

Alumni Department

Roy Sawyer, '99, of Chicago is spending a few days in the city.

Vilas P. Shelton, '00, of Nehawka visited university friends over Sunday.

Ralph A. Saxton, '97, of Edgar, visited with the Sigma Chis over Sunday.

C. C. Pullis, '96, has recently been advanced to the rank of captain of volunteers in the Philippines.

Miss Flora Bullock, '97, has been re-elected instructor in history at the state institute for the blind at Nebraska City.

Miss Florence Winger, '95, was recently elected to Sigma Xi at Cornell. She takes the degree Ph. D. there in June.

Mrs. Carleton H. Kelley, '99, of Belle Plaine, Iowa, is visiting her parents at 330 North Twenty-fifth street. She was formerly Miss Caroline Melick.

E. F. Turner, '99, the big football player, visited the engineering rooms last week. He has just come from Iowa, where he represented the American Bridge Co. of Minneapolis in the erection of a bridge.

B. S. Langworthy, ex-'98, spent a few hours with the Sigma Chis last Sunday. He is engaged in the cattle business near Sheridan, Wyo.

The class of '00 will have a reunion on the 12th of June. There will be a reception at 7 o'clock in the evening at the home of Miss Gladys Henry for the class.

Albert Watkins, Jr., '00, has just accepted a position as sporting editor of the Omaha Bee. He has been working on the Evening News since his graduation, having reached the position of city editor.

N. C. Abbott, '96, who has been in charge of the Humboldt schools the past year, delivered the memorial day address at that place. He will leave in the near future for the Philippines, where he has a position in the public schools.

C. M. Hummel, '00½, has written from Pryor, Mont., that surveying in the wilderness is very agreeable, at least while it is comparatively new. Amusement seems to be plentiful; every night the Indians indulge in horse racing within range of his camp. Fishing is also very good, for he writes that one afternoon he and a couple of friends caught seventy-two trout. This is all the more remarkable when it is remembered that the country in which Mr. Hummel is located is not much more than a barren desert.

Henry L. Bowlby and three other cadets who were recently dismissed from the West Point Military Academy for insubordination and hazing, have entered the employ of a railroad company and will leave to begin their work this week. They will be employed in the construction of a road across the Andes in Ecuador, South America. An attempt was made to have a rehearing, but Secretary Root refused to take action. The only way they can be reinstated is by special act of congress.

George's Weekly of Denver, Colo., contains an article descriptive of the Denver Fire Clay Co., manufacturers of assayers' furnaces, crucibles, etc. This company furnishes a large portion of the physical and chemical supplies for the university. It has the following to say of "Judge" Cooley, '98: "Mr. Cooley is a wide awake, energetic man and is adding every day

to the business popularity of that big concern."

The "judge" was married on the 29th of May to Miss Florence Maule, also formerly a student here.

ARGOS WINS ON ERRORS.

The Nebraska City Argos won a close game from the university ball team last Thursday. The game was a surprise to the crowd. It was won because of some unlucky errors in the last inning. Seeley, the twirler for the Starchmakers, was hard to find and kept down the hits throughout the game. The enemy started with a score in the first. Nebraska failed to score and during the next seven innings not a man crossed the home plate. In the eighth Seeley made the circuit, and in the ninth Byers came in on a lost ball in the left field. When Nebraska went to the bat for the last time the score stood 3 to 0. Reeder went safe to first and Rhodes singled and sent him to second. DePutron sent the ball towards second and let Reeder in. Rhodes tried to make third, but was put out. Raymond then seized the bat and sent the sphere high over the heads of the outfield to the north fence. DePutron came in; Raymond was running like a deer, and the crowd was up on its toes. Within ten feet of home he stumbled and fell and the last chance to win the game was gone. The score:
Nebraska City100000011-3
University000000002-2

LINCOLN BUSINESS COLLEGE.

J. W. Lamson began work at the B. & M. office last Saturday.

Miss Diva Cain has been helping at the Durkard convention this week.

E. G. Current graduated recently and now has a good position at Hot Springs, S. D.

Miss Nellie White left Tuesday for Shenandoah, Ia., where she will visit for six weeks.

Principal Snare of the Milford schools and William D. Grandy, of the Coleridge schools, were visitors Monday.

The Misses Keys of Clark, Neb., visited the calculation classes this week, and enjoyed the lively work in handling numbers.

J. C. Owens, commercial graduate of '99, spent Sunday in Lincoln. Mr. Owens has a position as bookkeeper in a general store at Glenwood, Ia.

L. C. McCartney completed the commercial course Wednesday and Thursday morning began work with Curtice & Bartlett.

Miss Belle Dickson, a former student, called Monday. She is one of the stenographers for the Sure Hatch Incubator company at Clay Center, Neb.

The summer term will open Monday, June 17. This affords an opportunity for teachers and high school pupils to get special work in penmanship, arithmetic, bookkeeping, shorthand, and typewriting.

The commercial and shorthand rooms are being remodeled and fitted with new furniture to better accommodate the large number who will enter in the fall. The past year has been the best in the history of the school. The high school and college graduates are recognizing more each year the importance of a business training. It is true in business, as well as professional life that a thorough training is necessary, in order to succeed. No investment brings better returns than ample time spent in securing a business education. Young people are recognizing this fact and are turning to the business schools for this training.

THE LINCOLN ACADEMY

An Accredited School to the University of Nebraska, also to the State University of Iowa

The school prepares pupils for the Leading Colleges and Universities. Students of the School are given the opportunity of advancing as rapidly as possible; but thoroughness will not be sacrificed to speed.

Students may, at any time, enter classes for which they are prepared.

Students only partially prepared to enter the State University have the privilege, at the Academy, of making up the work in which they are deficient. At least three-fourths of those now in attendance are preparing to enter the State University.

Summer School Opens June 14

The First Semester of University Year 1901-1902
Opens September 17
