AMERICANS DEFEATED AT WIMBLEDON.

Special Dispatch to The Bee.
LONDON, July 24-4 p. m.—The international rifle match between the English and American teams attracted an enormous crowd at Wimbledon today. The weather was not so good as was desired, and interfered seriously with the Americans' shooting. The Americans were the favorites in the betting at the outset, but quickly sank to a second place as miss after miss was recorded on the targets. Far-throwing Hindwood, Rockwell took his place on the American team, and was a poor substitute. From the beginning of the match, the English led the shooting, having a lead in the 800-yard range of 36 points, which they increased to 80 on the 900-yard range, and finished the match, defeating the Americans by a score of 1647 to 1568. The Americans are greatly chagrined at their defeat, which they attribute to the weather and Farrow's illness. The English shooting was superb. Following are scores of the teams at the three ranges.

800 YARDS.
American: Scott 73, Laird 67, Jackson 69, Rockwell 50, Hyde 63, Gairish 60, Dudley 74, Brown 71, total, 515.
English: Baker 71, Evans 69, Goodall 66, Humphrey 70, Young 67, Fenton 71, Joynt 72, Miller 76, total, 580.

900 YARDS.
American: Scott 67, Laird 71, Jackson 69, Rockwell 50, Hyde 63, Gairish 60, Dudley 74, Brown 71, total, 515.
English: Baker 71, Evans 69, Goodall 66, Humphrey 70, Young 67, Fenton 71, Joynt 72, Miller 76, total, 580.

1000 YARDS.
In the shooting at the 1000 yard range the Americans up to the fourth round had lost 11 points, giving the English a lead up to the time of the final range. Later the English team won the match, the grand total at all ranges standing: English 1,847, Americans 1,568.

THE VICTORS AND THE VANQUISHED.
LONDON, July 25.—10 p. m.—The result of international rifle match was apparently at least as much a surprise to the winners as to vanquished. There is a rumor spread about of foul play, but there found no credence among those who had closely watched the shooting. At close of the match the contestants met together in a very friendly and pleasant manner. Sir Henry Halford proposed 3 English cheers for the Americans, which were given with great gusto. Sir Henry went on to say this was the first time a British rifle team had beaten an American team in Europe. It was a very proud moment for the victors. They had managed to get better of such excellent marksmen as the Americans had proven themselves to be. They hoped the Americans had shot at Wimbledon would take courage and come again for the victors. The Americans were cheered by two of their men on whom they had relied, in a great measure, for victory. The Americans had declined at a most critical moment before the match, to shoot. He would not mention their names, but everyone would know to whom he referred. Mr. Hyde went on to say that the Americans had taught the British many things. They had taught them the superior value of breech loaders over muzzle loaders, they had taught them how to unite together when they wished to win a great victory, and had taught them how to beat the Americans—which was the most valuable lesson of all.

GRANT'S FUTURE.

The Ex-President Seeks a Soft Spot in the Mitten of the West.

Special Dispatch to The Bee.
CHICAGO, July 24-4 p. m.—Rumors are beginning to take shape concerning Gen. Grant's business prospects. A gentleman well informed on the point says that the general has under serious advisement a proposition from the San Pedro mining company, now operating in New Mexico, and that his visit to New Mexico was on purpose to examine the property of this company. The salary which the company offers Grant is not less than \$25,000 per annum, to take general direction of its affairs and give it prestige. Its present president is George William Ballou, of Boston.

THE TUNNEL DISASTER.

Special Dispatch to The Bee.
NEW YORK, July 25.—10 p. m.—The tunnel disaster was the subject of a special session of the board of directors of the Erie Railroad company, which was held at the company's headquarters in New York city. The board was informed that the tunnel was found to be in a very bad state of repair, and that it was necessary to close it for some time. The board decided to suspend the tunnel for a period of six months, and to have it repaired during that time.

A Porkopolis Sensation.

Cincinnati, July 22-4 p. m.—There is considerable interest here in a sensation telegraphed from Pittsburg, involving John Jones, a noted singer of this city, and now of Carl Rosa London opera company, in a love scrape with Dr. McLean, a married man of Baltimore. His friends are very indignant and threaten to inundate the whole newspaper world with a deluge of libel suits.

Hancock's Letter Finished.

Special Dispatch to The Bee.
NEW YORK, July 23-4 p. m.—Gen. Hancock has finished his letter of acceptance, and will probably delay its issue until that of Mr. English is ready. He returned to Governor's Island this afternoon from a visit he had made with his son on Thursday to the country seat of ex-Governor Tilden, near Yorkton, in compliance with an invitation from that gentleman. A few of Tilden's friends, chiefly ladies, were present at dinner, but no politicians are reported as attending.

Debt Decrease.

Special Dispatch to The Bee.
WASHINGTON, July 24-4 p. m.—The annual interest charge on the public accounts to \$79,633,981, and the monthly charge to \$6,336,508. The decrease in the interest charge from March 1, 1877, amounts to \$14,789,664.80. The total decrease in the annual interest charge since August 31, 1865, is \$71,343,716.87, and the decrease in the monthly charge since that date amounts to \$5,045,300.74. The highest annual interest charge was in 1865, when it amounted to \$150,977,697.87.

The President has decided to attend the soldiers' reunion at Columbus, Ohio, on the 10th of August. Owing to a pressure for time he will only remain one day.

The Floating Physician.

Special Dispatch to The Bee.
NEW YORK, July 24-4 p. m.—Dr. Tanner completed the twenty-sixth day of his fast at noon today, when he will have fourteen more days of his fast to accomplish. Some of the watching physicians think he shows increasing signs of weakness, and will be unable to complete his fast. He has not gained or lost in weight for the past 24 hours. He will not allow his health to be the slightest doubt of his ability to continue his fast for twenty days longer. He says he feels as well as on any day since the fast began.

The Tunnel Accident.

Special Dispatch to The Bee.
NEW YORK, July 24-4 p. m.—The attempt to pump out the Hudson river tunnel shaft for the purpose of recovering the bodies of the drowned workmen, was abandoned last night and it is now intended to sink a large coffer dam about the break. This will take five days.

Slipped and Drowned.

Special Dispatch to The Bee.
TOLEDO, O., July 23-4 p. m.—Saturday afternoon Geo. A. Babcock, assistant engineer at the new Washburn elevator, fell into the river and was drowned. At the time of the accident he was walking across some logs in the river and slipped from them with the result as stated.

The Union Corralled.

Special Dispatch to The Bee.
WASHINGTON, July 24-4 p. m.—Admiral Wyman informs the navy department that when passing through Cook's Bay, between the 16th and 17th of June, he discovered the Pacific mail steamer Colon of Fortuna Island disabled on account of broken machinery. Assistance was offered by the United States navy, but declined, her captain preferring for the companies summer due on the 20th.

Tanner's Fast.

Special Dispatch to The Bee.
NEW YORK, July 23-4 p. m.—A Vermont, New Jersey, special agent has a young woman named Jessie A. Moore, 21 years old, been tried for attempting to poison her three-year-old son. She was driven to despair by poverty, and the hospital look her husband's desertion caused. He had made shirts for twenty cents a dozen, and could not remember ever having enough to eat. She hoped she had won a certain young physician's love, and thought her child objectionable. She was judged to be half insane at the time.
