Ash Wednesday begins our Lentn Fast of forty days. May I not ask now to make your resolutions or a discipline such as health and ability dictates: then, upon your bended knees, ask God to help you

It is a cause of thankfulness that the church of our love has influenced many who are not with us, to make it a season of rest from social festivities; but we must go further. It is not enough that we abstain from our innocent amusements. We must give them up in order to have more time for selfexamination, private prayer, charitable works, and just so far as possible-men as well as women-to be u regular attendance upon all the

Lent services. Do not merely make your tables plainer, but let this abstinence be the means of increasing your Easter

offering for the missionary work in the diocese Nor does this apply alone to those who are greatly blessed in worldly goods. The poor should heed it as

If there are those who have neglected for a long time that sacrament which is for "the strengthening and refreshing of our souls," I beg you to make this season of Lent a preparation for a pentient participation in that Holy Feast on Easter Sun-

THE FIRE DEPARTMENT.

The Coming Election of Chief Engineer.

The election of Chief Engineer of the Omaha Fire Department takes place on the second Wednesday of April, and slready there are numerous candidates in the field. The usual manner of election is for the said, "There will come when the companies to nominate their candidates at preliminary meetings, and then at a meeting of the whole department an election takes place. The man thus selected by the fire department is then appointed to the office by the City Council, who thus confirm the firemen's choice.

The Pioneer Hook, and Leader Company and Engine Company No. 1 held meetings last night for the purpose of nominating candidates; and engine companies Nos. 2 and 3 hold similar meetings to

Among the names mentioned for this office are John Cane, of No. 1; S. A. Mealio, No. 3; Harry Tagger and B. Shannon, No. 2; George Godfrey, of the "Hooks," and Frank Kleffner, the present chief. We understand that the contest is likely to be between Godfrey and Kleffner. The salary is only \$500; if it were more, there would, no doubt, be a greater number of candidates.

NAIL FACTORY.

The Contemplated Enterprise Will be Brought Before the Board of Trade To-Night.

At the meeting of the Board of Trade to night the subject of building and operating a nail factory in Omaha will be laid before the Board. We are thoroughly convinced that nails can be made here or at some point on the Missouri river, out of old rails and scrap iron (of which we have an abundant supply at our door) 25 cents less cost per keg than they can be made in Pittsburg, Wheeling, or even St. Louis, and transportation to Omaha added. This is a guarantee of 25 per cent, profit per annum on the entire investment; even should furnaces at those points operate their mills and sell at cost, which they are not likely to do very long. They tried it last summer, and the result was an advance of thirty cents per keg lately, and for many reasons nails

are likely to further advance. And we are further eatisfied that presented to-day, we would have had a nail factory in successful ope. latter. ration at this time.

A SHOOTING SCRAPE.

fwo Colored Women Have a Quarrel,

had s very lively altercation.

and One Shoots at the Other. Yesterday two colored women named Mrs. Cornish and Mrs. Thomas, living on Tenth street,

It seems that Mis. Thomas Went to the house of Mrs. Cornish to ask her to go with her to a neighbor to explain away some gossipy tales, which Mrs. Thomas claimed Mrs. Cornish had been circulating about her. The two women had some words, about the matter, which finally resulted in a quartel and a fight. They clinched each other, and in the scuffle Mrs. Thomas managed to get the better of her opponent, whom she scratched and pounded. She then started to go out of the house when Mrs. Cornish grabbed up a "bull-dog"-a five-shooting revolver-which she snapped at the departing assailant, but it would not go off. A second time the weapon failed to fire, but after repeated efforts on the part of Mrs. Cornish it finally went off, the ball passing through the shawl of Mrs. Thomas, but did no injury to her. If it had struck her it would have gone clear through her, as the ball

was a very large one. Mrs. Thomas' retreat was consid erably accelerated by the pistol shot. Mrs. Cornish came to the police court and swore out a warrant against Mrs. Thomas for assault and battery.

Mrs. Thomas will probably make complaint against Mrs. Cernish for assault with a deadly weapon with intent to kill. Married.

Mesers. Frost and Williams of York Nob. have purchased the exclusive right to manufacture ynd sell the "American Directer" in the State of Nobraska, and have one of their machines now on exhibition near the north-east corner of the square. The machine is composed of an oblong frame, about ton feet in length, pieced upon a pair of broad low wheels. The cutter is attached to the front end of the frame, and consists of a steel plate, fashioned after the pattern of a sickle tooth: this is connected with the frame by two upright cutters, the whole being braced well to the frame. Immediately in the rear of the cutter and connected with it is an inclined table, ever which an endless chain runs and which lifts and conveys the dirt in a solid mass and deposits it about ten inches from the edge at one side of the ditch, thus making a fence twire the depth of the ditch. It is very simple in construction, and can be worked by any one able to plow. The gentle men design having them manufactured in the S ate, and are making arrangements to contract for fencing to any account of the state of the start. Persons wishing the Driver to call regu-larly at their house for orders, will please leave word at the store. GROCERIES -AND-KNIFE TO THE HILT! GASH, CASH, CASH

rangements to co-tract for fending to any extent desired. They are also offering territory at rates that will prove remunerative to live active men. The machine has been in use in Iowa and Wisconsin for two years past, and is said to have proved a success in every particular. CREDIT, CREDIT!
