## EVERY MAN WHO EARNS HIS MONEY

Can fully appreciate the value of a dollar. To such men we make the following remarkable offer:

## ADVANCE SALE SPRING GOODS

We have in our house one hundred and thirty suits of fine Spring Clothes left from last season. Nearly all of them are from late shipments and run in price from \$12.00 to \$15.00. They are all Sack Suits and mostly staple designs and are of the very best make in the country.

## YOU CAN HAVE YOUR CHOICE OF THESE FOR

\$9.99 SUIT

Absolutely no suits are reserved and we expect these to last but but a short while.

## MAYER BROS.

A few days ago, Major Pershing, formerly commandant of the battalion in the University, sent to the Department of Botany a fine collection of sticks (canes) as samples of the woods growing in the Philippine Islands. Major Pershing is now stationed at Zumboanga.

The Sophomore class has begun to manifest its presence. Last Wednesday a red sign bearing the white letters "03" was placed on the girders of the new chapel, directly in front of the organ. There has been much speculation as to how it was done. The janitors profess ignorance in regard to the matter, and as yet the whole affair is shrouded in mystery.

Dr. White has adopted a novel method for conducting quizzes in his class in qualitative chemistry. The students take turns in assuming the role of instructor and conducting the quizzes themselves. Each student, when in charge of the class, is held responsible for answering any question which the members of the class may ask, as well as asking questions himself.

Professor Bessey has been urged to join an expedition to the Vancouver islands which has been planned by a number of botanists. The expedition is to leave Minneapolis about the middle of June, and return sometime in July after an absence of about six or eight weeks. Professor Bessey has not yet determined whether he will be able to join the expedition or not.

A sugar crank visited the chemistry department last week with a sample of a new sugar which he had prepared. He claimed that it was several times sweeter than ordinary cane sugar and could be produced cheaper. The mem-

bers of the sugar class subjected a sample of it to analysis. It proved to be nothing but ordinary cane sugar with perhaps a little saccharine mixed with it.

The Experiment Station will shortly issue two bulletins: "Some Forage Plants for Summer Feed," and "Feeding Skim-milk to Calves." Twenty thousand of each will be issued. Professor Bruner has also a new bulletin in press on the subject of "Grasshoppers." This is one of the regular Experiment Station bulletins, and is especially gotten up for the benefit of the farmers over the State.

The new edition of the Phytogeography of Nebraska, by Drs. Pound and Clements, has just been received from the printers by the Department of Botany. The University people are much pleased with the fine printing, and the excellent paper which this edition contains. Within a few days copies will be sent out to botanists and others who are especially interested in work of this kind.

The Dramatic Club met in the old chapel Tuesday afternoon and adopted a constitution and elected officers. Miss Howell was elected president. Only members of elocution classes in the University will be eligible to membership. It has decided to assess each member twenty-five cents, which money will be used to buy plays and stage accessories. The club will have one regular meeting each month, and such other meetings as the president may see fit to call.

The program rendered in chapel Friday, consisted of two violin solos by Mr. Husted, together with an organ solo by Professor Kimball.
