Within the last ten years the progress of dis-overy in every department of knowledge has made a new work of reference an imperative made a new work of reference an imperative want.

The movement of political affairs has keppace with the discoveries of science, and their fruitful application to the Industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occured, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new conrae of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, bu which ought now to take their place in permanent and authentic history. In preparing the present edition for the press, has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account

fesources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in tact a new Cyclopedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added in t for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and na ural history, and depict the most famous and remarkable features of scenery architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence: the cost of bellishment, no pains have been spared are their artistic excellence: the cost heir execution is enormous, and it is believed by will find a welcome reception as an ad-drable feature of the Cyclopædia, and worthy

And the Colonel dashed into the bushes, and left his followers so paralyzed with astonishment that Old Black afterward remarked that ef ther'd been anybody to hold the hosses, he could hev cleaned the hull crowd with his whip."

The passengers were relieved of their weapons, were unbound, allowed to enter the stage and the door was slammed, upon which Old as if he had lain them down at a station while horses were being changed, then he cracked his whip and the stage rolled off, while the Colonel's party hastened back to their hut, fondly inspecting as they went certain flasks they had obtained while transacting their busi-

But the suspicious Cranks speedily subordinated his wonder to his prudence, as, laying on the table a watch, two pistols, a pocket-book and a heavy purse, he exclaimed: "Come, Colonel, bizness before pleasure; let's divide and scatter. If anybody should hear 'bout it, an' find our trail, an' ketch the traps in our possession, they

"Divide yerselves," said the Colonel, with abruptness and a great oath. "I don't want none of "Colonel," said Perkins, removing

his own domino and looking anxiously into the leader's face, "be you sick? Here's some bully brandy I found in one of the passenger's pockets." "I hain't nothin'," replied the Colonel with averted eyes. "I'm

goin', and I'm retirin' from this bizness forever." "Ain't a-going to turn evidence?" cried Cranks, grasping the pistol on

"I'm a-goin' to make a lead-mine of you ef you don't take that back!" roared the Colonel, with a bound. which caused Cranks to drop the pistol and retire precipitately forward, apologizing as he went. "I'm goin' to tend to my own bizness, an' that's enough to keep any man bizzy. Somebody lend me \$50 till I see him agin."

Perkins pressed the money into the Colonel's hand, and within two minutes the Colonel was on Tipsie's back and galloped on in the direction the stage had taken.

He overtook it, he passed it, and still be galloped on. The people at Mud Gulch knew the Colonel well, and made it a rule never to be astonished at anything he did; but they made it an exception to the rule when the Colonel canvassed the principle barrooms for men who wished to pur-519 & 551 Broadway, N. One or two enterprising persons speedily discovered that the Colenel was not in a communicative mood: so everyone retired to his favorite saloon and bet according to his own opinion of the Colonel's motives and

But when the Colonel, after remaining in a barber shop for half an hour, emerged with his face clean shaved and hair neatly trimmed and parted, betting was so wild that a cool headed sportingman speedily made a fortune by betting against every theory that was advanced.

Then the Colonel made a tour of the stores and fitted himself with a new suit of clothes, carefully eschewing all the generous patterns and pronounced colors so dear to the average miner. He bought a new hat and put on a pair of boots, and pruned his finger-nails, and, stranger than all, he mildly declined all invitations to drink.

As the Colonel stood in the door of the principal saloon, where the stage always stopped, the Challenge Hill constable was seen to approach the Colonel and tap him on the shoulder, upon which all men who bet that the Colonel was dodging somebody claimed the stakes; but those who stood near the Colonel heard the constable say: "Colonel, I take it all back, an'

own up fair and square. When I seed you git out of Challenge Hill, it come to me all of a sudden that you might be in the road agent business, so I follered you-duty, you know; but when I seed you sell Tipsie, I knowed I was on the wrong trail. I wouldn't suspect you, now, if all the stages in the State wuz robbed, and I'll give you satisfaction any way you want it,"

"It's all right," said the Colonel. with a smile. The constable afterward said that nobody had any idea of how curiously the Colonel smiled when his beard was off. THE BENDERS.

can be consulted on all diseases of The Pater-familias of Kansas Butchers-The Junior Bender also Captured.

> [Salt Lake Herald, 10th.] Yesterday the scene around the city jail was one of intense excitement and clamor, the object which drew the crowd to that point being the supposed old man Bender. At crowd to see the greatest murderer of modern times became so great that the jailor to quiet and gratify them, threw open the jail and exhibited the accused. The curiosity to see the author of so many crimes was not confined to the male por-tion of mankind only, as the ladies were seized with the same desire, and during the day dozens of the weaker sex called at the classic establishment and gazed on the man-if he be a Bender-who has done enough in this world to entitle

him to a front seat during a portion, at least, of eternity, in the dominions of his Satanie Majesty.

"Nothing?" queried Perkins, in a with him for some time that he had been engaged in farming in Kansas, but said nothing else that would indicate that he was a Bender. During the day two gentlemen visited him who had known him in former years, and they both recognized him as being the much sought after Kansas butcher. One gentleman who was in the Pike county (III.) Clerk's office in 1866-7, immediately recognized the accused as being the man who had taken out

letters of administration in Pike county in the name of John T. Bender, on the estate of his brotherin-law, one Schmidt. The gentle-Black picked up his reins as coolly | man above named made out the papers and saw Bender frequently during that year, 1867, after which the latter moved to Kansas. A former Indian agent of Kansas, who formerly knew Bender, says the right man is captured. With this strong evidence it can scarcely be doubted that the great criminal, ness with the occupants of the who has eluded officers and detectives for the past year, has at last stumbled into the clutches of the

> city jail. One day, when the old man was in the Manti jail, Saupete county, another strange looking German appeared there and asked permission to see the accused. His request was granted, and the two had a long and confidential interview. The Sheriff who had charge of the jail said the | D. 10; Oriental, 10; Pacific Mills, meeting of the men was most cordial, and that they appeared to talk freely on a subject with which they were both acquainted. The German left town the next day as myster. ously as he had appeared in it. The circumstance

having reached the of one of the deputy sheriffs, of Sevier county, the latter concluded that the German stranger was young Bender, and started in search of him. He followed him to Nephi, in Juab county, where he overtook and arrested him. He is now there, and this morning Deputy Sheriffs Farnsworth and Foutz, of Sevier county, go to bring him to this city. They expect to return on Saturday

or Sunday. Should these two Germans be the male portion of the Bender family, it would not be an improbable occurrence if the female members of the murderous quartette were discovered ere long in the vicinity.

A Chinese Romance.

Ah Tung, an enterprising Chinaman, bestowed his affections on Miss Lin Choy, a beautiful Chinese damsel of twenty-three years. They met under the stars and pledged eternal constancy, but the course of true love ran its usual crooked course, and the fascinating Ah Tung found that Miss Choy could not become Mrs. Tung unless he paid for her in filthy lucre, \$600 being the price demanded. Ah Tung ex-pressed such a strong dislike to this arrangement that the guardians of Oakland, A, 16c; Warren, B, B, 18c; Miss Choy thought best to remove | do A, 16 1-2c. her from her residence in the classic precincts of Stout alley to a more street. There the fair one was put under lock and key, and the distressed lover walked around disconsolately looking for his mate. The Judge found out the state of affairs and asked the blushing damsel if she were willing to marry her persevering lover immediately. Nothing loth, she consented, and the Rev. Otis Gibson was sent for to perform the ceremony. He was not at home, and the Judge, pitying the distress of the unfortunate couple, concluded to make the twain of one flesh, which he did, and the two hearts which long have beat as one were united, and Mr. and Mrs. Tung left the Courtroom pleased with the administration of American justice.-San Francisco Post, April 9th.

Harvest-1874.

Reports from every section of this region of country give assurance of an abundant harvest of grain and fruit. A very large area of soil was sown in wheat last fall, and at this time the fields promise a rich yield. Fruit growers tell us that the tardy approach of warm, growing weather has materially increased the chances for a plentiful supply of peaches. The buds are not yet far nough advanced to be susceptible of injury from frost, and before the spring sunshine can develop them into blossoms the season for frosty weather will have passed.

It is a noteworthy fact that farmers hereabouts are in better condition financially than they usually are at this season of the year. Deal ers in agricultural implements and other merchants whose transactions bring them into daily contact with rural customers, inform us that the farmers are meeting their obligations this spring on time, in fact paying their debts more promptly than ever before.-Leavenworth Times,

All these lands are good farming lands. Their surface is, in general, smoothly rolling table or upland, but comprising many thousands of acres of level bottom. Most of the tracts are supplied with living water: some of them with small groves of

The soil of the creek and river bottoms is a deep, black alluvial or vegetable mold, and most of these bottoms are natural meadows.

The soil of the uplands is a lively brown or yellow loam, with a very deep and porous subsoil. The more elevated parts abound with those peculiar soft, brittle, limy lumps, which always denote the best wheat land. One tract in Sarpy County contains an extensive quarry of

Nearly all these tracts are within the sound of the locomotive whistle, and many of them are close to Railroad Stations. Two or three pieces only are inconvenient to Schools, Mills, Post Office and Stores. For any tract in WASHINGTON COUNTY, apply to ALEX.

REED, in Blair, Neb. For any other tract, to I. N. TAYLOR in Omaha.

Or Sugar-Coated, Concentrated Root and Herbal Juice, Anti-Billons Granules. THE "LITTLE GIANT" CATHARTIC, or Multum In Parvo Physic.

The novelty of modern Medica, Chemical and Pharmaceurcal Science. No use of any longer taking the large repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Grannie, acarcely larger than a muzitard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little Purgative Police represents, in a most concentrated form, as much cathartic power as is embodiest in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so has monized and modified, one by the others, as to produce a most search ling and thorough, yet gently and kindly operating cathartic. in Parvo Physic.

\$500 Reward is hereby offered by the pro-prietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomelor other forms of mercury or any other mineral

other forms of mercury of any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundices, Headache, Constipation, Impure Blood, Palin in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in region of Kidmeys, Internal Fever, Bliotted feeling about Stomach, Bush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings, take Dr., Plerce's Pleasant Purgative Pellets, in explanation of the remedial power of my Fargative Pellets over rogreat a variety of disease, I wish to say that their action upon the animal economy is universal, not a gland or tissue escaping their sametive impress. Age does not impare them; their sagar-coating and being seekesed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the piles found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a Laxative, Alternative or Purgative is indicated, these little Pelets with give the most perfect satisfaction to all who use them.

They are rold by all enterprising

They are rold by all enterprising Druggists at 25 cents a bottle. Druggists at 23 cents a bottle.

Do not allow any druggist to induce you is take anything else that he may say is just as good as my Pelleto because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 35 cents and receive them oy return mail from B. V. PIERCE, M. D., Prop'r, BUFFALO, N. Z.
