Frazier's Great Remedy

The people of the United States have been humbugged with all kinds of Patent Medicines, quacks and imposters for the past few years, in a most shameful manner. The writer of the following is one of the victims, and wishes to present a very plain case.

Believing that by cleansing the blood was the only true way of banishing disease, and being a great sufferer from weak langs and a scrothlous affection, and after trying many kinds of Patent Medicines and the most kinds of Fatent Medicines and the most eminent Physicians, I commenced doctoring myself, and at last d scovered a Blood Searcher, or Boot Bitters, which not only gave me immediate releif, but after a few weeks effected a radical cure. The cough left me, my lungs became strong and sound, my a, petite good, and the secofulous disease had disappeared. Feeling confident that my Discovery possessed wouderful healing virtues, I gave it to others—stated, and tound it effected the most mirroucures in thousands of cases, not alone cures in thousands of cases, not

After this road was located it was doubted whether it would ever be ing Coughs, Consumption, Asthma, Catarrh, rofula and Weak Lungs, but all diseases aussed from humors in the bood. The domand from my friends and others bearing about these Bitters becoming very great, I commenced putting them up for sale, calling hem FRAZILE'S ROOT BITTERS. I was at first backward in used. Now we are informed that the route as located by Lieut. L. has been adopted, and already two car loads of freight have been shipped presenting either myself or medicine to the public-not being a Patent Medicine Man, but am getting bravely over that. I have sold housands of bottles of my Root Bitters, and here for transportation to the above mentioned agency. This will, it is supposed, bring considerable busi-It is my desire and determination to place the same within the reach of every suffering man, woman and child on the face of the civilized ness to this already lively town. The grand principle that operates in these North Platte is very much "down Root Bitters is the power they possess in clean-ing the turgid blood and banishing the vile homors from the system. Root Bitters are strictly a Medicinal Preparation, compounded from roots combined with herbs and plants, many of which were used in the good oid days in the mouth" about it, but it is acknowledged by men from that town that this is the shortest and

THE WORK OF INDIANCE OF THE NEW AMERICAN CYCLOPARDIA WAS completed in 1853, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of cience, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new dition enutled, THE AMERICAN CYCLOPAL-Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative

The movement of political affairs has keptpace with the discoveries of science, and their
ruitful application to the industrial and useful
sets and the convenience and refinement of
social life. Great wars and consequent revolutions nave occured, involving national changes
of peculiar moment. The civil war of our own
country, which was at its height when the last
volume of the old work appeared, has happily
been ended, and a new course of commercial
and industrial activity has been commenced.

Large accessions to our geographical knowedge have been made by the indefatigable explorers of Africa. plorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious

mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sleges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history. In preparit, give present edition for the press, thus accordingly been the aim of the editors to bring down the information to the intest possible dates, and to furnish an accurate account of the most recent discoveries in acience, of every fresh production in literature, and of the newst in rention in the practical arts, as the newest in rention in the practical arts, as well as to give a succinct and original record of the progress of political and historial event.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful

resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopsedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and natural history, and depict the floot smoots and remarkable features of sciency architecture, and art, as we las the various pro-
