EXPECTORATION

Is the act of discharging from the throat and chest matter that arises, from colds, instead of scattering and distributing it through the blood, and poisoning it. By thus assisting the Lungs, Throat and Chest, Dr. Green's Expectorant cures Colds, Coughs, Asthma, Bronchitis, Croup, Dyspepsia, Whooping Cough and all affections of the Lungs, Throat and Chest, and the first stages of Consumption and Typhoid Fever. Its qualities are Expectorant, Sedative Pectoral and Alternative. It does not stop the cough as most preparations do, by their anodyne and astringent effects, retaining the mucous and offending matter in the blood and causing permanent disease of the Lungs, but it cures by loosening the cough and assisting the lungs and throat to throw off the offending matter, which causes the cough, thus scientifically making the cure perfect. It at once allays the local distressing cold on the lungs, soothes and allays irritation, and breaks up Whooping Cough. No better remedy can be found for Asthma, Bronchitis, Croup and all affections of the Throat Lungs and Chest, and if continued in use will subdue any tendency to Consumption, Lung and Typhoid Fever.

If the liver is torpid or the bowels constipated, a few doses of Dr. Green's Liver Pills will assist nature. No better cathartic can be found.
