The grant political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's month, and of whose lives every one is curious to know the particulars. Grast battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publica-tions of the day, but which ought now to take their place in permanent and authentic history. In preparing the present edition for the press, thas accordingiv been the aim of the editors to bring down the information to the intest pos-ble dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newsci invention in the practical arts, as well as to give a succined and original record of the proves into a successful arts and of the work has been begun after long and care-ful preliminary labor, and with the most ample resources for carrying it on to a successful termination.
