

The men of company B were the guests of their officers last Saturday night at the Sigma Alpha house. Addresses were made by the officers, refreshments were served and a general good time was enjoyed by every one.

The portrait of Dr. Edgren which the senior class will present to the university is now completed. It is an exceedingly faithful likeness, and the class considers itself fortunate in securing Miss Hayden to do the work.

Professor Barbour has just received a copy of Filipino military tactics from Lieutenant Lewis S. Ryan, a former student in his department, who captured them from the quarters of Major General Beleramero March 24, 1900.

Wednesday evening Miss Edith Shaw was initiated into Delta Gamma at the chapter house on Eleventh and H streets. The initiation was followed by an informal spread. All active and alumnae members were present.

Plans have been made to give a silver cup to the best football punter during the spring practice. The trophy is an exceptionally fine one, and will be hotly contested for. No candidate is entitled to compete until he has been out to at least twelve practice punts.

Students intending to study dentistry will find the Lincoln Dental College thoroughly up-to-date, and owned by Lincoln dentists, who are sparing no energy or expense to make it an institution of merit. For further information address Lincoln Dental College, 206 Richards block.

The Graduate Club of the university meets at the home of Professor A. Ross Hill, 505 North Twenty-fifth street, on Saturday evening, May 18th. All graduate students and members of the faculty are invited. There will be a report of the committee on the publication of the Graduate Bulletin, also the election of officers of the club for the ensuing year.

E. S. Hawley has loaned the Historical Society a series of views of Lincoln in '67 and '68, which are very interesting. Among them is a picture of the sole log cabin which marked the site of the city in 1867. Also several views of the capitol building in course of construction, which was started the following year and which was the real beginning of Lincoln.

Plans are being made to get the football team into training by the first of September. The team will probably be taken on a two weeks' camping trip in order that the men may rest up and be ready to begin heavy work before the Minnesota game. It is also hoped that the management will be able to provide the men with a training table during the coming season. The present prospect for next year's team is the best the university has had for several years.

Delta Upsilon gave an informal dancing party at the chapter house Friday night. The guests were Mr. and Mrs. J. H. Spencer, Mrs. R. P. R. Millar, Misses Jussen, Millar, Weesner, Davenport, Heacock, Hazlett, Harper, Muir, Parks, Lumery, Mrs. Reed and Miss Cooper of Holdrege. The members present were Messrs. Pollard, Wills, Lusster, Strahorn, Wilson, Kanzler, Clinton, Hall, Benedict, Lester, Walton, Steen, Hummel, and Gaines.

Dr. and Mrs. Fling and Miss Barr entertained at Walsh hall last Saturday evening in honor of Dr. and Mrs. Edgren. Dr. Edgren gave an illustrated talk on Stockholm, and this was followed by a number of Swedish songs sung by Mrs. Henry B. Ward, accompanied by Mrs. P. V. M. Raymond. The decorations were in the Swedish colors, blue and yellow, and Swedish and American flags.

Captain Tukey entertained his company at the Phi Delta Theta house last Tuesday evening. The cadets fairly bubbled over with enthusiasm as they listened to the alumni officers tell of the legends and traditions of the gray old company. The present officers spoke of the approaching competitive and the urgent need of extra drills, to which all the men promised to "turn out." After the yells and cheers had been given the company "fell out" and went home to dream of that longed-for cup.

N. T. Hall, superintendent of tree planting in the bureau of forestry, Washington, D. C., is visiting the university this week for the purpose of consulting with the various professors who are in the forestry problems in Nebraska. He has made the department of botany his headquarters during his stay, and has taken the opportunity thus offered to interview students who are expecting to fit themselves for forestry work. It is probable that some of them will be attached to his party for field work during the summer.

Modern Scientists and political economists have demonstrated that the people of the world can produce enough in four hours' labor each day to not only supply themselves with necessities, but with every luxury as well, thus devoting the remainder of the time to self-culture, amusement, and recreation in any manner most agreeable to themselves. Send to us for particulars and we will teach you how to do this. See our ad., "Education is Wealth," on another page in this issue.

The national convention of Delta Gamma will be in session this week at the Lincoln for three days, beginning tomorrow. The thirteen chapters of the sorority outside of Lincoln will be represented by delegates and others. During their stay here they will be the guests of Kappa and Kappa Theta chapters, the latter being the local alumnae chapter. The social festivities attending the convention will be the most brilliant ever experienced in university circles here. They will begin tonight with a reception at the home of Miss Blanche Garten, 1213 H street, and will continue until Friday night, when a banquet will be given at the Lincoln.

At the regular meeting of the Engineering Society last Wednesday night a large and appreciative audience listened to some remarks by Mr. M. E. Wells, assistant master mechanic at Alliance, Neb., and Mr. G. W. Rhodes, M. E., assistant superintendent of the B. & M., with headquarters in the city. Mr. Wells spoke of some of the railroad problems that the future engineer would have to meet, incidentally giving the details of a new method of cleansing locomotive boilers without interrupting their work. Mr. Rhodes spoke of the essentials of a successful engineer, dwelling especially on the fact that gentlemanliness and honesty are just as necessary as a knowledge of the profession.

The senior class had a meeting Saturday, at which a committee was appointed to collect 25 cents from each member of the class for the benefit of the college settlement. It was decided to place Dean Edgren's portrait in the library on the wall above the card catalogue.

Professor Barbour has written a pamphlet on "Sand Crystals and Their Relation to Certain Concretionary Forms," which has recently been issued in the form of a bulletin by the Geological Society of America. The paper was read before the society last December.

Miss Martin, a graduate from the school of music at the blind institute, Nebraska City, will be at Palladian hall Friday evening May 17, 1901. Miss Martin is seventeen years old and has been blind for ten years. She has a wonderful talent for music.

The superintendents and principals of the state held a meeting in this city last Thursday and Friday for the purpose of studying the correlation and system of studies now carried at the high school here. V. R. McLucas, superintendent at Superior, and A. C. Fling, superintendent at Nebraska City, were in attendance.
