Debate was limited 20 minutes

on each side. The convention voted to accept the majority report on Kansas, admitting the ten delegates to seats, allowing the state but six votes.

A delegate has demanded the call of states on the question. The call of the states on the ac

The motion was then made that the minority report of the committee on nation, and that the fruits of the costcredentials, seating the two contestauts from West Virginia, be adopted.

The question of the contesting delegation from Utsh was then taken up perpetuated, and that the liberties seand elicited considerable debate. The minority report in favor of admitting generations; that the order established the contestants on place of the sitting and the credit acquired should never

As previously telegraphed the report recommends that when the vote of the state is cast for a candidate it cannot be changed on the ballot excepting in the case of a numerical error. The report further recommends that ten minutes be al

The monotony of a dull and unin teresting session of the convention was suddenly and unexpectedly broken up the boundary between powers deleby General Sharpe introducing a resolution the convention immediately proceed to ballot for president and vice-president, allowing fifteen minutes for presentation of each candidate and ten minutes for seconding the

An excited debate followed in which Gee. Garfield participated. The convention finally rejected the motion to ballot, Sharpe demanding tae states be called on his motion. The real call of the states resulted in the defeat of the motion by a vote of 489 to 276.

Garfield made a point of order, which was not sustained, that the convention must first dispose of the report of the committee on rules. Gar field opposed the adoption of the reso

lution until the rules were adopted. The report of the committee on rules being now before the convention the chairman recognized Garfield, who in quired of the minority how much

The position of the Grant men, as stated last night in an interview with the agent of National Associated press by George Gorham, late ex-secretary of the United States senate, was: "Our policy is a passive one; we have come here to vote for Grant because we believe he is the strongest candidate, and we have no second choice. The same

veterans have been working quietly and steadily for Grant among southern delegates. The Massachusetts delegation held a caucus flast evening, and were addressed by Senator Hoar. He said that 415 of the convention were egainst Grant, and advised the delegation to unite on Blaine, as he was the strongest man; that Grant's strength lies as much in the democratic as in the republican party; his nomination would result in the demoraliforesaw that a majority of his delegation was going over to Grant, and he only wanted to place himself on record as having not taken the lead in
