It is not too much to say that it is the finest display of Clothing ever shown in Lincoln. The fabrics are all woven for this season, and the garments made up to suit the most fashionable men. Every garment has the air of individuality that is often sought and so seldom found in ready-to-wear clothes.

EWING CLOTHING CO.

1115-1117 O STREET

LINCOLN, NEBRASKA

The reports of Y. M. C. A. work in the state for the last year are out and can be had at the Y. M. C. A. parlors. They will be of value to all interested in state Y. M. C. A. work.

Spencer V. Cortelyou left last Tuesday for Bakersville, Cal., where he has a position in the oil fields. Mr. Cortelyou completed this semester's work before he left. He expects to return the latter part of August and play for his old place at right end on next year's team.

The mathematical seminar met Saturday, May 4, at 7:30 p. m., in M. 302. The following papers were read: "On the Stratification of the Number Body," by Dr. Moritz; "Notes on Determinants," by Dr. Candy; "On Radicals and an Extension of the Calculus," Dr. Moritz.

Mr. Hiltner of the department of chemistry has received a number of specimens of the mineral, carnotite, presented by Dr. O. A. Elliott of Paradox, Col. The mineral is particularly interesting because of its chemical composition. Analysis has shown it to be largely potassium uranium vanadate.

The university was defeated in the second of the interstate debates, held at Boulder, Col., last Friday night. The decision of the judges was two to one in favor of the University of Colorado. The Nicaraguan question was discussed. Miss Anstine and Messrs. Finson and Paulson represented Nebraska.

Professor Ross' class in "Cities" has completed a long research into the social phenomena of city life. The result of their research into the economic bases of some seventy cities will be typewritten and returned to the students, making a most interesting souvenir of the course.

Dr. Dean T. Smith, a former student of the University of Nebraska, has been appointed professor of surgery and clinical surgery in the homeopathic department of the University of Michigan. Dr. Smith has been temporarily serving in that capacity since the beginning of the year, and his election is a high tribute to his ability as a medical instructor.

One of the engineering students recently received a letter from a freak in Germany, in which the latter offers for sale a patent-right for the comparatively small price of \$125,000. According to the letter the invention is an appliance calculated to prevent railway collisions; however, no drawings or description of the apparatus was sent. The freak evidently thinks that Americans have money to burn or else he is extremely generous, since according to his estimate, \$3,750,000 will be realized from the sale of a sufficient number of appliances for the protection of American railways.

At the University of Wisconsin the baseball manager offers baseball coupon books for \$2.50. The book entitles the holder to take a lady to every game gratis. Two ladies may use the same coupon. Fifteen games are already scheduled, which makes the cost per game 17 cents, "and when you consider that a lady is entitled to go into every game you must acknowledge that the inducement is very liberal and should be taken advantage of."

The regular spring football practice began at Harvard April 1st. Twenty men reported for work and were coached in kicking, starting and falling on the ball and in short runs.

Chas. Hummel left last Friday for Toluca, Mex., where he will be engaged in the construction work of the B. & M.
