WASHINGTON, August 18, 10 p. m.—This is one of the hottest days of summer in Chicago. It is very unfortunate, owing to the crowded condition of the city. Jockey Club park, where the Templars' prize drill is being held, is five miles from the business center. All the forenoon the crowds of people flocking to the park have been simply marvelous.

The Western Division Railway company brought out all the summer and winter cars from all their various lines and placed them on the Madison street line, which reaches the park direct. From an early hour there has been an almost continuous string of cars reaching the whole first mile, and every one crowded to its utmost. The string of returning cars at first were empty, but towards noon they began to fill with tired, perspiring people returning to the city. Besides the three who went in the street-cars, an equal number went out by other vehicles, forming an unbroken procession of people returning to the city. Many also by the Northwestern and C. & B. Q. railways, which run with a half a mile of the park. The heat of the park was very intense, and it was not until about 11 o'clock that the parade was started. The parade was witnessed by the drill, the same causes that spoiled the parade yesterday and the grand ball last night were kept on the parade ground. Ultimately they were induced to go to the hotel. At 1 o'clock in the afternoon another ambulance was summoned to the parade ground, and the same place, as she had become so violent to manage. The mother was quiet and carried by a married daughter, who arrived during the night. The mother was taken to the hospital by a man who attempted to poison them, and exhibit the most violent terror when reference is made to him.

THE PRIZE DRILL. The prize drill announced for 9:30 did not begin until after 12. At 1 p. m. only the Monroe commandery of Rochester, N. Y., and the Reed commandery of Cleveland, Ohio, were present. The other competitors are Ivanhoe, of St. Louis, mounted, DeMolay, of Grand Rapids, mounted, Damascus, of St. Paul, rolls of Indiana, of Cleveland, Ohio, DeMolay, of Louisville, and Bayard, of Stillwater. One knight on the ground was prostrated by the heat. The parade was not started until a late hour and may have to be postponed.

ALMOST PERFECT EVOLUTIONS. Chicago, August 19, 1 a. m.—At the Knights Templar prize-drill yesterday, Dr. Robert, commander of the 171st, Dr. DeWitt, of the 187th, appeared and gave an exhibition drill, but refused to enter the competition. Their movements were loudly applauded.

THE JUDGES OF THE DRILL were Gen. Whipple, of Sheridan's staff; Capt. Davis, of the First regiment of militia; and a special prize of the Second United States artillery.

THE FIRST COMPETENDARY TO appear was Monroe of Rochester. His movements were excellent, and it was enthusiastically cheered by the crowd. Commander George F. Loder, immediately after the drill.

RECOVERED TO THE HEAT, and considerable effort was necessary to revive him. Ex-Deputy Superintendent of Police Davidson, of Chicago, was also among the competitors.

AT 11 o'clock the drill was completed, which was not until 5 p. m. The drill committee held a meeting last night, and received the report of the judges. At 11 o'clock they gave to the press the following:

AWARD OF PRIZES: First prize, awarded to Roper commandery of Indianapolis, who scored 315 out of a possible 350. The judges considered 35 movements, perfection in each being marked 10; second prize, DeMolay of Louisville, which scored 267; third prize, Reed of Dayton, score 255; fourth prize, to Damascus of St. Paul, score 240. The St. Louis commandery failing to appear, the DeMolay of Grand Rapids was the only one competing on horseback. It was complimented as drilling excellently, and awarded a special prize of gardenias and a golden bugle. The following official note was inserted in the report of the committee: Monroe commandery of Rochester, among the number, presenting a generally fine appearance, performing many movements with precision, but failed entirely to comply with the rules and regulations established by the committee to regulate the drill, hence the judges found it impossible to make any score for them.

THE PRIZES will be awarded at 11 a. m. to-day at the camp.

GRAND ENCAMPMENT held two sessions yesterday, but did nothing of public interest. To-day the triennial officers will be chosen. Leavitt's grand protection drill play was to have been given on the lake front at the encampment, but up to 11:30 o'clock nothing could be seen of it, a crowd almost equal to that of today being in waiting for hours.

INTERNATIONAL SANITARY CONFERENCE. Secretary Evans has addressed a circular letter to the ministers representing the United States at the conference, inviting them to attend the conference, which is to be held in Washington, D. C., on the 14th of May next. The secretary's letter concludes as follows: "It is thought by the general assembly of the conference, which is to be held in Washington, D. C., on the 14th of May next, that the United States should be represented by the powers to attend the proposed conference should be authorized to conclude, if deemed expedient upon consultation, an international convention in relation to an appropriate subject for international sanitary regulations to be proposed for the consideration of the governments interested. It is estimated that 50,000 people were in the park at noon. They are rapidly returning to the city, and this afternoon will be largely devoted to lake excursions, which is the only recreation for a Saturday-like day.

A Gang of "Respectable" Queer Pushers Bagged at Peoria.

A Shrewd Cincinnati Wealthen Swindles Two Fellow Mongolians.

A Terrible Conflagration: SAN FRANCISCO, August 18, 4 p. m.—The terrible scenes of last year have again been enacted at Eureka, Nevada. A terrible conflagration has visited the town and laid it in ashes. The fire started at an early hour this morning in a small frame building. A violent wind which was blowing at the time fanned the flames which quickly spread to the neighboring dwellings and stores. All efforts to stay the course of the conflagration were unavailing. The whirlwind of fire swept up the streets and gulches, laying the whole city under the fiery ban. The confusion and tumult was very great. There was little time for the inhabitants to remove their goods, and quantities of merchandise was taken into the streets only to be destroyed by the rapid advance of the flames. Several lives are believed to have been lost. The loss of property will reach \$1,000,000. The fire went over the same territory destroyed by the conflagration of last year. Many families are destitute.

Counterfeiters' Gang Broken Up. Special Dispatch to The Bee. PEORIA, Ill., August 18—4 p. m.—A few days ago a dispatch announced the arrest of a man named Clarke, of St. Louis, for counterfeiting. It seems that he belonged to a well-organized gang that have lived and flourished in and around this city for years. Yesterday the authorities captured two of the gang named Martin and Gollender. The former is a well-to-do farmer, and resides about five miles from the city. He has been looked upon as a hard-working, straight forward man, but the evidence against him is conclusive. The latter individual, Dr. Gollender, was formerly a member of the city council of this city, and was at one time well-off, but through crooked whisky lost all. Since his arrest he has committed suicide by shooting himself in the head and chest, and the probability is that he will make a clean breast of it. The government has also captured the gang leader, and then wrote the anonymous letter to the commandant.
