A number of potted geraniums will soon be sent to the farm where they will be used in experimental work.

During the short vacation Richards and assistants were busy up the engine and engineering apparatus in the steam laboratory.

The chemistry department received its last shipment of supplies last Friday. The goods are from Hamburg and came by way of New Orleans.

Brome grass raised on the University farm was distributed among ninety-five residents of the state. This grass has just been imported into this country and the area planted is rapidly increasing.

Students are invited to visit the taxidermy roost. It is situated in the Mechanic Arts Hall, directly under the north-west corner of the roof. Mr. Hunter, who is in charge, will gladly answer questions and give all desired information.

The green house and the campus force was out Friday cleaning up the paper which was left from the game Thursday. Nearly everyone destroyed their paper megaphones and scattered them about the campus and they make a very untidy appearance.

Those pennants at Ludwigs went like hot cakes last week. They were the finest in the city. He has other things equally as nice. Whenever you need anything in furnishings you will be perfectly satisfied if you see him about the matter.

About seventy engineering students met at the Mechanic Arts hall on Tuesday evening and adopted the constitution for the new society for engineers. B. W. Benedict was elected temporary chairman and holds the office until the society is made permanent. The next meeting will be held on Wednesday evening, Dec. 12, when the constitution will be formerly adopted and the officers for the year elected.

Mrs. Ella Hart Bently returned to New York City Monday. She went to rejoin her husband now at Columbia University, where he will be located for two years. He has a fellowship and will take work at the teachers' college. Mr. Bently is a graduate of the University.

The Debating Association will hold its contest to determine who will represent the University in the interstate debates immediately after the Christmas holidays. They will be held this early because the Kansas debate comes off in February. There are now fifty-four entered in the various clubs.

The Y. M. C. A. directory will be out about December 18. The names are being prepared by the University publisher. A committee is at work soliciting advertising from the merchants of the city. C. C. North is in charge of the directory.

Through the efforts of the experiment station, winter wheat is being raised in locations where its culture has not before been attempted. This year the state distributed winter wheat in quantities of twenty pounds among three hundred and sixty-four persons living north of the Platte river.

At the mass meeting in the armory last Tuesday, Mr. Fred S. Barry of Iowa made a short speech to the rooters. He told how Iowa had gone into class "A" because her students had united to support the team through and thin. He felt certain that Nebraska had the student body better than the team they could win from Iowa. Mr. Barry was formerly president of Iowa's athletic board.

Prof. Kimball is pushing the grand opera as well as his time will permit. He says that it will be the greatest that has ever come to the city; it will not be a part of the grand opera company, but the entire company as it has appeared in other large cities of the United States. The opera is being advertised in all parts of the state and a large attendance from out of town is expected. Booklets, cards, and circulars are being sent out about the country, describing the operas and the members of the company.

The chrysanthemum season is about over at the green houses as nearly all the plants have been removed or flowers cut, barely enough flowers remaining to form a large bouquet for the chapel exercises in the new chapel next week. The space taken up by them is rapidly being filled with the potted plants, mostly geraniums. The roses have been suffering a good deal from bugs and are in bad condition, but Mr. Cross has not attempted to fumigate them yet on account of the chrysanthemums.

The Palladians will hold their preliminary trial to decide who shall represent them at the Debating association's contest, in their hall, December 8. There will be two divisions. The first will have the question: "Resolved, that England was justified in her actions in South Africa." The contestants are Berry, Johnson, Dickinson, on the affirmative and Schuyleman, Doubt and Miss Griffin on the negative. The other is Resolved, That the United States acted wisely in passing the Porto Rican tariff bill." On the affirmative are Wessel, Heartt, Shidler, and on the negative, Gordon, Lightner, and Lee. Dr. Rowlands, Professor Jones and Judge Field will act as judges.

Two sections have been organized for the Union preliminaries. The first will discuss the question: Resolved, That the United States should interfere to protect the Southern negro in the exercise of suffrage." The debaters are Meier, Taylor, Stull, Swenson, Maxwell, Strayer, Cronin and Miss Anstine. The second, represented by Duff, Gubser, Craft, North, Finsen, French and Dasenbrock, will discuss, Resolved, That congress acted wisely in passing the Porto Rican tariff bill." The contest will take place in Union hall, December 7, and each speaker will be allowed eight minutes. The judges will be Piper, Wilson and Miller.

The Delian preliminaries will be held December 7, in the chapel. The subject to be discussed is, Resolved, That combinations of capital tending to control industries should be prohibited by law." Burkley, Theobald, and Hoge defend the prohibition and Harrison, O'Connell and James deny the necessity. Professor Hinman, Miller and Boomer will be the judges. The first debater on the affirmative will be given twelve minutes to open the question and five to close. The others will have fifteen minutes.
