THE NATIONAL CAPITAL.

Washington, November 14.—The President has reappointed Chauncey I. Filley postmaster at St. Louis, Mo.

SENATE PROCEEDINGS.

Mr. Ingalls, from the committee on Indian affairs, reported, with amendments, the Senate bill to enable Indians to become citizens of the United States. Placed on the calendar.

Mr. Conover introduced a bill to grant additional homesteads to settlers upon public lands in the states of Alabama, Mississippi, Louisiana and Florida. Referred.

At the conclusion of the morning hour, Mr. May called upon the resolution submitted by him a few days ago, instructing the committee on military and naval affairs to inquire into the expediency of constructing a system of defense works on the Rio Grande frontier of the United States, and to report thereon length regarding roads from Mexico into Texas and the necessity for such defensive works.

Mr. Wilson, from the committee on appropriations, reported with amendments the house bill making an appropriation for support of the army and it was placed on the calendar.

The vice president laid before the senate a communication from the president enclosing the report of the secretary of state in reply to the senate resolution of the 8th inst. in regard to the release of prisoners by a Spanish band from Mexico from the jail in Starr county, Texas, in August last. Referred.

HOUSE PROCEEDINGS.

Mr. Wright offered a resolution instructing the committee on banking and currency to inquire into the propriety of amending the banking laws as to require in the election of directors the principle of cumulative voting in states where such laws may exist, and also as to the propriety of amending such laws as to limit the efficiency of proxies of two months.

Mr. Brogan offered a resolution instructing the judiciary committee to inquire into the facts of imprisonment of Rogers, a banal, colored member of the house of South Carolina, and to report whether such imprisonment is or is not a violation of constitutional privileges of the house.

Mr. Butler offered a substitute resolution giving the judiciary committee power to send for persons and papers in making investigation. Adopted.

Mr. Wood, chairman of the committee on ways and means, reported back the resolution for final adjournment of Congress on the 22d inst., at 1 o'clock. He said he would not call for present action, but call it on in a day or two.

Mr. Keifer offered an amendment that no bill for the redemption of notes shall be construed to authorize or require the secretary of the treasury to retire or cancel legal tender notes that may be issued on or after the 1st of January, 1879, and after the 1st of January, 1879, or may then be in the treasury unissued or that may be already issued, but that such notes may be used in payment of all debts against the United States or in exchange for coin or bullion.

Mr. Deering offered an amendment to postpone the year of redemption from 1879 to 1880. Also to authorize the release of legal tender notes and to make them legal tender for all debts, public and private.

Mr. Ward offered an amendment that nothing in the act for the redemption of notes shall be construed to require the payment of debts due on the 1st of January, 1879, in payment of wages or in debts that may become due after that date for any kind of labor, but that such debts shall be legally payable only in such coin or notes as shall be legal tender.

ARRIVAL OF THE REDEMPTIONS.

Denver, Col., November 14, 10:18 a. m.—The Board of Trade arrived here on the 9:30 p. m. yesterday. The party was met at Golden by the Board of Trade committee from Denver. The Denver Board of Trade with carriages drove the party through the principal streets of the city this morning. In the afternoon no exercises except spending time to suit himself. At 7 p. m. committee of the Denver Board of Trade escorted the party from the depot to the Opera house, where a formal reception was tendered. Speeches of welcome and congratulation were made by Mayor Milles, ex-Mayor Buckingham, ex-Gov. Evans, Gov. Root, J. F. Welden, Mr. Londoner, ex-Denver, and Mayor Wilbur, S. Chase, Wm. G. Gwyer, J. M. Thurston, for Omaha.

SUICIDE OF A BANKER.

Chicago, November 14.—The body of Wm. F. Coolbaugh, president of the Union National bank of this city, was found on the steps of the Douglas monument at about six o'clock this morning. A revolver with Mr. Coolbaugh's name on it was lying near him.

The sad event was induced by matters outside of bank affairs. It is shown by a statement made this morning by Bank Examiner Watson that he on last night concluded his semi-annual examination of the Union National, and that his report to the comptroller of currency will show not only a solvent bank, but a condition of unusually large cash means.

Knocked down.

Yes, it was a fair and square knock down, and the justice of the act is denied. The female interested are more particularly interested in their respective attainable evidences of their appreciation.

POSTOFFICE CHANGES.

The following are the postoffice changes in Nebraska for the week ending November 10, 1877, furnished the BEB by William Van Vleet, of the Postoffice Department.

ESTABLISHED.

Charleston, Gage county, Wm. V. Lagourque, postmaster; Triumph, Custer county, Frederick Schreyer, postmaster.

POSTMASTERS APPOINTED.

Dry Creek, Madison county, C. M. Snyder; Farmersville, Merrick county, Chas. O. Pemberton; New Era, Furnas county, Frederick Bender.

The injurious use of improperly prepared pills and other lullaby-blown remedies, recommended to cure all ills, is much to be lamented by all except the doctor into whose care you are sure to come. An honorable and trustworthy exception to the rule is Elliott's Daylight.

IF YOU WANT TO BE STRONG, HEALTHY AND VIGOROUS.

Take Dr. F. Kunkel's Bitter Wine of Iron. It is a tonic and a stimulant, and is the most perfect health and vigor: sold only by Dr. Kunkel. Sold by all druggists and dealers everywhere.

NEURALGIC DEBILITY.

Debility, a depressed, irritable state of mind; a weak, nervous, exhausted feeling; a nervous or anemic condition; a weak memory; the consequences of excess and of mental overwork. This nervous debility finds a sovereign cure in E. F. Kunkel's Bitter Wine of Iron. It is a tonic and a stimulant, and is the most perfect health and vigor: sold only by Dr. Kunkel. Sold by all druggists and dealers everywhere.

STANDARD EXCELLENCE.

The highest praise that Dr. Price's Flavoring Extracts have won in public estimation sustains us in the assertion that for standard excellence there have no equal. Every housewife who has had occasion to use Dr. Price's Special Flavoring Extract will endorse the above statement.

WORMS! WORMS! WORMS!

E. F. Kunkel's Worm Syrup never fails to remove worms from the system. It is a safe and sure remedy for Diarrhoea, Dysentery and Children's Worms. It is a safe and sure remedy for Diarrhoea, Dysentery and Children's Worms. It is a safe and sure remedy for Diarrhoea, Dysentery and Children's Worms.

NATIONAL CAPITAL TOPICS.

THE CHINESE.

The N. Y. World's Washington special says the House committee on education and labor will have before it at the regular session of Congress the question of Chinese immigration and labor. In view of the information presented to the last Congress by the commission selected to investigate the subject, it is scarcely probable that Congress will take some definite action, either for or against the Chinese. A number of bills having in view the prohibition of immigration of Chinese subjects into America will be introduced at the regular session. Page, of California, has already introduced a bill to prohibit the immigration of the subjects of China into the United States. The preamble of the bill recognizes the existing treaty obligations of the United States to the people of America and China in each of the respective countries, claims that Chinese immigration is injurious to the people among whose rights and that the provisions of the treaty granting reciprocal rights to the subjects of either nation to reside in the other, which has been stipulated by the concurrence of the two countries within one year, if at all. The bill enacts that on and after January 1, 1879, it shall be unlawful for any subject of China to enter the jurisdiction of the United States unless he files upon the day of his entry a certificate, signed by the United States Marshal of the district, and dated not more than sixty days prior to its presentation, certifying that the possessor thereof comes to engage in mercantile business or as a representative of mercantile business in China. For violations of this section of the act any Chinese subject, in the United States District Court, shall be fined \$100, and in default thereof, be imprisoned for three months. The act also provides that any Chinese subject who shall be found guilty of bringing such offender to be punished by a fine of \$100, for the payment of which his vessel shall be liable, shall be liable to the United States District Court to cause the return to China of all its subjects convicted under the act, and to defray the expenses thereof out of the fund created by the recovery of fines from violations of the act.

THE PACIFIC ROADS.

The Senate Judiciary Committee heard arguments Monday from ex-Senator Trumbull, representing the Central Pacific Railroad, and S. S. Shellabarger, representing the Union Pacific, in opposition to Senator Sherman's sinking fund bill. Sidney Dillon, President of the Union Pacific, and C. P. Huntington, Vice President of the Central Pacific, were present to support the proposition for the repayment of the Government's advances of interest on the bonds of the companies, but the arguments of counsel were long, and prevented their submission.

THE PROPOSITION.

It is understood that the two companies offer, first to repay to the Government about 6,000,000 acres of land, which they propose to value at \$100,000,000, and to pay the Government semi-annually \$100,000,000, and also such amounts added to the foregoing and to the earnings for Government transportation as will create a sinking fund sufficient, with its interest, to pay the principal, to liquidate the total amounts advanced or to be advanced by the Government for interest on bonds for the last 18 1/2 years, and five years subsequent to the average date of the maturity of the bonds.

DOTS AND DASHES.

Condensed Telegrams from All Parts of the Globe. WEDNESDAY, NOV. 14. A dispatch from Havana says: Distressing tidings of imprisonment and banishment and executions increasing in number have been received from Puerto Plata. Nearly 100 citizens were sent in chains on board the steamer 'San Diego' to Cuba. Among the prisoners were several taken from consulates, where they had taken refuge. A San Diego dispatch says: The chronic revolutionary state of affairs below the line in Lower California, presents a new aspect just now in the uprising under one Rodriguez and capture of a party who have been authorities defacto since Villarama's banishment nearly a year ago. It is reported that two persons were killed in an emeute. People on our side at Camp have been kept constantly on the alert several months by the unsettled affairs in their neighborhood.

San Francisco, November 14.—

The committee appointed by the cigar makers' association to interview cigar manufacturers of San Francisco, and ascertain their views on the question of employing white labor instead of Chinese, have called upon various firms engaged in the trade. Most of the cigar manufacturers have been interviewed, and state they are prepared to discontinue their Chinese employment as soon as a sufficient number of competent white men can be obtained to take their places. After the cigar makers have called upon other cigar manufacturers of San Francisco, they will call upon the manufacturers of cigars in New York and hope to induce them to come here and supplant the Chinese.

ADVANTAGE OF HEAVY PLATES.

The soft bituminous coal used in the west is so destructive on all cast iron that, the use of heavy plates in the construction of the Cook Stove will be appreciated by house keepers as well as dealers. This advantage, with excellent draft, quick and uniform baking, make the Cook Stove the most desirable stove in the market.

THE SUPREME IMPORTANCE OF DOOLEY'S YEAST POWDER CAN BE ESTABLISHED BY LOGIC.

For instance: Bread is the staff of life; Dooley's Yeast Powder is indispensable to good bread. Therefore this baking powder is of great value to life. If you don't like the logic see if the practices don't remedy the defect.

BAKES PERFECTLY.

The great popularity of Dr. Price's Cream Baking Powder is the best evidence of its worth. Whenever a sweet white biscuit is wanted, or a light hot pie, an elegant cake, or a delicious pudding, Dr. Price's Cream Baking Powder should be put in.

ITALY.

WILD RUMORS.

Rome, November 14.—There is no foundation for the alarming rumors sent from here in relation to the Pope's health. He still continues to be in good health, but his late alarm of his early demise is entertained.

PREPARING FOR WAR.

The Italian Minister of War has ordered the formation of a fourth railway company to be attached to the Second Regiment of Engineers at Turin, and the same will be done at other stations. The company will be twice as many of these railway companies as the French with twenty army corps. The Minister of War has ordered the formation of a fourth railway company to be attached to the Second Regiment of Engineers at Turin, and the same will be done at other stations.

MATTERS IN MORMONTOM.

Assessment in Mining Circles—Example Building Main—Journalistic Improvements, Social and Other Items From the Mountain City.

Salt Lake City, November 11.—My letter will be one of odds and ends, gathered here, there and everywhere so far as they concern Utah. Perhaps some of them may be as pertinent to Salt Lake letter, as a local notice that someone wrote stood at the head of its peculiar column in a Liverpool (England) newspaper. It read: "Mars is near the moon to-night," which certainly was a local item, but the locality was a long way off.

Mining matters are dull. They always are here when the price of lead is low. Quite a future, however, has been created lately, regarding the Bonanza mine, in the San Francisco district, Beaver county, about 170 miles south of Salt Lake. One correspondent says of it: "The explorations at the time of my visit showed a body of ore nearly 200 feet long, 20 feet deep and over 30 feet thick, and its limits not yet determined."

There is some "preliminary" talk of starting a Conservative non-Mormon paper in this city. The scheme is said to be backed by Eastern capital. So many of the Gentiles of Utah despise the rantings of the non-Mormon press, that a non-Mormon, non-sectarian, conservative sheet has long been felt by them.

Ex-Judge McKean for our next Governor in the present battle of the radical way. A petition looking to this, but ostensibly for the removal of Governor Emery is being circulated by the non-Mormon party. A subscription is also being taken up to pay his expenses and that of two other delegates to Washington.

Elder John Taylor, the new Mormon president, was sixty nine years of age on the first day of the present year. The pleasures of our Indian summer are now upon us, the storms of last week have passed away, and our bright, cool season has succeeded it.

It is to have a street railroad, and altogether that city has brightening prospects. The extension of the Utah and Northern railway will bring many a grin to its mill.

Work on the Utah and Northern is being pushed vigorously. The grading contracts are mostly small and are divided amongst numerous residents contiguous to the line of road.

Peter Clinton has been nominated in his suit against the United States Marshal for damages. The case will be carried up to the supreme court, as the United States Marshal, still higher yet to the supreme court at Washington.

Our boys in blue are coming home from the wars. Joseph having surrendered, and the fighting over the border, they can comfortably hibernate in Camp Douglas and Cameron.

Trade is somewhat brisker; our country cousins are coming in large numbers, with their potatoes, pumpkins and "garden peas." The potato crop is very light this year, and the country cousins are accordingly "high" in the market.

All the fashions of our burg are again regarding the approaching winter. The clothing of the season, still higher yet to the supreme court at Washington.

The following business was transacted: A bid to supply corn and oats for the fire department was received from P. Schrader and referred to the committee on fire with power to act. The report of the city engineer in regard to the extension of Grace street was referred to the committee on public property and improvements.

THE OTHER SIDE OF THE STORY.

Miss Wintergreen, the young lady passenger who, while laboring under a temporary attack of insanity, jumped from the Union Pacific express train just east of Grand Island and had her shoulder dislocated, was brought to this city Tuesday afternoon and taken East over the Northwestern for her destination, near Chicago. Further particulars were learned about the matter, and we find that the report of some of the passengers on the train in regard to the charge being so indifferent in regard to the matter is not true.

It appears when the terrible accident happened, Dr. Hudson, an eminent physician, of California, by the way, was so excited and shocked that he hardly knew what to do, and said he would not go back to California with the young lady but would take her on if she was alive. He drove back to the first station at a rapid rate, and did all in his power to alleviate the sufferings of the young lady. He thought best to take her East at once and consequently arrived on the Union Pacific train last night as stated. The lady was carried from the Northwestern road, on a sort of couch, and was in charge of the doctor and a couple of ladies. She was suffering through not dangerously injured and appeared with all her pliancy what he thought of her actions, and thereby incurred their displeasure, and they, it seems, circulated the report about his coolness in regard to the matter. It is to be regretted that the young lady, who was a young lady, that she will soon be restored to health, both in mind and body.

FORESTRY.

The American Forestry Association have brought the important matter of forestry to the attention of Congress, and it is important that all available information should be obtained. Nebraska has done much, and a report is earnestly requested showing the amount planted in '77. Will the State press call attention to this important subject, and request that all statistics be sent before January 1st, to J. T. ALLAN, Omaha, Stationer for American Ass'n.
