APPLETON'S

American CYCLOPAÆDIA New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

THE WORK ORIGINALLY PUBLISHED UNDER THE NEW AMERICAN CYCLOPARDIA WAS completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of ecience, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new dition entitled, THE AMERICAE CYCLOPAR-Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative

covery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convedience and refinement of social life. Great wars and consequent revolutions have occured, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happly been ended, and a new course of commercial and findustrial activity has been commenced.

Large accessions to our geographical knowedge have been made by the industriable argleours of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now so take their place in permanent and authentic history.

In preparit, the present edition for the press, thas accordingly been the sim of the editors to bring down the information to the lastest possible dates, and to furnish an accarrate account of the newest in applicant in the practical arts, as well as to give a suscingt and original record of the newest in applion in the practical arts, as well as to give a suscingt and original record of the progress of political and historial event.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

Bone of the original stereotype plates have been used but every maze has been printed on

resources for carrying it on to a successful termination.

None of the original storeotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopudia, with the same plan and compass as its predecesor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by leagur experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictoris' effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and na ural history, and depict the most famous and remarkable lantures of scenery architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will Enda welcome reception as an admirable feature of the Cyclopadia, and worthy of its high character.

containing about 500 pages fully illustrated a several thousand Wood Eugravings, and a sumerous colored Lithographic Maps. PRICE AND STYLE OF BINDING. 

Three volums now ready. Succeeding ums, until completion, will be imued one two mentios.

\*\*\* Specimen pages of the AMERICAE CYCLOPARDIA, showing type, illustrations. etc., will

OUR NATIONAL HOLIDAY. Emmett Monument Association

Pic-Nic at Bellevue. In celebrating our Nations Natal day, we should drop all else and, remembering the historic virtues of our nations heroes, foster only that which will keep alive in our heart of hearts, the spirit of emulation and the glorious memories of the Republic. Its annual recurrence should bring nought but joyous recollections from the past; should cause us to lay aside and forget all the personal ambitions, political strifes and non-American distinctions of the present, and should all join in its celebration with that personal harmony and public unity which will keep the day ever before us as the happiest of the past and the brightest anticipation of the future. Its proper observance and due

celebration refines and elevates the people-the nation's soul; renews the patriot's love—the nation's life : and unites in one common band all the transplanted elements that constitute our nation's strength.

In the observance of the Fourth of July, 1874, our Irish-American citizens, under the auspices of the Emmett Monument Association can be said to have appreciated and commemorated the day in a spirit and manner more national than much of the native population.

THEIR PICNIC at Bellevue was, in everything American, harmonious and joyous -in nothing foreign, political or discordant.

THE GROUNDS were admirably adapted to the purpose and exceedingly lovely by nature, and had been improved with a fine dancing floor, a stand for the musicians and a well of pure water. A fine band discoursed delicious music through the shades, and everything, save the exceeding heat of the day, was propitious for the largest amount of enjoyment such an occasion could afford. One Emerald Flag, emblematic of the old nationality of the celebrators, floated above the dancing floor, and around it, a sort of protectorate, waved the starry banners of our land, under which many of the brave men there assembled had marched and fought—that glorious flag at sight, of which, many other brave men, after facing death in each horrible form, have shouted themselves hoarse in the lunacy of joy, or, after enduring weary months of hving death in southern prisons, wept with the abandon of childhood, when its protecting bars came between them and the burn-

up the last drop of blood. The attendance was large enough for pleasure, and not too large for comfort. There was no set programme. No aspiring politician bored weary listeners, with worn out declamations. The simple read-

ing southern sun that had seemed

to search among their vitals to lick

DECLARATION OF INDEPENDENCE, over, all were free to follow their

Dancers kept joyous time to the music's cadence, till the day grew warm, and then wandering off through the groves, made the echoes ring with merry laughter. Athletes contested in games of agility and strength. Those who iove the horse for his speed, had their sport in several well matched races. Others of more quiet nature

Omaha, Neb. formed little circles, in the more shady spots, but many a merry shout denoted that they were not

Children jumped, tumbled, shouted or cried at pleasure, and were spanked (if need be) at leisure; young ladies flirted, laughed or pouted; young gentlemen brought them water, less and beer, or held their fans. The reporter amused himself best by sauntering too and fro, admiring the fine specimens of

manly strength and beauty,-descendants of a noble race-and their fair companions, of whom there were many whose loveliness and grace would be rare in any

No drunkenness, fighting or proanity marred the enchantment of the day, and we are certain that all, old or young, who participated in its pleasures came home healthier and better than they went.

All earthly joys are fleeting, and the happiest morning often precedes sorrawful evening. While these festivities were at their highest an event occurred in Omaha, in the sudden death of Bishop O'Gorman, that threw a pall of gloom and sorrow over a whole vicarate.

Tidings of the sad event reached the grounds near the close of the day, causing an immediate suspension of mirth, and filling all hearts with sorrow, as the most worthy Bishop was personally known and beloved by all present. Nothing could have been added to the provisions made by the committee of arrangements, of whom Col. Burk was chairman. Tom Cosey, of the floor committee, made himself conspicuous and useful. . Long Tom Kennedy, genial and happy, Cunningham made the races suc-

ceasful in everything. Among the distinguished gentlemen present were general O'Brien, ex-alderman McKelligon and Democratic alderman Lucas The latter took a "foot" at kicking the ball, and like many of the "boys" got Don.

A Money Grabber. Just as the excursion train was about to start for Elkhorn Saturday morning, some sneak thief snatched s five dollar bill from the hand of a "Ko-op" and lit out and escaped.

The First M. E. Sunday School Fourth of July Pienie.

Those who sought a quiet, pleasant time, and went to Glenwood Saturday, had their expectations realized in this picnic. Without the loss of time by unnecessary delays at the depot, we moved away from Omaha at 9 o'clock, and in a few minutes were crossing the bridge. The train moved slowiy over this structure, thus giving all the picnickers a good opportunity to view their own beautiful city, and, as we eft the bridge and came out upon the open prairie, looking tack over Omaha, with its beautiful trees in their heavy green foliage, the fine large buildings and residences, with the High School away up on Capitol Hill, we felt enthusiastic at once over Omaha and her destiny, and -here Spoon Lake stopped the train and any reflections on Omaha destiny or anything else. In a few minutes engines changed and all on board, we sped merrily away to Glenwood where we arrived at about 10:30. A short walk brought the party to a delightful grove, upon the western slope of the bluffs. Here baskets were produced, swings put up in a twinkling, and everything nicely arranged for a good time. The grove being heavy and a light preeze blowing gently over the rounds, enhanced our pleasure very much. We all had a most pleasant time and at 4 o'clock after over five hours of solid picnic enjoyment, we took the train home, all happy and contented with the results the day had brought forth. At 6:30 we arrived home, patriotic,

dusty and tired. PICNICKER. -About 2 o'clock yesterday morning a fire broke out in the building at the northwest corner of Eleventh and Jackson streets, occupied by Charles Whitmore and A. A. Smith, and owned by Henry Carrigan. The alarm brought the fire department promptly to the spot, and the fire was confined to this building alone, which was destroyed. The loss is covered by an insurance of \$500. Most of the house

hold goods were saved. THE COMING STRUGGLY. The voters of our nation, As ne'er was known before,
Are rising from Pacific's strand
To Atlantic's rocky shore.
Why is th's mighty change?
What can the meaning be?
The rising of the masses
From northern take to southern sea.

The spirit of old seventy-six
From out our heroes' graves
Forbids a nation drenched in patriots' blood
Should sink to that of slaves;
The motto which our coins once bore,

Are but as ropes of sand.
The rights of m in to be a man
Should govern Freedom's land.
Then shall our Flag more proudly float O'er land as well as sea, And nations yet unborn shall giadly greet The emblem of the free, In trade we'll try to deal,
As man should deal with man,
And while we seek to live ourse'ves,
We'll sell as cheap as anybody can,
And if a hat you need,
Or friend you chance to meet,

Boot and Herbal Juice, Anti-Billous Granules. THE "LITTLE GIANT" CATHABTIC, or Multum in Parvo Physic.

In Parvo Physic.

The novelty of modern Medica, Chemical and Pharmacentical Science. No use of any longer taking the large, repulsive and nameous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, searcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and hatidious taster. Each little Purgative Boldes represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. From their wooderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsa or drawin in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most scarce hing and thorough, yet gently and kindly operating catharti;
