I know that it is too often the case that all the eggs produced on the farm are sold for groceries and other small items of household expenses. I know that too often all the poultry are sold to the butcher, and that sometimes the farm-er does not taste a fresh egg or a chicken during the entire year. This is unwise. With a little care sufficient eggs can be produced not only to make a profitable item in the farmer's income, but also to enable him to gratify his taste for fresh eggs as well.
