KIDNEGEN is highly recommended and unsurpassed for Weak or Foul Kidneys, Dropsy, Bright's Disease, Loss of Energy, Nervous Debility, or any Obstructions arising from Kidney or Bladder Diseases. Also for Yellow Fever, Blood and Kidney Poisoning, in infected malarial sections.

By the distillation of a FOREST LEAF with JUNIPER BERRIFS and BARLEY MALT we have discovered KIDNEGEN, which acts specifically on the Kidneys and Urbary Organs, removing in jurious deposits formed in the bialder and preventing any straining sensation heat or irritation in the membranous it ing of the ducts or water possage. It excites a healthy action in the Kidneys giving them strength, sign and restoring these organs to a healthy condition, showing its effects on both the color and easy flow of urms. It can be taken at all times, in all climytes and under all circumstances without in jury to the system. Unlike any other proportion for Kidney difficulties it has a very pleasant and agreevable taste and flavor. It has been difficult to make a preparation containing positive diure le proporties which will not namester, but be acceptable to the stemach. Before taking any Liver medi inc, inv a bothe of KIDNEGEN to ChelaNSE the KIDNEYS from foul matter. Try it and y on will always use it as a funity medicine. Letters encludy will like it.

and from the heating of the cargo. Now about the orange trade. Pim, Forward & Co.'s steamers from No

first trips of the steamers to Aspin-

STEAMERS HAVE KILLED OFF THE VESsays one of the old shippers, so that in this regard there has been a revolution, dating back to the time of the wall. Nevertheless, as a whole, the trade in West India fruit steadily augments in volume and value. This is

land is wonderfully fertile, and the climate don't vary much, so that bananas ripen all the year round. From the foregoing it will be ob served that the Rurling-Slip trade comprises about 250 cargoes per annum, all told-bananas, nuts, pines and oranges-and estimating the net sales at \$4,000 on a general average, the aggregate exceeds in value \$1,-000,000 pet anuum. But these figures represent scarcely ONE-HALF THE TRADE OF THE PORT. A single firm on the West side has received this season between fifty and sixty heavy invoices by steamers, the whole valued at from \$500,000 to \$600,000, and they think other importers receive together as much as they do rom the same source. Every Aspinwall steamer brings from 3000 to 10,-000 bunches of bananas, every Jamaica steamer from 2000 to 6000 bunches all the year round. These arrivals sometimes make a ruinous glut. And there have been occasional heavy losses from detention at quarantine vember 1 to April 1 bring 1000 to 2000 barrels every trip, and the Havana trade amounts from 100 to 400

the interior of the island, enough fine

barrels weekly during the same period.

Their purpose was to present a petition setting forth the distressed position of thousands in the different branches of the buckle manufacture from the fashion which had become so prevalent of wearing shoestrings instead of buckles. His royal highness received the deputation very gracefully, and, after expressing his sympathy for the disressed buckle manufacturers, promised to do what he could by his own example to revive their trade. The prince accordingly not only resumed the wearing of buckles himself, but demanded that the fashion of tying the shoes should not be adopted by any person in the household. In this instance, however, fashion refused to
