ABORIGINALITIES.

The subdued Modes are pitching pennies. That old Indian with a variegated narrative, better known as Spotted Tail, has decided to resign his chieftainship of the Brule Sioux.

Justiniano Brules, aged 122 years, the venerable Mission Indian, is still alive and enjoying the hospitality of the Sisters' Hospital in Santa Cruz.

Red Cloud, the present chief of the Oglalla Sioux, is under a cloud with his young warriors. Back-pay, or want of back-pay, or something or another is the matter.

Timid Menonites. The Rev. Mr. Neumann, pastor of a German congregation in New York city, writes to the Westchester, a newspaper of Allentown, Pa., concerning two parties of Menonites...

Appleton, Wis., is to have a sewing machine manufactory. The fall trade in shoes is one more promising at Lynn, Mass.

PERSONALITIES. Mme. Tussaud has added Mr. Beecher to her collection of wax figures. They say Vinnie Ream isn't a "good" only a "persuasive curly-head."

Dr. Ayer, of Lowell, will leave his handsome daughter \$2,000,000 in greenbacks which is a sugar-coated pill worth taking.

Gen. Braxton Bragg is now chief engineer of the Galveston and Santa Fe railroad, with headquarters at Galveston.

There is evidently a very brilliant future before Weston, but the general opinion is that he won't begin to get it much until somebody saves off his legs.

Dr. Newman, in looking around Palestine, had his rational feelings a good deal stirred up, as is evidenced by his pathetic dispatch to the State Department, that he could not be happy if he had only got home with some Jerusalem mud on his boots.

Edmund About is said to be so quick and ready in his movements that one wonders where he carried even the fat he carries. His face is said to be of a Russian type, and if he is not exactly handsome himself, he has five handsome children.

INDUSTRIAL POINTS.

Appleton, Wis., is to have a sewing machine manufactory. The fall trade in shoes is one more promising at Lynn, Mass.

The Peoria Glass Manufactory has gone the way of many new born enterprises. The elevator just completed at Duluth has a capacity of 240,000, and cost \$60,000.

According to dental estimates it costs the American people \$5,000,000 a year to keep their teeth in order.

The Jackson, O., Standard, claims that the first furnace in Ohio for the manufacture of iron was built on Brush Creek, Adams county, in 1809.

A lightning rod which was put up under the personal supervision of Benjamin Franklin in 1782, remains still upon a hotel in New Hampshire.

The new rolling mill at Terre Haute, Indiana, is now running on full time with about half force, the most that has ever been employed since its completion.

In consequence of the long drought Mr. Sullivan, a wealthy old farmer in Illinois, will have only 850,000 bushels of corn, 40,000 bushels of oats, and 5,000 tons of hay.

The tobacco industry is making fair progress in California. A company at Gilroy have planted several hundred acres of plants, and recently sent to New York for the first time a consignment of 60,000 cigars, and 3,000 pounds of tobacco.

A German now at work on the Napa Branch Insane Asylum, during his leisure time, invented and perfected a clock that at a set hour will lift the chimney off the lamp, light it, put out the match and replace the chimney. He now at work on something else, supposed to be a clock that will get up in the morning at daylight, go down stairs to the kitchen, kindle a fire and make the coffee, and then rattle off an alarm to wake the family.

Natches, chief of the Putes, after leaving the Indian Commissioners who tried Nevada during the summer, had all the Indians of his tribe carefully counted, and they numbered 1,200 men, women and children, 2,455. Of this number but 253 are on reservations. They declare they will not be forced upon reservations, though they are willing to work. They say white men are allowed to live where they please, and Indians should be allowed the same privilege. They are waiting to have a talk with the Commissioners.

IMMIGRATION TURNING.

The Rev. Mr. Neumann, pastor of a German congregation in New York city, writes to the Westchester, a newspaper of Allentown, Pa., concerning two parties of Menonites...

From Mr. Neumann's report the runaway appears to be a people too timid and simple-minded to be away from home anywhere without a guardian. "We cannot stay in this land," they said to a clergyman, and go to the other side of the world, where the people curse; in Russia people pray. Here the children do not remain German; in Russia they are called "Germans."
