Frazier's Great Remedy

The people of the United States have been humbugged with all kinds of Patent Medicines, quacks and imposters for the past few years, in a most shameful mariner. The writer of the in a most shameful mariner. The writer of the following is one of the victims, and wishes to present a very plain case.

Believing that by cleansing the blood was the only true way of banishing disease, and being agreat sufferer from weak longs and a scrotulous affection, and after trying many being agreat sufferer from weak lungs and a scrotulous affection, and after trying many kinds of Patent Medicines and the most eminent Physicians, I commenced doctoring myself, and at last discovered a Blood Searcher, or Root Bitters, which not only gave me immediate releaf, but after a few weeks effected a radical cure. The cough left me, my lungs became strong and sound, my appetite good, and the scrofulous disease had disappeared. Feeling confident that my Discovery possessed wonderful healing virtues, I gave it to others affileed, and found it effected the most miraculous cures in thousands of cases, not alone curing Coughs, Consumption, Asthma, Catarrh, Scrofula and Weak Lungs, but all diseases caused from humors in the blood. The demand from my friends and others hearing about these Bitters becoming very great, I commenced putting them up for sale, calling hem FRAZIAR'S ROOT BITTERS. I was at first backward in presenting either myself or medicine to the presenting either myself or medicine to the sublic-not being a Patent Medicine Man, but am getting bravely over that. I have sold housands of bottles of my Koot Bitters, and it is my desire and determination to place the e within the reach of every suffe The grand principle that operates in these

The grand principle that operates in these Root Bitters is the power they possess in cleansing the turgid blood and banishing the vile humors from the system. Root Bitters strictly a Medicinal Preparation, compour from roots combined with herbs and places, many of which were used in the good old days of our forefathers, when people were cured by some simple root or herb, and when Calomel and other resisuant of the mineral kingdom. and other poisuns of the mineral kingdon and other possure of the mineral kingdom were unknown.

They spen all the natural passages of the body, cast out disease, take away all sickness and build up the system with pure blood, hence they must reach all diseases by purifica-

tion and nourishment.

No person can take Root Bitters and remain long unwell. Victory upon victory they have gaired over disease and death in all stations and conditions in life. They are constantly effecting cures of the utmost importance. For Consumption, Astoma Scr.fula, Scrofulous Eruptions, Catarrh, Weak Lungs, Lost Vitality and Broken-down Constitutions, these Root Bitters are unive sally admitted to be the most wonderful Medical Discovery known to the world. Their pectoral healing properties penetrate every portion of the humas frame, soething the Lungs, strengthening the Stomach, Kidneys and Liver, cleansing the blood from every kind of humor. No other medicine will cure Chronic Rheumatism, Neuralgia, Heart Discoso, Fits, Dizzio-ss, Headache, Dyspepsia, Fever and Ague, Costiveness, Piles, Urinary Discoses, Ridney Bisease, and Liver Complaint, so quickly as this Root Bitters. All such diseases are caused from a bad stomach and a poisonous condition of the blood. For fecting cures of the utmost importance. and a poisonous condition of the blood. American CYCLOPÆDIA

New Revised Edition. ntirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

THE work originally published under the title of THE NEW AMERICAN CYCLOPARDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the Uni ed Sutes, and the signal developments which have taken place in every branch of cience, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new dition entitled, THE AMERICAN CYCLOPAL-

Dia. Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has keppace with the discoveries of science, and their
ruitful application to the industrial and useful
arts and the convenience and refinement of
socir liffs. Great wars and consequent revolutions have occurred, involving national changes

soci vilife. Great wars and consequent revolutions have occured, involving national changes
of peculiar moment. The civil war of our own
country, which was at its height when the last
volume of the old work appeared, has happily
been ended, and a new conres of commercial
and industrial activity has been commenced.

Large accessions to our geographical knowedge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last
decade, with the natural result of the lapse of
time, have brought into public view a multitude
of new men, whose names are in every one's
month, and of whose lives every one is curious
to know the particulars. Great batties have
been fought and important sieges maintained,
of which the details are as yet preserved only
in the newspapers or in the transient publications of the day, but which ought now to take
their place in permanent and authentic history.

In preparing the present edition for the press,
thas accordingly been the alm of the editors to
bring down the information to tha latest posfille dates, and to furnish an accurate account
of the most recent discoveries in science, of
every fresh production in literature, and of
the newset in rention in the practical arts, as
well as to give a succinct and original record of
the progress of political and historial event.

The work has been begun after long and carethe decades. the progress of points.

resources for carrying it on to be steemed to termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopredia, with the same plan and compass as its predecestor, but with a far greater pecuniary expendiare, and with auch improvements in its composition as have been suggested by loager experience and enlarged knowledge.

TO GOLD SEEKERS AND LAND HUNTERS.

A Few Suggestions to Those Who Contemplate Going to the Black Hills.

(Sloux City Times.) The region known as the Black Hills is situated in Western Dakota, with their western slopes stretching Wyoming Territory, their into southern extremity extending within fifty miles of the northwest corner of Nebraska, and their northern

limits touching on Montana Territory. While within the Black Hills proper there is a vast extent of very rich grazing and agricultural lands, abundance of timber and water, to approach them from anywhere in the Eastern States, the traveler must pass -- Seward county fair comes off through a strip of country, varying in width, and generally destitute of water and vegetation. Taking Harney's Peak, near which the richest gold discoveries were made by Custar's miner's, as our objective point, and measuring the distance as shown by the government maps, we are enabled to furnish the following table of distances from im-

> Of the six starting points above named, the route via Brule City, D. I., is the best, and is really the most feasible one. Say, for example, a Chicago man desires to go to the Black Hills. He must travel by some one of three railroad routes. with distances, respectively as follows:

portant frontier points:

MILES. FARE. Chicago to Bismarck, D. T., 1,000 Chicago to Cheyenne, W. T. 1,100 Chicago to Yankton, D. T. 560 \$40 85 48 50 19 65 From Chicago to Sioux City is only 509 miles. From Sioux City the traveler takes the train of the Dakota Southern railroad to Yankton, 60 miles; From Yankton to Brule City, 125 miles, he travels by steamboat up 'he Missouri at a cost of two dollars; and from Brule City to Harney's Peak, 192 miles, his raute lies along the level, grassy valley of White Earth river. The steamboat ride and wagon

travel westward from Yankton, will. we doubt not, be enjoyed by all lov-ers of the beautiful in Nature and even by the dullest and most prosaic of travelers. The Upper Missouri River scenery has justly acquired continental fame. From Yankton westward, the fast and elegant steamers run up the Missouri River through a country of the most picturesque, varied and romantic scenery, through woods, hills and plains where the face of nature is tortured into fantastic shapes as if to invite the admiration of the sight-see'r. From Fort Randall, on the Missouri River, Pratt & Ferris, post traders, run a line of wagon trains to Whetstone Agency, within fifty miles of the Black Hills; and to travelers who have no teams of their own this mode of conveyance is the safest, most expeditious and best.

Resisting the Evil One. (New Orleans Times.) At a camp-meeting not long ago a benches beside a fat man who occupied a full one-third of the concern. When the services were ended the fat man arose, and the gentleman ing about in a surprising manner, while his countenance was significant of mortal anguish. His actions attracted the attention of them, a solemn-visaged individual, who looked as though he had just swallowed a pill, approached the writing body, and laid his hand on "Brother, if you are resisting the promptings of the Evil One, strive last. Remember Joseph wrestled with the angel, and—" "I dunno but he did." interrupted the agonized man; "but if Jacob had the seat of his trowsers and a little of his meat caught in a condemned crack he wouldn't feel like raslin' with an angel or any other critter!"

THE COMING STRUGGLE. As ne'er was known before,
Are rising from Pacific's strand
To Atlantic's rocky shore.
Why is this mighty change?
What can the meaning be?
The rising of the masses

The spirit of old seventy-six
From out our heroes' graves
Forbids a nation drenched in patriots' blood,
Should sink to that of slaves;
The motto which our coins once bore,
Though obsolete long since,
Remain as ever trie; not one cent for tribute,
But millions for defense.

Are but as ropes of sand,
The sight of mut to be a man
Should govern Freedom's land.
Theu shall our Fing more proudly float
O'er land as well as sea,
And nations yet unborn shall gladly greet
The emblem of the free.

In trade we'll try to deal,
As man should deal with man,
And while we seek to live ourselves,
We'll sell as cheap as anybody can,
