CONGRESSIONAL.

SPNATE PROCEERINGS. Washington, March 5. - Mr. Thurman introduced a bill to pro hibit members of Congress from becoming sureties on certain bonds.

Referred. The long bond bill, Mr. Wallace being still unavoidably absent, was Northwestern preferred. Rock Island passed over for the present with the St. Paul. understanding that it should retain its place as unfinished business.

The military committee reported St. Paul. preferred Ohio & Mississippi... Lake Shore.

Illinois Control..... adversely the bill extending time for presenting claims for presenting claims for equipping and drilling volunteers during the rebellion. In-

definitely postponed. The house joint resolution providing for issuing of arms and ammu nition to Idaho under the act of July 3d, 1876, passed.

Mr. McMillan called up the senate bill to authorize the Worthing. ton and Sioux Falls railroad company to extend its road into the territory of Dakota, to the village of Sioux Falls, which was discussed at length and then laid sside.

Mr. Beck called up his resolution declaring it inexpedient to levy and collect taxes for maintenance of the sinking fund, and spoke at length

in favor of the resolution.

Beek opposed reference of the resolution to the committee on finance. He renewed previous ar guments and declared our whole system of federal taxation was unjust and heavy. He argued that the Asters, Stewarts and Vanderbilts should pay their share towards the support of the government. Whatever financial legislation should be enacted depression will continue under this oppressive taxstion. He mentioned the decline of ship building, and said that our commerce which in 1861 was passing that of Great Briain, has frilen off. He favored repeal of navigation laws and high protective tarfff, which had well nigh destroyed our commercial marine. The sinking fund was now in a condition to meet all pledges, and there was no necessity to levy taxes for it at present. He opposed all subsidies. He would encourage competition and discountenance com-

ships, removal of all taxation bid. other sur plies. He favored an income tax so as to raise \$25,000,000 annually. At present poverty bears the burdens of the government, while wealth escapes. He feared Mesers Morrill and Dawes would control the finance committee and defeat his resolution. The treasury department should have a collecting and disbursing secretary who should be a check on each other. His resolution was to revive commerce, not to

weaken credit. Mr. Morrill said he was willing to do a great deal to reduce taxation, but thought it strange that Mr. Beck should want this important resolu- 2 Milwaukee in store, \$1 26; No. 2 the finance committee. The navi- west \$1 24a1 26. gation laws, which Mr. Beck denounced, were the same as in 1861. 372c. He denied that the poor were op-pressed and the rich favored by present taxation. The fact that no people on earth are clad better than Americans, proves that taxes do not oppress them. He hoped this would not be one of the resolutions to be passed under the whip and spur of outside influence. The removal of texes was a pleasant duly, but their imposition was sometimes

a patriotic necessity The motion to refer to the finance committee was agreed to without division. Adjourned.

HOUSE PROCEEDINGS. Mr. Marsh offered a resolution reciting that the Union Pacific and Central Pacific railroad companies owe the United States \$28,000,000 of of accrued interest on bonds guaranteed by the United States, and and that the earnings of said companies have been consumed by divi-dends declared on capital stock in violation of their charters, and directing the judiciary committee to report whether it is expedient to enact such laws as will prohibit the payment of dividends on said stock until indebtedness to the United

States is liquidated. Referred. On motion of Mr. Eden the Senate amendments to the House bill making an appropriation for payment of claims reported allowed by the secretary of the treasury were

concurred in. The speaker then called committees for reports.

Mr. Crapo, from the committee on foreign affairs, reported back the bill supplementary to the set to carry into effect a covenant between the United States and China, concluded in 1858, and to give the court of claims jurisdiction in certain cases. Passed.

At the conclusion of the morning hour a half hour's discussion arose as to the businest to be next considered. After a great deal of amusement, and while Mr. Townsend was on the floor, the Speaker aunounced that discussion was entirely out of order, and that it seemed to him public business should be proceeded with, which called forth a remark from Mr. Townsend. He did not want the chair to lecture him in public.

The Speaker -The chair will lecture the gentlemen in private. Mr. Townsend-- You had better. I do not want any public lecture ; and further, I will not submit to it.

[Great laughter.] The house then went into committee of the whole, Mr. Potter in the chair on the fortification appro-

for harb ir and torpedo defense. The

Durhem made a speech on the bill authorizing the secretary of the treasury to employ temporary clerks, and making an appropriation for them.

The new territory would embrace the wealth and population of the Hills, Forts Sully, Standing Rock, Rice, Lincoln, Stevenson, Berthold, Buford, the city of Bismarck, the scores of stations on the Custer and Fort Pierre routes to the Hills, the ranches on the mail routes to Buford and Tongue river, and Fort Sully-covering a total distance of 1,300 miles. It is, "On to the Yellowstone!" Cattle raising seems to be the prospective bonanza. Besides, there are people in this section who believe there is gold in the Big Horn country, and next spring they intend to be there and test it to their heart's content. As an illustration of how the fortunes of mining run, I have a little story from Adobetown, Montana. A claim out of which the owner, in 1865, made a fortune, was sold in 1866 as "played out" ground, for a thousand dollars. The

Dyspepsia. Dyspepsia. Dyspepsia.

Dyspepsia is the most perplexing of all human airments. Its symptoms are almost infinite in their variety, and the forlorn and despondent victims of the disease often fancy themselves the prey, in turn of every known malady. This is due, in part to the cose sympathy which exists between the stomach and the brain, and in part also to the fact thau any disturbance of the digestive function necessarily disorders the liver, the bowels and the nervous system, and effects to some extent, the quality of the blood.
