Moulton has spoken and Beecher will have to get up a new explanation.

Now that the Union positively disclaims being the organ of the Independents, what is to become of Doctor Johnson and his cherished scheme?

GOVERNOR HASCALL'S speech at Meyer's Hall in favor of the postal ring, was both brilliant and timely. The Governor seems, however, to have forgotten that his letter used to come through the postoffice with the first letter of his name changed from H. to R.

INDIAN AGENTS never did and seldom resign. It appears that John D. Miles, agent for the Cheyenne and Arapahoe Indians, is no exception to this rule. The executive committee of Friends have recently requested him to resign, because he had applied for troops to the War Department, and Miles very promptly refused to comply with the invitation. In a letter dated at the Cheyenne Agency, August 15th, Miles explains his position substantially as follows:

"I cannot resign my office as agent for having endeavored to do my duty, having a personal knowledge of the hostile attitude of a portion of the Indians under my charge, and having witnessed some of their ravages, and knowing the dangers of others, it would have been criminal negligence on my part as an officer not to have appealed as I did in emphatic terms for the assistance of the military to control the hostile element. Such a course was due to every legitimate interest the Government has in this Territory, and it was due to the border settlers. And as for the justification of my action, referred to, I claim that I have done nothing more than any peaceable, law-abiding citizen would do in a city were he to witness a mob destroying the lives and property of innocent persons."

An indiscriminate slaughter in clothing and prices' furnishing goods regardless of price at 206 Farnham street. Fine linen and cheap shirts of our own make at \$2.00 and \$2.50 each.

VERY LATEST TELEGRAPHIC.

MIDNIGHT.

4 O'CLOCK P. M.

SAN FRANCISCO, August 24.
The Pacific Mail steamer Japan arrived at this afternoon, with dates from Hong Kong to July 25th, from Shanghai August 3d.

An inquiry has taken place at Shanghai into the conduct of the Captain of the steamer Aratoon Apome, which was such as to render it necessary for the officers of the vessel to take the command out of his hands while on the voyage from Hong Kong to Shanghai. It has resulted in the suspending of Captain Montgomery's certificate for six months.

The Chinese government has issued orders that all dispatches for export to Peking shall be entrusted to the Merchants' Steam Navigation Company at various points of call, and a special department is to be organized by the company for this purpose.

The telegraph line between Foo Chow and Pagoda anchorage was opened and is now in full running order. The line is about eight miles in length, and runs for more than two miles on the right bank of the river. The entire line was constructed in twelve days, at a cost of about four thousand dollars. It is working on the Morse system, and is capable of transmitting fifty words per minute, with an experienced operator at each end.

North China news says, whatever issue may be of the present negotiations upon the former, can question the fact that the Chinese are ordinarily anxious about their armaments and the probability of war. An unusual activity prevails in the arsenals at Kaon, and it has been a change of guard for the last three months. General work has been suspended, and the heavy rifle ordnance lately arrived from Europe, and which are to replace the old smooth bores.

The Chinese are again permitted to trade with the Europeans under certain conditions.

From private sources we learn that the Formosa expedition had been entirely successful, and the Japanese fleet had been sent from Tokio to Peking. This expedition was accompanied by Gen. Legendre, and outside of Yokohama English vessels, the general opinion is that it will be a success in settling all matters amicably between the two governments.

The Pacific Mail steamer Colima, arrived in Yokohama, August 23, at 6 a. m., her sailing time from San Francisco being seventeen days and thirteen hours, the quickest ever made between these ports.

Nothing further has transpired on the opening of the interior, and the greatest strictness is observed in granting passes to persons desirous of traveling beyond the treaty limits, although many foreigners in the government employ have obtained them.

During the month of June and the earlier part of this month, the rain fell so abundantly throughout the whole country as to cause serious inundations and slides. From every direction information reaches the government of damage both to property and to human life.

There has been talk of the Mikado formally and ceremoniously opening the telegraph, which, although now in operation for some years, has not yet been so honored. It was spoken of as his majesty's wish to inaugurate the telegraph, and that some such opening should take place a long time and, but constant corruption on the main line between Yokohama and Nagasaki have interfered with it.

In the public works department of Cobusio, there has been started an association for the study of law.

WASHINGTON, August 24.
It is certainly known here that Spain, instead of investigating the conduct of its authorities who have infringed on the Spanish laws and treaties, and punishing them according to the terms of the Fish-Polo treaty, demanded indemnity for the Virginia Gold and other alleged wrongs. Our government has replied in firm but courteous terms, asserting the position of the United States government is untenable, and reminding it of the dilatoriness in making reparation to American citizens. Minister Cushing advises government he is still confident that Spain, if not satisfied with the terms of the Fish-Polo treaty, will be subject of consideration between the governments, must be arbitrated.

INDIANAPOLIS, August 24.
Gilbert Lowry, a young man whose parents reside in Louisville, and who was employed as a brakeman on the I. B. & W. railroad, was murdered in a brawl in the Fritchburg saloon on Louisiana street, on Saturday night, Thomas Ford, Kate Taylor, and Richard Cook.

The murderers were arrested. Wm. Myers, an old resident was found in a dying condition under a shed in Southern Park last night, and was taken to the surgical institute, where he died in a few minutes. Myers has been drinking freely and it is supposed to have died from the effects of laudanum, as half a bottle was found in his pocket.

SAN FRANCISCO, August 24.
The British bark Achelivment, from Astoria to Liverpool, put into this port to-day, in distress. She encountered gales July 25th, which greatly damaged her rigging. Three of the crew, Joseph Hughes, Manuel Joseph and John Beam were washed overboard and drowned.

The steamer Japan, from China and Japan, with 624 passengers, 25 cabin, and 2,103 tons of merchandise, of which 1,780 tons go to New York, via Panama; 334 tons for San Francisco, and 3 tons for Central and South America.

SALT LAKE, Aug. 24.
The County Treasurer of Toole county, having refused to fill the Bonds of the Mormon Probate Judges, his case has been brought before the District Court, to compel action.

No decision has yet been rendered, but further hearing in the case will be heard on the 26th.

Mayor Wells was discharged by commissioner Tooper, to-day from the complaint of interference with the last election.

NEW YORK, August 23.
A Times special from Louisville says a war has been going on between the whites and blacks in Lancaster, Ky., since Wednesday. The whites have possession of the town. Yesterday the negroes forced themselves at the residence of Hon. Wm. Sellers. The United States forces endeavored to quell the riot, but were fired on by both parties. The fire was returned and several wounded on both sides.

The Commercial says the trouble was only between friends of Sellers and Kennedy, both whites, over political matters.

NEW YORK, Aug. 23.
The steamer Apollonia arrived to-day from Astoria. Commercial affairs in Panama continue depressed. Money is scarce and no prospect of any amount is being shipped.

Advices from Guyanant state that the bank of Ecuador has resumed payment. Exchange on Europe had gone down to forty per cent premium, and on Peru two per cent.

There has been a terrible rain fall almost all over the republic of Chili, extending that of any year on record.

Even in the northern department where rain seldom falls the railroad and telegraph suffered severely; and inundated the cities of Santiago and Valparaiso. The Tongi railroad sustained serious damage; the iron bridges of Zera, Temuco and Panguel were swept away; heavy landslides have taken place on the line.

The fall of snow has been very heavy in the Cordilleras and coast range.

NEW YORK, August 23.
The Pacific Mail steamer City of Peking made a most successful trip yesterday, down the bay and out to sea, only Hook, to test her engines previous to her departure for San Francisco, where she will be employed on the Pacific Mail line between San Francisco, China and Japan.

Notwithstanding the unpropitious weather, a large number of invited guests were on board, including expert engineers from England, Scotland, Germany and other countries.

Mr. Roach, the builder of the road and steamship men were also on board. The engines were also a severe test and worked admirably.

The average speed made with eight out of ten boilers and thirty-eight from 48 to 54 revolutions per minute and 14 1/2 knots per hour. The foreign engineers examined the vessel and machinery critically, and agreed that Mr. Roach had demonstrated the practicability of building first-class iron ships in this country.

Europe to no greater extent. Mr. Roach, in an interview with the representative of the Pacific Press Association, stated that if necessary the City of Peking can make 17 1/2 knots an hour.

NEW YORK, August 24.
The publication Saturday of the testimony of Bessie, the adopted daughter of Tilton, wherein she lays bare and cruelly to her father the effect of lowering Tilton's public estimation in the same proportion as Moulton's statement has strengthened the war now going on between the public and it is therefore not improper to give it the place it has in this issue, and to publish Bessie's statement.

Mrs. Tilton still lives in seclusion and her maintenance is provided for her to live again with Tilton, even if she has to be separated from her children. It is believed that the committee will be able to report on next Friday afternoon. The report, if it is learned, gives a review of the evidence and the conclusions of the committee; all that are in favor of Tilton are taken up by piece-meal, and each main point is plainly set forth without verbiage, the principal prominence being given to the criminal conduct between Beecher and Mrs. Tilton.

The report then reviews the testimony of several important witnesses, including Mrs. Stanton, and afterwards proceeds to Mrs. Tilton's testimony, accusing her husband of bestiality, and also denying the existence of any criminality with Beecher and her explanation of her letters.

The report then proceeds with Moulton's statement and dismisses it briefly as making no charges against anybody in particular. Finally Beecher's statement is taken and contrasted with several of the more serious portions of Tilton's statement, showing circumstantially and apparently damaging and more reliable evidence against him.

The report sums up the whole matter and contrasts Beecher and Tilton, one with unstained moral character and the other of proven immorality, and the latter making accusations against the former.

The report claims that Tilton has made personal allegations, some of which are proved to be untrue, and that Beecher is innocent. Moulton's last statement is referred to like his first as a mere invention of Beecher. Shearman says his answer to Tilton's summons and complaint is being prepared. He does not hesitate to say that Beecher is entirely vindicated himself at law. Tilton in giving his opinion of Moulton's statement, said he thought it was a settler for certainly make other points which may touch on other points.

Beecher himself intends to make another statement.

A World's special from the White Mountain says that Boston has been passed on opinion on Moulton's statement. He has a contract with a Boston lecture bureau to deliver twenty-one lectures in Boston, each, worth, he will fulfill. It is said that Moulton has been offered ten thousand dollars to deliver five lectures in Maine.

PARIS, August 23.
President MacMahon went with strong republican demonstration at Morlaix where he arrived to-day. During his reception there were tumultuous shouts of vivre République.

EDWARD KUEHL,
REGISTER OF THE DEPARTED.
No. 488 10th St., between Farnham & Harney.
Will by the aid of guardian spirits, obtain for any one a view of the past, present and future, in the most complete manner.

NEW YORK, August 23.
The schooner Grasswate, before reported ashore at Point Albion, lies in the same position, all efforts to haul her off having been unsuccessful. Help was asked from the United States steamers Perry and Michigan, both lying at Erie, but the commander of the Perry replied that his vessel was undergoing repairs, and the Michigan had not coal on board, and could not get any inside of four days. A heavy gale would probably break the schooner up. Several powerful tugs from Detroit are on their way down her assistance.

MARKETS BY TELEGRAPH.

CABLEGRAMS.

BERLIN, August 23.
U. S. Minister Davis has arrived here.

LONDON, Aug. 23.
The Russian Government has further delayed its recognition of Spanish Republic.

COPENHAGEN August 23.
The King of Denmark has returned from his visit to Iceland. He was accompanied from England by his daughter the Princess of Wales.

VIENNA, August 23.
The press announces that Austria and German ministers at Madrid were notified on Friday last of the recognition by their representative Government. President Serrano is chief of executive powers of Spain.

MADRID, August 23.
Seo De Arzel has been surrendered to the Carlists, through the treachery of parties within the city, who are friends of the Bishop of Segovia. The Carlists captured the entire garrison, 488 men, guns, and shot the commandant of the district.

The government has received information that filibustering expeditions are preparing against Porto Rico, and has taken measures to stop it. The truth of the report in regard to that island, published in the Freeman's Journal, is denied. The war department has contracted for 30,000 Remington rifles.

BUFFALO, August 24.
The schooner Grasswate, before reported ashore at Point Albion, lies in the same position, all efforts to haul her off having been unsuccessful. Help was asked from the United States steamers Perry and Michigan, both lying at Erie, but the commander of the Perry replied that his vessel was undergoing repairs, and the Michigan had not coal on board, and could not get any inside of four days. A heavy gale would probably break the schooner up. Several powerful tugs from Detroit are on their way down her assistance.
