ARGUMENT AGAINST ITS ADOPTION. Washington, March 6 .- The Chiago and Northwestern, and Chicago, Rock Island & Pacific Railroad Pacific Railroads, in the so-called Union Pacific and Kansas Pacific Railroad Companies. The arguarrangement, there is a difference from Omaha, and, if the same rates are secured to all comers from the Union Pacific and Central Pacific railways from Omaha west, St. Louis has at least equal advantages with Chicago. If Congress, there-

fore, places restrictions upon lines passing through Counner as to prevent competition City rates may be established at Omaha, and an advantage equal to 210 miles in distance be therefore secured to St. Louis latter city is so active in behalf of this legislation. There is no discrimination at Omaha, and neither St. Louis nor Chicago can secure any considerable advantage over the other. The Union Pacific Company denies that the has ever been the slightest discrimination between lines converg ing at Council Bluffs. It is maintained that the Chicago & Alton Road, which forms pert of the Kansas Pacific line for Pacific elope traffic, is the only road terminating in Chicago which could not be injured ed that discrimination against Chi-
