The railroad company has purchased 480 acres of land adjoining the present town site on the south; and I learn from reliable sources that they are to there locate stock yards on a large scale. It is also rumored that at this point the railroad empany is to erect round houses and

machine shops, making it a division station of their road, as well as a juncion. This would make the town secand to none in th's vicinity, as besides ts railroad advantages it is surrounded by rich bottom land, and a fine producing country. Mr. A. B. Smith, state surveyor of Nebrasks, is re-staking the town. The streets are to be graded,
