A Heavy Cut Made in the Tariff Rates, noon for Chicago.

The Fight Opens Briskly.

An interview with manager E. L' Armstroug, of the A. & P., elicited a a few additional facts in regard to the telegraph war: "Will the Atlantic & Pasific com

pany follow the cut made to-day in telegraph rates by the American Union?" asked the BEE reporter. "They have already made a reduc

tion," said Mr. Armstrong. "The highest tariff now of the A. & P. com pany to any pointeast is 75 centr. To any point in Nebraska, east of North Platte, Lincoln included, the tariff is reduced to 25 cents. To New York City. where the American Union rates are 75 cents, we will forward messages for 60. To any point in Pennsylvania, outside of Philadelphia, we will trans-

mit messages for 75 cents. To Philadelphia, 60 cents. To any point in Iowa, 35 cents, which is a very large reduction. To any point in Illinois, including Chicago, 40 cents, a reduction of 60 cents in the state business.' "What are your rates to western

Do you think there will be any further reductions?

It is the intention of the Atlantic & Pacific company to do business to all points at as low or a lower rate than any other company. Our facilities for doing such business are inferior to none, and superior to some lines. The patrons of our company will get the full benefit of any reduction in rates made in this fight, and we stand ready to transmit all business with promptness and dispatch.

From all indications the fight wil be both long and bitter, and the people will reap the benefit during its

ENOUIRING ENGINEERS

A Delegation From the American Association Pay a Visit to Omaha.

Sunday evening a special car containing thirty members of the American society of Civil Engineers, who have lately been in session in St. Louis, came over the bridge to our city and remained during the night at the depot, permitting the visitors to make an examination of Omaha attractions.

Yesterday afternoon Mr. C. G. Force, one of the most distinguished members of the association paid a visit of that city. He is favorably and widely known for his papers on the subject of sewerage, and has recently published the plans for a novel and original egg shaped sewer which has attracted much attention among members of his profession. Mr. Force stated that the meeting of the association at St. Louis had been a most pleasant and profitable one, various excursions having been taken to points in Missouri adjacent to the city notably to Pilot Knob & Iron mountains. On Saturday, under invitation of Mr. Geo. Morrison, engineer of the Plattsmouth bridge, thirty members of the front of the Union block this morn-ing. Upon opening it be found that shed by the courtesy of the officers of it contained a draft from A. W. Clark, the St. Louis, Kansas City & Northof Papillion, for \$224.48, and a check, ern, and spent Saturday morning and afternoon in inspecting the struc-

Mr. Force, upon being interrogated in regard to Omaha's sewerage capabilities, said that with water works complete sewerage was simply a question of a short time. He knew few cities which possessed better natural advantages, although the question of permanent outlet on the river bank would be a question of some importance owing to the changing channel and the rise and fall of the water.

To the editor of The Bee: You will confer a favor on "the Murphys," "the Quinns" and "the O'Briens" and other citizens of Omaha who have been maligned and slandered by the editor of The Omaha Herald in his several articles upon the recent labor strike in our city by publishing the following extracts from The Nebraska Watchman:

MILLER'S GROANS. The groans of the sandlotters produced a serious attack of the billious ness on the natty "doctor" who sali vates the big bugs with fulsome flat-O'Briens, Murphys and Quinus. Now, day afternoon to attend the Chicago the fact is, O'Brien was the first to suggest arbitration; and the Murphys here to shoot them at the beck of corporation toadies.

What a silly boast it is for papers which pander to griping corporations, public plunderers, stock gamtlers, tax hirkers, and monopol'er who convert the life, blood, perspica ion and muscle of the working slave into gold to subsidise blataut and ignorant, but selfimportant editors, to groan about "law and order," when their very supercilious blatancy is sufficient to create lawlessness and disorder. Consistency is a jewel the hireling mouthlittle of; but the greaning editor lelphia yesterday morning. Rumor consistent, since he learned how to treat the working man on Herndon house scrip in the terdary period of his existence.

At one of the early meetings of the workingmen, Gen. O'Brien and ourself counselled arbitration as the most salutary way to set le such difficulties; and the leaders of the workingmen gave ut to understand that the bosses

wouldn't arbitrate worth a cent. When Uncle Sam sends his soldiers to protect voters at the polls, it is military usurpation; but when Gov. Nance sends his soldiers to coerce the strikers, it is all hunkidori-in the eyes of our democratic editor. It makes a great deal of difference whose ox is impounded in the eyes of payroll dem cratic editors.

"Governor Nance's brave state troops, And Hayes' stalwart men, Marched down upon the battlefield, And then marched back again.

We do not wish to be considered in the light of making selections for your paper, but as the foregoing fully answers that scurrilous article of Miller's, in The Herald, we suggest that both mine and his admirers read the same as good Sunday reading.
