

surprised the Gophers and tore their much heralded stone wall to pieces. He made the second touch down and will therefore be entitled to two hats presented by Mayer Brothers. Cook stated at full back and played a strong game repeatedly hurdling the line for gains. After a few minutes playing he had two ribs broken and was forced to retire from the game.

Crandall played his usual strong game but was at a disadvantage because of the weight of the opposing team. Montgomery on the defensive played a strong game and tackled fiercely. He broke up the heavy interference many times. Bender took his place in the second half and made several good runs although he was not so strong on the defensive.

Nebraska's ends, Cortelyou and Johnson played good football and brought forth much favorable comment from the Minnesota side. A common comment on Cortelyou from them was "Get that sorrel top. Look out for that red head and get him out of the way." Johnson did good work and tackled well. Wurl went in as full back during the last few minutes of play but did not have a chance to show his worth.

FEATURES.

Minnesota made her first touch down in seven minutes after the kick-off. The first few plays were watched with great interest by every one because they would probably settle some of the uncertainty concerning victory. Nebraska kicked off and went into the play with a rush. The northerners seemed rattled and were soon forced to kick. However, they soon recovered the ball and started down the field carrying the ball to the thirty yard line. Here Nebraska held them two downs for no gain and Knowlton tried a goal from field. He failed. The ball was brought to the fifteen yard line and punted for twenty-five yards. Minnesota then plowed through Nebraska's line for good gains and soon had a touch down to their credit. The Minnesota crowd went wild and cheered to the echo. Knowlton missed goal. Nebraska kicked off but soon gained the ball on Minnesota's 40 yard line. By line bucks, Nebraska carried the ball to the 15 yard line and a touch down seemed a certainty. Only two downs had been necessary to make the five yards each time and Crandall had made one yard gain. A fumble on the next play cost Nebraska the ball and she lost the chance to score.

Minnesota tried the line for no gain and then an end run but Cortelyou made a pretty tackle causing a loss. Knowlton punted to the center of the field. The ball changed hands and Minnesota punted again. In the next scrimmage, Cook received his injury and Pillsbury went into the game. The Gophers soon punted Nebraska securing the ball on her twenty-five yard line. Ringer punted on the third play and Minnesota soon returned the ball to the corn huskers 30 yard line. By line bucks another touch down was secured and Knowlton missed goal a second time. Nebraska kicked off and Minnesota was soon forced to punt placing the oval in the center of the field a few plays gave Minnesota the ball and she punted. Crandall returned it to Nebraska's 40 yard line.

At this point, Pillsbury made his star play of the game. Ringer fell back for a punt and Van Valkenberg started back to catch the ball, but it was quickly passed to Pillsbury, who went through a hole in the line and started for the goal line seventy yards away with two Minnesota men to defend it. Pillsbury out ran those

behind him with the excellent interference of the team and had soon dodged past the other two planting the ball behind the goal posts after one of the most sensational plays possible in a game. Ringer kicked goal making the score 10 to 6 in favor of the Gophers. Minnesota kicked over the goal line and the ball was brought out to the 15 yard line and punted. An exchange of punts and several mass plays placed the ball on the corn huskers 25 yard line in the possession of the Gophers. Two downs netted no gain and Knowlton tried for a place kick. This time he was successful making the score 15 to 6 in the northerners favor. Nothing was accomplished during the remainder of the half and the only feature was Drain's 25 yard run in returning a punt.

SECOND HALF.

The second half was hard fought by both sides and each secured a touch down. The rally of Nebraska was a surprise. Bender had taken Montgomery's place at right half. Minnesota kicked off to him and he returned it 20 yards by a brilliant run through the Gophers placing it on Nebraska's 45 yard line. Nebraska got 10 yards on an offside play. Crandall and Pillsbury made the five yards but the ball was held for no gain on next downs forcing a punt for 40 yards. Johnson tackled the Gopher before he could return the oval an inch. Nebraska held for downs and secured the goal on Minnesota's 40 yard line. The Nebraska rooters were wild and cheering their players to their best efforts. A foul gave the ball to Minnesota and the supporters of old gold and maroon felt easier.

The Gophers made 5 yards through the line in two downs and then 20 yards on a mass play through our left end and tackle. Westover blocked the next two plays for no gain and Koehler stopped the third giving the oval to Nebraska on downs on her 40 yard line. At this point Nebraska rallied and by swift plays and fierce line bucks played the Gophers off their feet going 70 yards down the field without losing the ball. Crandall started it by making a yard. Pillsbury hit the "stone wall" for eight yards and then four. Crandall felt it his duty to do something so ran out between end and tackle for 15 yards. This put the ball on the northerners 30 yard line. Nebraska rooters were wild again and the Minnesota aggregation was calling to its players to rally. It was of no avail.

Bender made 4 yards between end and tackle. Pillsbury repeated the play for 9 yards. Bender and Pillsbury together made five yards. Crandall and Drain followed with 5 more. This placed the ball on the Gophers' seven yard line. They were making frantic efforts to hold the corn huskers, who were playing like fiends. The gold and maroon rooters had long since become quiet. Bender made a yard and the reliable Pillsbury shot into the line. When the Gophers recovered he had added four yards more to Nebraska's credit. There was only three yards more to make and three downs to do it in. Could the Corn huskers do it? Pillsbury was called on and made the distance on the first attempt. Nebraska rooters again went wild and the steam whistle could not be heard above the cheers of the multitude. Ringer kicked goal and the score was 15 to 12 in favor of the northerners.

If the light Corn huskers could again play the Gophers off their feet, victory would reward their efforts. Knowlton kicked off and Crandall returned the pigskin 20 yards. Bender followed with 12 yards on an end run. Some

one fouled and the ball went to the Gophers on their forty-five yard line. They worked the ball down the field 15 yards and then were held two downs without gain. Knowlton tried a place kick but failed. Pillsbury punted from the 25 yard line for 50 yards. The northerners worked the ball to the center of the field and were forced to punt. The back field muffed the punt and Cortelyou got it on the 35 yard line. The Corn huskers were forced to punt and Cortelyou made a pretty tackle before the oval could be returned. Then by line bucks the heavy Gophers, who had rallied, rushed the ball down the field for a touch down by Hoyt. Knowlton missed the goal making the score 20 to 12. Only a few minutes remained to play and both sides fought fiercely to gain an advantage. The playing was done in the Gophers territory but the Nebraskan's could not score again. The game ended with the ball on Minnesota's 40 yard line.

FOOTBALL NOTES.

The Nebraskan-Hesperian gave out five hundred megaphones and two thousand copies of the Nebraska yells at the game.

The athletic board will end the season with four or five hundred dollars in the treasury to start with next season.

Minnesota sent six hundred rooters to Lincoln. The first train arrived Wednesday noon and the second on Thursday. The rooters marched to the Lincoln hotel to the tune of "There will be a Hot Time etc." The zig zag cake walk behind the band was a prominent feature and brought forth much favorable comment.

The Minnesota and Nebraska bands took turns playing for an hour before the kick off. The music of both was good although the steam whistle could easily make more noise than both of them together.

THE ALUMNI ORGAN.

Attendant upon the opening of the new chapel and the use of the Alumni organ, a few facts concerning it may be of interest.

The organ was built, primarily, for use at the Transmississippi Exposition, in the music hall. Professor Kimball, of the School of Music, was then musical director of the exposition and the manufacturer M. P. Moeller, of Hagerstown Md. referred the plans and specifications to him. The idea of it sometime becoming the property of the University then occurred to Mr. Kimball and the plans were drawn accordingly.

After the Exposition was over, a meeting of alumni was called, and the purchase of it was determined upon, they promising to pay twenty-five hundred dollars of the three thousand required, Prof. Kimball promising, in behalf of the School of Music, five hundred. This was a special offer, the

manufacturer saying that he would not duplicate the instrument for seven thousand.

The amount promised by the alumni has been obtained from former students and graduates in donations not exceeding ten dollars.

The organ as it stands now in the chapel is a very beautiful instrument, with ornate case of oak. It has twenty-three hundred pipes, with three manuals and fifty registers. It is throughout, of the latest model, with all the up-to-date appliances, one feature being radiating and concave pedals enabling the player to operate the instrument with the greatest ease.

The stops are very complete, the string and voxia luminaria tones being particularly beautiful, rich and full. The organ, as a whole, is one of the finest west of the Mississippi river.

It is not expected that it can be used at the opening of the new chapel, as it is not sufficiently tuned, nor is there any power to supply the air. It will be run by electric power and the motor will be very late in arriving, considerable time then being required to set it up.

A special program will probably be rendered with its use at the dedication of the new chapel which will probably occur about Charter Day. It is suggested that that day would be a very appropriate one on which to have the formal dedication ceremonies, a fine program being given in the presence of the state and university officials.
