of Glenwood, Iowa.

J. W. Crabtree has been visiting high schools in the northern part of the state for the past week.

Several blooded cattle of the Short-horn and Hereford variety have been recently purchased by the School of Agriculture.

Miss Johnson of Holdrege is attending the university this year. She is a Gamma Phi Beta from North Western University at Evenston, Ill.

The athletic board is planning to erect bleachers on both sides of the foot field. They will accommodate several thousand people.

A large picture of Chancellor Andrews enclosed in a neat black frame has recently been placed upon the south wall of the library reading room.

E. G. Woodruff the manager of the senior foot ball team called a meeting yesterday during chapel for the purpose of electing a captain and perfecting arrangements for the games.

In spite of the heavy work in their respective departments, Dr. A. T. Peters and Mr. Robert Hiltner have found time to give to the public an English edition of a German work on Milk Analysis.

Don't forget when you need History Paper and Covers, Fountain Pens, Note Books, Text Books, Translations and other supplies, that the book Department of Herpolsheimer Co. is the best place to buy them.

Panoramic views of the U. of N., mounted and ready for framing, 50 cts. each at the Music and Picture Department of H. Herpolsheimer Co. Mat and Poster Boards in all colors, 15 and 25 cts. per sheet. ...New Music at half price.

A new edition of Platus' "Captives" has recently appeared from the pen of Prof. E. G. Barber. The *Wochen-schrift fur Klassische Philologie* of September speaks very highly of the work. Prof. Barber is also at work on a new edition of Hale's Latin Grammar.

The senior law class held rather an exciting class meeting October 17th. A clash of ambitions for the office of President was the cause but an agreement was finally reached and Miss Battersen elected to fill the position. Mr. Coffman was elected Vice-President, Mr. Riardon Secretary and Treasurer, and Miss Rogers Sergeant at Arms.

There will be a meeting of the Nebraska section of the collegiate alumnae at 3:30 p.m. next Wednesday at 609 So. seventeenth street. The purpose of the association is to bring into closer touch the women who have graduated from the U. of N., as well as to promote a closer union with all college women in the country. The association hopes to undertake some work in the interest of education in the near future.

The Maxwell club met last Saturday for the election of officers for the first term. Mr. Hogan was elected President, and Mr. Rotruck Secretary. A resolution was passed unanimously by the club, to debate political questions at their regular meetings until after election, placing each debator on the side of the question which he believes is right.

The honor Society of the Sigma Xi has planned for four or five public meetings, at which, scientific papers will be read or addresses given by prominent men. Professor Sweezy has promised to give an illustrated lantern lecture on the results of his observations of the eclipse of the sun last May. This lecture will be given after the holidays.

The debating association held a meeting Monday evening, October 15. The question of changing the manner in which the preliminaries are held was discussed. It had been suggested that the preliminaries be held by the various debating clubs and the expense borne by the members who took part therein, but this met with much opposition. The matter was referred to a committee. A committee was also appointed to draft a new constitution.

Miss Nina Prey, of this city, has presented to the Botanical Department of the University a valuable collection of woods, plants, seeds, etc. which she made while in Mexico. There are thirty blocks of wood of various kinds; thirty-seven specimens of flowering plants and ferns; sixteen different kinds of seeds, all of which can be grown in the plant-houses. Besides these were ten specimens of fung', lichens and mosses. These specimens will be prepared for exhibition as soon as possible.

An extemporaneous oratorical contest will be held this year at Minnesota University between representatives from Nebraska and Minnesota. Plans are now being arranged by Prof. McDennot of Minnesota and Schuyler Miller of Nebraska for the perfection of a Nebraska-Minnesota Extemporaneous Oratorical Association.

These plans were nearly perfected last year and it will take but a short time to complete the minor points yet to be settled. It is the intention to have the preliminary contests just before or just after the holidays.

The class in sugar chemistry which has been at Ames, Nebraska for the last week returned last Sunday evening. The following were the members of the party: A. A. Sims, Joe Vavra, H. J. Klinge, Otis Hymer, J. E. Blackman, W. G. Hiltner, L. V. Stuhr, Ernest Bridge, and Y. Mikaldo. They were under the charge of R. W. Thatcher, chemist at the State farm.

About 4,800 sugar beets were analyzed during the week. The beets are analyzed in order to select the best ones to use for seed. The work was carried on in the University of Nebraska sugar laboratory at Ames, Nebraska, and was done for the Standard Cattle Co. The boys visited the large sugar factory there and saw it in operation. Prof. Lyons visited them Tuesday and Dr. White and Mr. Robt. Hiltner went up Saturday to inspect the work and visit the factory.

If you know you won't tell, will you?
1. What makes a coach dog spotted?
2. Two hens stand on Mt. Lookout. One faces east, the other west. When will they face each other?

The University of Minnesota

College of Medicine and Surgery

The thirteenth Annual Course of Lectures will commence on the 19th day of September, 1900, and will continue eight and one-half months. The course is graded and covers a period of four years. Medical Hall, the Laboratory of Medical Science, the Laboratory of Medical Chemistry, and the Laboratory of Anatomy are situated upon the Campus. The clinical opportunities afforded by the hospitals and dispensaries of Minneapolis and St. Paul are at the command of the College. For outdoor clinical service a new clinical building has been built in a central location.
