Every laborer, mechanic and clerk in the U. P. employ is now assessed and taxed for his badstead, his cook stove, his sewing machine and every other article of household furniture.

We must say we admire the coolness of the proposition. Five thousand dollars and interest-they must have principal and interest, not a farthing less. And what is this \$5000 claim for? That bridge should have been a wagon bridge with fare for passongers and teams at rates fixed by the mayor and council of Omaha in accordance with the of the Union Pacific to assist in the work. Although a resident of New York for years, the hero of order No. 40 and the victim of the Democratic Electoral Commission were strangers to each other. It is remarkable that Mr. Tilden should thus ignore a man of Presidential mag nitude, and still more remarkable that such a statesman as Gen. Greatest Discovery of the Age.

Wonnerful discoveries in the world have been made Among other things where Santa Claus stayed, Children oft ask if he makes goods or not, If really he lives in a mountain of snow.

Last year an excursion sailed clear to the Pole And suddenly dropped into what seemed like whole Where wonder of wonders they found a new land, while fairy-like beings appeared on each hand. There were mountains like ours, with more beautiful green,
And far brighter skies than ever were seen, Birds with the hues of a rainbow were found, While flowers of exquisite fragrance were grow ing around.

Not long were they left to wonder in doub., A being soon came they had heard much about, Twas Santa Claus self and this they all say, He leoked like the picture v esses every day. He drove up a team that looked very queer, Twas a team of grasehoppers instead of reindeer, He rode in a shell instead of a sleigh, But he took them on board and drove them away.

Kris Kingle, the Glove Maker, told them at once, All our Gloves we are sending to Bunce, Sauta showed them suspenders and many things
