The Liverpool Courier gives some rather interesting particulars as to the four men who are supposed to be the most wealthy living. Of these the poorest is his grace the Duke of Westminster, whose income is set down at £800,000 a year. Taking it at that sum, the amount which the duke can spend without intrenching n his capital is £2,000 a day, £90 an hour, and £1 10s a minute. The next man in the ascending scale is Senator Jones, of Nevada, whose in come is valued at exactly one million sterling, giving him the right to spend, if he likes, £2 a minute out of revenue. The head of the Rothschild family comes next, with a yearly income of two millions, and the expenses which he can defray thereout are, of course, double as great as

those of the senator. At the top of the list comes Mr. J. 7. Mackey, with a revenue of £2,-750,000 a year, which enables him to disburse £7,000 a day, £300 an hour, and £5 a minute. AYER'S AGUE GURE

ver and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and Indeed all the Affections which Arise From Malarious, Marsh or Miasmatic Poisons,

Has been widely used during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy, and trusted specific, for the Fever and Ague of the west, and the chills and fevers of the south.

Ayer's Ague Cure eradicates the noxious pois on from the system, and leaves the patient as well ar before the attack. It thoroughly expels the disease, so that no Liver complaints, Rheumatism, Neuralgia, Dysentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual are, but, if taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travelers and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The General Debility which is so apt to ensue from continued exposure to Malaria and Miasma, has no speedier remedy.

Wonnerful discoveries in the world have been made Among other things where Santa Clans stayed, Children oft ask if he makes goods or not, If really he lives in a mountain of snow. Last year an excursion sailed clear to the Pole And suddenly dropped into what seemed like abole Where wonder of wonders they found a new land, while fairy-like beings appeared on each hand. There were mountains like ours, with more beautiful green, And far brighter skies than ever were seem, And far brighter skies than ever were seem.

Birds with the hues of a rainbow were found,

While flowers of exquisite fragrance were grow
ing around.

Not long were they left to wonder in doubt,
A being soon came they had heard much about,
Twas Santa Claun' self and this they all may,
He isoked like the picture v see every day.
He drove up a team that looked very queer,
Twas a team of grasshoppers instead of reindeer,
He rode in a shell instead of a sleigh,
But he took them on board and drove them
away.

Away.

He showed them all over his wonderful realm,
And factories making goods for women and men,
Furriers were working on hats great and small,
To Bunce's they said they were sending them all.
Kris Kingle, the Glove Maker, told them at once,
All our Gloves we are sending to Bunce,
Santa showed them suspenders and many things Sauta showed them suspenders and many things more.
Saying I also took these to friend Bunce's store.
Saying I also took these to friend Bunce's store.
Santa Claus then whispered a secret he'd tell,
As in Omaha every one knew Bunce well,
He therefore should send his goods to his care,
Knowing his friends will get their full share.
Now remember ye dwellers in Omaha town,
All who want presents to Funce's go round,
For shirts, collars, or gloves great and small,
