## FOREIGN EVENTS.

### Europe Excitedly Waits to See if Turkey Means to Fight.

### Russian Official Journal Predicts Peace for Europe.

### Revival of Fenianism—Anything to Aid Ireland.

### Terrific Ravages by a Volcano Opening in Manila.

### Shaking 'em UP.

MADRID, July 21-10 p. m.—In Island Luzon there has been several earthquakes. A volcano has been forced to sleep. Eleven persons were killed and injured. Earthquakes in other places demolished buildings.

### HONORING ACTORS.

LONDON, July 22—10 p. m.—The Savage club of London will entertain at a banquet, on the 30th inst., all American actors now visiting in England. Mr. Lowell, the American minister, has accepted an invitation to be present.

### NO WAR WANTED.

LONDON, July 22—1 a. m.—The Agency Russa, a semi-official organ of the administration of St. Petersburg, says it anticipates an early solution of the Greek and Montenegrin questions. No single power, says this journal, is likely to take the initiative in bringing about an armed conflict between Turkey and Greece. Europe's strength consists in concertation upon all questions which affect the common interests of the continent. A war at this time would be inadvisable in itself, but probably would lead to such complications as would threaten the stability of the existing governments on the continent.

### A GREAT COUNCIL.

A Constantinian dispatch states that the national council of Albania consisting of 250 delegates from different cities and provinces of the country assembled at Piræus to discuss questions raised by the present aspect of affairs between Albania and Greece and Montenegro. The council, which the council assembled, is the capital of a sanjak on the Rissak, four miles from its confluence with the Drin and eight miles east of Scutari. It is the residence of the Turkish government, has a manufactory of fire arms and maintains active trade with adjacent towns. It is not expected that the council will be any more than a council on the impending issue. Turkish rule in Albania has not been so popular as to unite this brave but miscellaneous people in a national body in this crisis. The Taskaria in the south, who are of great strength and speak the modern Greek language, are probably the only Turkish delegates to favor the views of Athens and the coerced letter of the power. While on the other hand it is considered likely that the Turkish Latin elements will favor the projects and attitude of the Porte. In any case the council will be largely representative of the various elements of the population as it is situated at the Turkish capital.

### FENIAN AWAKENING.

The Fenians of Manchester and Hallowell the latter being a manufacturing and municipal borough in Lancashire in the suburbs of Manchester, entertained last night the American Fenian delegates at Manchester. During the speech making Mr. Daines, the leading delegate, denounced the landlords in violent terms and expressed the hope that Irishmen in Great Britain would rally to the support of the Fenians and take advantage of the present state of things to press their measures by fair means if possible and by force if necessary. He favored the idea of waiting to see what would come of Parnell's home rule convention, which is summoned to be held at New Castle-on-Tyne on the 9th of August.

### LOUISIANA'S MONUMENT.

The queen has ordered the erection of a monument to the late Emperor Napoleon III in St. George's chapel, Windsor.

### FIRE TERRORS.

A disastrous earthquake has taken place at Manila. The city was shaken and buildings were destroyed. The cathedral and the barracks have fallen. The most serious damage was done to the city of Manila. The earthquake was felt in several places, threatening the British residency at that place, and fears of assault are entertained.

### AMERICANS GIVING POINTS.

In the contest for the highest possible score, the contest for the Kalapora cup at 600 yards was shot yesterday. The Americans, Messrs. Farwell and Hyde, each made the highest possible score. The Canadians, who practiced unintermittently all day Tuesday for this contest, and made a strong point of winning, broke down on the 300 yards range, and altogether spoiled their record and their chances.

An increasing interest is felt in the coming international match, and all the teams are searching for it with great industry. The bets still decidedly favor the Americans.

## WASHINGTON.

### False Reports of Indian Raids Contradicted by Gen. Terry.

### The Case of the Clipped Cadet Still Under Consideration.

### The Indian Scare False.

### The Following Dispatch was Received to Adjutant-General, Washington.

Gen. Terry reports that the rumors of the defeat of Capt. Riley's command by Indians, in the neighborhood of the Black Hills, are groundless. That officer has scouted the whole northern country for one hundred miles.

### The Whittaker Case.

WASHINGTON, July 21, 4 p. m.—Secretary Ramsey says that no action will be taken in the Whittaker case for ten days or two weeks. The question of granting Whittaker a martial trial is under consideration, but as there is no necessity of hurrying the matter, and as several important questions must be considered in connection with Whittaker's application for a court martial, the whole subject will be gone over carefully before final action is taken.

### Mississippi River Survey.

WASHINGTON, July 21-10 p. m.—When the work of surveying the Mississippi is begun, which will probably not be until October, seven different parties will be put simultaneously into the field, and work will be pushed forward with all dispatch possible.

### The Squatter Chief.

WASHINGTON, July 21-4 p. m.—Attorney General Devens has gone to New England, but left instructions as to what shall be done with Payne, the squatter in Indian territory, and his gang. He said that under the law only those who had been guilty of trespassing on the territory could be punished. In that case they were liable to prosecution and a fine of \$100.

### PAINE, OF THE TWENTY-TWO CAPTURED.

Payne, of the twenty-two captured, is the only one whom the military authorities have any knowledge of the whereabouts of. He was captured on the 22nd of July, and he will be prosecuted. The law in regard to the report of the capture of Payne is that the report of the capture of Payne should be turned off an Indian reservation and warned.

### POLITICAL POINTS.

### THE FENIANS.

CHICAGO, July 21, 4 p. m.—The Times Boston special says: A reliable informant says the democratic-greenback alliance in Maine will certainly collapse before the election. Already quarreling has begun.

### GEN. CHAMBERS OF TEXAS, GREENBACK CANDIDATE FOR VICE PRESIDENT, WILL WITHDRAW, OWING TO ILL HEALTH.

### SCHURZ IN CHICAGO.

CHICAGO, July 21-4 p. m.—Hon. Carl Schurz and family are in the city today on their way to the city for a few days rest and recreation. It is hoped that Gen. Schurz will consent to speak at the great suffrage meeting in this city next Saturday evening by the republicans.

### THOMPSON IN THE MOUNTAINS.

DENVER, July 21-4 p. m.—Secretary Thompson made a strong republican speech here last night, showing up Hancock in a very bad light as a statesman.

### MISSOURI BOURBOONS.

JEFFERSON CITY, Mo., July 21-4 p. m.—The Democratic state convention met and temporarily organized by electing ex-Governor Chas. P. Johnson chairman. Committees were appointed. Records.

### BLOODY WORK.

CHICAGO, July 22-1 a. m.—James Bray and Mike Martin, two workmen at the Union rolling mill, had an altercation Tuesday afternoon. Martin struck Bray, knocking him down and cutting his head with a large piece of iron, producing concussion of the brain, which will probably result fatally.

Undoubtedly the best shirt in the United States is manufactured at the Omaha Shirt Factory. The superiority of the shirt is due to the fact that it is made of the best material, combined with their great improvements, which is Reinforced front, Reinforced back and Reinforced axilla, makes their shirt the most durable and best fitting garment of the kind, ever manufactured. Read the following low prices:

Our Fine White Shirt	Price	Permet.
Our Fine White Shirt	\$1.50	1.50
Our Imported Cheviot shirt	2.50	2.75
Our "Peanut" Cheviot	1.75	2.00
Our "Peanut" Cheviot	1.75	2.00

(These are made on white bodies)

Our Imported Cheviot and Cheviot on white bodies are made on white bodies.

None but Wamsutta Mulin and best Linens used.

The above prices include Laundry. A discount allowed when otherwise charged. An additional 25 cents is charged when made to order.

Omaha Shirt Factory, 1207 Farnham street, near 12th street.

## THE CAVE OF DEATH.

### Another Added to the Long List of Human Sacrifices in the Vicinity of New York.

### Thirty Men Buried Alive by the Caving of the Hudson River Tunnel.

### The Iron Plates Break, and a Flood of Water Pours in.

### Eight Men Escape, the Remainder Perish.

NEW YORK, July 21-4 p. m.—At 8 o'clock this morning the caisson leading to the entrance of the Hudson river tunnel, at Sixteenth street, Jersey City, caved in, burying thirty men. Eight were soon rescued, twenty remaining under the earth, with the water rapidly pouring in from the river. Steam fire engines were set to work to save them from drowning, and a great excited crowd soon gathered. Their efforts at rescue were entirely unavailing, and the buried ones were drowned or smothered. Three men are also missing besides those whose bodies were recovered.

### HOW IT HAPPENED.

James Hayes, one of the last to escape, made the following statement: There were 28 of us all told in the tunnel at the time of the break in the roof. I, with six others was at work in the main shaft leading to the twin tunnels which diverge from it and which is or twelve feet from the air lock, which is about ten feet from the shaft. All of us had come up to the top a short time previous, eating lunches and all before to finish our watch expecting to come up again at 8 o'clock when we would be relieved by the other watch as none of us were employed on the twin tunnels as they already been barred up their entire length 300 feet. All but myself were engaged in setting up the machinery on the side of the tunnel, and putting in a layer of crown plates, so as to make that part of the work conform to that already completed. I was then attending to the blow pipe connected with the air lock and was suddenly startled by hearing Superintendent Woodland say "stop those leaks," pointing to the roof a short distance from the door of the air lock. The words had scarcely been uttered before I heard a noise like that of escaping steam and upon looking up saw the roof of the tunnel crumbling in. Knowing that all ground above and surrounding the tunnel was made and filled with water like a sponge, and realizing the great danger in which we were placed, I, with others near, made rush for the door of the air lock through which we had to pass to gain shaft and safety. Eight of us scrambled into it and Woodland called to us to close the door as the air was escaping too rapidly. We tried to do so, but were prevented by Orlson and Anderson, whose bodies became entangled between it and the facing, preventing other men from getting in. The water by this time came rushing into the air-lock reaching our knees before we got to the door leading to the shaft. How we ever managed to escape is a mystery. All I know is that I was forced out and then ran for the stairs leading from the bottom to the top of the shaft. We clambered up as fast as we could. It was a race for life, and we beat the water. Had not Anderson's body interfered with the working of the door others of the gang would have been saved. I thought Woodland escaped, but the poor fellow must have perished within a few rods of the air lock.

### THE TUNNEL.

The organization of the Hudson River Tunnel company was begun several years ago by Col. Hoskin. He finally succeeded in enlisting capitalists in the enterprise, and applications were made for charters to the New Jersey and New York legislatures. Considerable opposition was met with from the various railroad companies, and it was not until winter that the charter was obtained at Albany. The corporation is known as the Hudson River Tunnel Railroad company, with a capital of \$5,000,000. Work has been going on slowly at intervals before, but on the first of November, 1879, it was begun earnestly on the shaft at the foot of Fifteenth street, Jersey City, and has been prosecuted steadily ever since. Nothing has yet been done on the New York side. The entire length of the tunnel and approaches will be nearly two and a half miles.

### TANNER'S MATRIMONIAL LIFE.

NEW YORK, July 22-1 a. m.—At 1:30 p. m. Tanner the father's pulse was 84, temperature 99.2, respiration 16. He denies the statement published in the morning papers that he tried to make his wife fast and beat her, and that he was married to her in New York. He says he was married to her in New York, and that he was married to her in New York.

## DOMESTIC DOINGS.

### Grand Ceremonies Attending the International Tie at San Antonio.

### Marriage of Gen. Geronimo Trevino to Miss Roberta Augusta Ord.

### Uncomfortable Accumulation of Silver Shiners in the U. S. Treasury.

### Dr. Tenner Grows Short and Beautifully Thin by Degrees.

### A Variety of News Items.

### An International Wedding.

SAN ANTONIO, July 21-4 p. m.—Gen. Geronimo Trevino, commanding the northern division of the Mexican army, and Miss Roberta Augusta Ord, daughter of Gen. E. O. Ord, commanding the department of Texas, were married here last evening in St. Mark's Episcopal church, Bishop Elliott officiating. Upward of two thousand persons thronged the church, and vast numbers were congregated outside intense interest being taken. After the ceremony the bride party proceeded to the residence of General Ord where a reception was held. The yard and premises were brilliantly illuminated and the scene was very gay. The presents are very numerous, costly and elegant. A banquet will be tendered at Gen. Trevino to-morrow when he leaves with his bride for their future home at San Luis Potosi Mexico.

### HEROISM AND DEATH.

JERSEY CITY, July 21-10 p. m.—Thos. Van Nostrand one of the men rescued on the wreck of the Henry Frost, a thrilling account of his narrow escape. He said there were twenty-eight men at work on the tunnel. He was at the tunnel at 12 o'clock last night for an eight-hour shift. I was at work near the east end of the Wadde lock and in the west end of the tunnel. It was about half past four o'clock when I heard a rumbling and the brass give way. At the same time I felt

### A RUSH OF AIR.

on my face. "I started back with seven of the men who were near me, and then the air pressure crowded the door shut at the east end. First it was blocked by a jet, which we pulled out, and then the door was blocked by the lock doors at both ends and glass dead ends. We could see the men inside the tunnel, water was fast rushing in. Peter Woodland was at the door outside the waste lock, which was stationary. It would not move with us without knocking out the dead ends. This would be fatal to the men inside the water would rush in and drown the men in an instant. Woodland knew this, but stood at the door. His face was ghastly. While he hesitated to open the door, the water came rushing in. He said to me, "Tom, quick, burst the dead ends; do what you can for us." I knew it was death to us if I did not do so. I obeyed the order. As the glass broke the air rushed in and the water lock was blown out. The main shaft leaving the man to drown as the space occupied by the shaft filled with water. In an instant we were all under water. I had a bath when we crowded out to the shaft.

### THE RUSH OF WATER.

at our back. It filled in fast, but instructions kept it back long enough for us to escape from the main shaft. It was all we could do to save ourselves. Woodland was standing in the water up to his waist, when I saw him. It was sure death if I had not to knock out the dead ends as I told you. He knew as well as I that it was all over for the men inside the tunnel. He was all over for the men inside the tunnel. He was all over for the men inside the tunnel.

## FIAT FEEDERS.

### Big Hotel Builders Try to Feed Workmen on I. O. U's.

### Whereupon 1,000 Men Kick, and Coney Island Has a Strike.

### Special Dispatch to The Bee.

NEW YORK, July 22-1 a. m.—At the new hotel at Coney Island, one thousand men, including masons, carpenters, painters, etc., struck yesterday for non-payment of wages. The men for some time past had not received their wages, and it is said the hotel company is in debt to each man from \$40 to \$500. Tuesday afternoon the paymaster of the company offered the men 20 cents on a dollar. The proposition created the greatest alarm, and some of the men threatened to riot if they were not paid in full. Due bills were offered in addition to the 20 cent offer, but the offer was rejected because the due bills could not be cashed at the bank. Tuesday afternoon the paymaster of the company offered the men 20 cents on a dollar. The proposition created the greatest alarm, and some of the men threatened to riot if they were not paid in full. Due bills were offered in addition to the 20 cent offer, but the offer was rejected because the due bills could not be cashed at the bank.
