HONEY FOR THE LADIES.

Street dresses are to be made to form a demitasse.

The "Alhambra" is the new black silk at Stewart's.

White tulle veils are fashionable with long streamers behind.

The back hair is worn in a single braid called the "quince."

For evening dress a very handsome dotted organdie has made its appearance.

Buff and gray boots made of linen are all the rage with the Paris ladies.

A New York doctor figures it out that an average woman sheds one barrel of tears in forty years.

Braiding will be all the rage next winter. There are hundreds of styles.

Je frange of new pattern is in the market for the fall and winter suits. It promises to be generally used.

There is a great variety of cheap morning silks. They are mostly in stripes. The plaid is also revived.

There is nothing especially new in opera cloaks, although several new styles are promised before long.

Appearances are often deceiving. Many a pale, thin young lady will eat more corned beef than a carpenter.

Came's hair shawl costumes will be as fashionable as ever among those who have the money to buy them.

Overskirts are made very long in front and have long sash ends tied or looped up behind in every imaginable style.

An enterprising New York furrier respectfully announces to ladies who wish genuine furs that he makes "bona fide," "out of their own skins."

China ear-rings representing flowers are among the novelties of the season. They are very fragile, but exceedingly pretty and graceful.

The brocade silks worn by our gentry are to be revived for the winter season, and are conspicuously displayed by leading dry goods houses.

Bands of black velvet about the neck, with small gold or enamel brooches, are in vogue once more among ultra-fashionable young ladies.

The Lowell mill girls have a novel way of getting rid of any male employe who happens to be obnoxious to them. They rush at him in groups and kiss him, and keep up this treatment until the poor fellow is forced to leave.

"Of course," says a returned summer tourist, "one in the country is a good thing, and it is a pity that the Associated Press telegraphed that they had found a number of letters and dispatches implicating Senator Carpenter and Ben Butler in a scheme to blackmail Kellogg."

It now transpires that Penn did not find anything of the sort either in the State House or Executive office, but it is ascertained that a committee of citizens belonging to the P. O. faction did form themselves into a committee to exercise censorship over the telegraph.

They rummaged the files and documents in the office, and made copies or took the originals of all the telegrams of a political tenor of which there was any record. The names of this committee are in the hands of the authorities, and they will probably be dealt with for the commission of an offense which, it is believed, is made penal by a United States statute, and triable in a United States Court.

From our special Lincoln correspondent it will be seen that there is a general feeling prevailing in the Radical camp of the State. McBurney says he will be seen in H. I. first, but it is believed that GARDNER will be the first to appear.

The changes in woman's gait are more mysterious than the transformations in her garments. One year she walks a queen, stately and graceful; the next she struts along with a general strut, in a lamb or a playful kitten. Now she bends forward, lets her limp hands drop from the wrists, and wiggles as if she wanted to advertise the fact that her boots are tight, a thing which is totally unnecessary; again, as at present, she throws her shoulders back and goes heavily forward with long steps. The next change must almost inevitably tend to show languishing movements. No other style of locomotion will be possible with the narrow skirts which are to be worn.

THE CHANGES IN WOMAN'S GAIT ARE MORE MYSTERIOUS THAN THE TRANSFORMATIONS IN HER GARMENTS.

One year she walks a queen, stately and graceful; the next she struts along with a general strut, in a lamb or a playful kitten.
