**AD-ROBBERY.**  
The residence of C. F. Wilkins, cashier of the Pullman car company, was entered by a burglar or burglars Wednesday and ransacked thoroughly, but only a fine pocketbook containing \$1.30 was taken. The burglars were probably professionals, and expected to make a big haul, but disdained to take anything but cash. Their entry was made by sawing through a blind and breaking out a window light. Several persons were sleeping in the house, but they were not aware of the burglary until they awoke next morning.

**Boat Building at Omaha.**  
Captain Porter, the owner of the ferry boat at the foot of Farnham street, is having another boat built somewhat like it in pattern, which he intends to run as a lumber barge and for other travel traffic between this city and neighboring places. The tug "Lillie" will be used to propel it.

It is also his intention to fix up the "Lillie" with cabin seats, etc., and let it out to pleasure parties for trips up and down the river, employing experienced boatmen to run it. Such an enterprise will be liable to yield him a good return for his outlay.

**RIVER NEWS.**  
The river at this point was 13 feet 5 inches above low water mark at noon yesterday, and rising rapidly.

The whirlpool at Vermillion is a little further down stream, and more off shore this season than last. The willow mat put in by the railroad company has so far proved a perfect protection to the bank at the whirlpool.

The main current of the river at Sioux City is shifting over toward the middle of the stream, and there is not much probability of a cut on the Covington bank until a further change.

The river continued to rise at Sioux City Wednesday. A telegram from Bismarck of the 12th reports a rise of eight inches there on that day, and the river was slowly rising at points above.

Tuesday evening a telegram was received at the general office of the Sioux City and Dakota road from Fort Randall, which reported the river rising rapidly, a rise of a foot and a half being recorded since morning.

# A FIENDISH DEED.

The Daughter of a Well-Known Citizen Outraged.

Pete O'Brien Accused of the Crime and Lodged in the City Jail.

Wirth Arrested at Midnight on the Charge of Seducing the Same Girl.

The particulars of a horrible deed which was committed in this city Wednesday were brought to light in the police court yesterday evening.

One Pete O'Brien, a well-digger by trade, who has been in the employ of the U. P. company, was arrested on a charge of having committed a rape on the person of Miss Clara Wirth, a girl seventeen years of age, the daughter of Mr. Fred Wirth, formerly proprietor of the Omaha house, of this city.

Mrs. Wirth, interviewed by a Bee reporter, stated that on Wednesday forenoon her daughter asked to be allowed to go to the Star house, for the purpose of cleaning up some rooms which the Wirths rent to various parties by the month. The daughter went to perform the customary work, but not returning at the usual time, was sent for by her mother. She was not to be found at the Star house, and Mrs. Wirth, becoming alarmed, requested a policeman to search the various houses of ill-repute for her missing daughter. This was done quietly, but without success.

Later in the day the mother made another trip to the rooms, and found her daughter in the room of another woman, by the name of Ross. The girl refused to return at this time, but subsequently went home voluntarily, and told her parents that during the day, at about 12 or 1 o'clock, she was outraged by Pete O'Brien, having first been forced to drink a quantity of liquor.

O'Brien, at the jail, denies the charge most emphatically, but admits that on Wednesday he called at the "Star" house for the purpose of collecting a debt from certain parties, but did not see the girl. Mrs. Ross, on a charge of being accessory to the crime, was interviewed at the county jail. She says that O'Brien had made arrangements with the girl to meet her in her room for the purpose of engaging her to work for his wife, and, during a conversation between the two to this effect, she (Mrs. Ross) left the room and knows nothing further of the matter.

The Star house is situated on Harney street, between Twelfth and Thirtieth streets. It is an old barracks, the first floor of which is used as a carpenter shop, while some rooms on the second floor are occupied by parties of a questionable character. It has had a hard name for some time past.

At a late hour last night the girl was found by Judge Hawes and Ben. Westerblad at the European hotel, and was brought to the police office, where she told her story over again, and swore out a complaint of seduction against her step-father, Fred Wirth.

At midnight Wirth was arrested and his bail fixed at five hundred dollars for his appearance for examination to-day.

Meandering Methodists.  
Among the passengers on the west-bound express yesterday was a party of excursionists occupying three Pullman cars, under the charge of Rev. Mr. Harris, pastor of the Salem Methodist church, Salem, Oregon.

The excursionists are some seventy in number, and are principally from St. Louis and Chicago, and belong to the Methodist and Presbyterian churches in those cities. Among the party were Rev. Mr. Wells, of Montreal, Canada; Rev. Mr. Matthews, of St. Louis, and ex-Mayor Cole and family of the same place.

The party was organized by Mr. Harris, and the object of the excursion is to raise funds for the payment of the debt on his church.

The party, proceeding from this point westward, stopping over Sunday in Salt Lake City, and remaining over one train at Reno, Nevada, in order to pass through the Sierras by daylight. A portion of the excursionists will go to Oregon, while others will take a trip through various parts of California. The members of the party will not return in a body, but will come back as their inclination leads them, the tickets being good for return passage any time during the next three months.

You only pay for what you get at the European Hotel.

This is to notify the public that they should be careful about buying flour which is represented to be the Eagle Mills which I sell, or a flour that is as good as that which I have introduced into the market. The genuine Eagle Mills Flour has Rusk's name on every sack, and each sack is guaranteed to be equal to the best St. Louis Winter Wheat Flour. Mr. Rusk, of Leavenworth, is well known to many of our citizens who have lived in Leavenworth and used this elegant flour, which has gained such a reputation throughout the east and west.

Commencing Sunday, June 20th, The Chicago and Northwestern Railway will shorten the time of their express train leaving on arrival of Union Pacific and arrive at Omaha 2:15 p. m., ample time to make connections with the fast trains out of Chicago.

# THAT MEAN MAN,

And the Peculiarities of the Law.

Martin C. Brosious, the man who was arrested Tuesday evening for having obtained money from a working girl under promise of marriage, but subsequently married another maiden, now lies in our city jail. "It is doubtful if the man will receive the punishment the justice merits for his perfidious conduct. It cannot be construed into obtaining money under false pretenses, for in the eyes of the law the money shall be obtained by the representation of existing facts, and representations made in the future tense do not come within the statute. Brosious obtained the fifty dollars not on the statement of certain existing circumstances, but on the representation of circumstances which were to transpire in the future, viz: a promise to marry the girl at some future date.

The saddest part of the affair is that he not only borrowed the money but also robbed her of that which is most dear to woman—her virtue. The girl is innocent, and yet being above the age of eighteen the law does not hold Brosious guilty of seduction, and the probability is that the wretch will be discharged.

# A CUSTOM OF THE CAESARS.

The Roman, Otherwise Known as Turkish Bath.

There is nothing mysterious about the kind of bathing which was in such common use among the Romans in the city of Rome alone, there were facilities for giving baths to 40,000 persons in one day and which should really be called Roman Baths. Its value depends on the fact that the skin is intended to convey from the system the refuse matter which retained would poison it, for which purpose it is provided with 28 miles of tubing, which from millions of mouths pour forth in the form of perspiration the waste matter of the body. These openings are clogged and can be opened effectually only in a hot air bath. To accomplish this result, the bath after disrobing enters the tepidarium, where the thermometer indicates 130°, after the pores are well opened. He then proceeds to the Caldarium, heated to 150°, where the perspiration rolls off the whole body. From this room he passes to the laboratory, where a shampooer kneads every muscle and scrubs the bath with oil. The dead skin comes off in rolls. After a shower bath, first warm and then cold, dried and wrapped in linen, he is placed on a couch in the Frigidarium, where he repairs, as never before, from whence, dressed again, he proceeds into the streets a new creature, at peace with himself and the world.

This kind of bath is a specific cure for rheumatism, consumption, neuralgia and skin diseases, if the assertions of many of the most distinguished physicians of Europe and America can be believed.

The readers of THE BEE will never regret having followed its advice and enjoying the luxury of a Turkish Bath in Dr. Dinsmore's well ordered establishment on Fifteenth street between Dodge and Capitol avenue.

The public are invited to call and inspect the Palms Market, just opened by Besen & Hagdorn, at No. 314 Fifteenth street, between Farnham and Harney, where a choice selection of meats will always be found. Finest market in the city. Orders by telephone promptly attended to.

The Harmonic society gave a full rehearsal of the May Queen at their hall Wednesday. The young soprano who sustains the part of the May Queen, Miss Zella Nell, of Kansas City, has a voice of great compass and sweetness, and will create quite a sensation among our lovers of good music on her appearance this evening. The society is to be congratulated on making such a good selection. The other solo parts and choruses were rendered with fine effect.

Why do you yourself with nauseating medicines, when a purely fruit esthetic will cure you at once? Hamburg Flax. Try this.

# IN CUSTODY.

A Sudden Termination to a Wedding Trip.

About two weeks ago a young gentleman living in Merrick county was married to the young lady of his choice, and a wedding trip was determined upon. Soon after the departure of the young couple it was discovered that the husband had adopted a slightly ambiguous method of obtaining money to defray the expenses by appropriating a horse and wagon belonging to another party, and disposing of them to a farmer for a pecuniary consideration.

The actual owner of the equipment naturally objected to this procedure, and a warrant was accordingly issued for the arrest of the bridegroom, and Sheriff Hopkins, of Merrick county set out to hunt him up.

He tracked him as far as Sioux City, where he found that he had doubled on his track, and returned to Omaha. Accordingly he came to this place, and, aided by Mr. McGuire of this city, discovered his whereabouts, and Wednesday evening served the warrant.

The man was stupefied at the appearance of the sheriff and offered no resistance. He was taken west on the morning train accompanied by his wife, who appeared to be somewhat astonished at the turn matters had taken.

The Pirates of Penzance.  
The end of reserved seats for "The Pirates of Penzance," at the Academy of Music, next Monday evening, will begin to-morrow morning at 9 o'clock, at Hubbard's. We have had "Penzance" several times, until everybody is familiar with that sprightly opera. "The Pirates" has never been produced here before. The authors and composers were not so fortunate as copyright "Pinafore," and when it became a great success, attracting immense audiences and having such unprecedented long runs everywhere, they saw what a great mistake they had made. The lesson taught by experience profited them when they brought out "The Pirates of Penzance," and by many critics in this opera, which is the peer of "Pinafore," and by many critics in this opera, which is the peer of "Pinafore."

It could not be given in better form than by the company that will produce it on Monday evening. The company consists of fifty ladies and gentlemen, one of the largest traveling companies that has ever visited this city. The papers of the cities down the river say that the ladies are charming—splendid singers and beautiful women. The company bring their own scenery with them, a full carload. They also bring their own superb costumes, which are made in Paris and London, and were imported by Mr. Carter especially for this troupe.

The price of admission has not been raised, but will be the usual prices, one dollar, with no extra charge for reserved seats. As this will undoubtedly be the only production of this kind in this city for at least a year to come, since it can only be given under Mr. Carter's management, and he is not likely to return to Omaha for several months, the rush for seats will be all the more keenly felt.
