Gladstone, the cash grocer, will close Tuesday at 6 p. m. on account of Holiday. The art store meetings is cold and dreary, and stores are being called into requisition. The democratic primaries will be held on Saturday next and the county convention on the 25th. The Populists block was enclosed above the first Saturday. There will be a grand matinee by the Leadville Minstrels at the Academy to-day at 2 p. m., also a night performance. The work on the new Trinity cathedral will begin in a few days, and the basement will be ready for occupancy this winter. Farmers over on the Nebraska side are taking a lively interest in the coming state fair at Omaha—[Siox City Journal]. The editorial excursion party from Northern Indiana will arrive in Omaha Wednesday evening in charge of H. F. Underwood, of Peru, Ind. The parties arrested for violating the fire ordinance repairing Fritz Wirth's building, will not be tried until Monday. Manderson returns from Camp Buford. The G. A. R. escort to Gen. Wagner, grand commander of the order, will meet at 9 o'clock sharp, this morning, at Wymann's store, [in Creighton block]. Invitations are out for the grand Fremont's parade and ball, Tuesday, September 21st, under the auspices of the Omaha fire department. The ball takes place at Creighton hall. We are in receipt of one of the latest issues of Greenback, bearing the signature of Maj. Dan E. Wheeler, of Plattsmouth. It is a season ticket to the state fair, and is as handsome as it is valuable. The opening social of the series inaugurated by Francis X. Lemaux took place at Brauh's hall Saturday. The attendance was good and of a select character, and we predict great popularity for the parties during the coming season. C. J. Karbach has purchased the Globe blacksmith shop, where he will hereafter make his headquarters. His present shop will be rebuilt and another story added, and will be used as a store by one of Omaha's young merchants. A new and magnificent switch board was received Sunday from the east for the Atlantic & Pacific telegraph office. It is the latest and most elaborate style, and is a beauty. It cost an immense sum for its size, and Manager Armstrong justly feels proud of it. The excursion to Plattsmouth Sunday, was owing to unavoidable circumstances, not so great a success as could have been desired. About two hundred persons went down on the special train and were favored with the finest weather in the world for their trip. The ladies of the First Baptist church are preparing for a grand Bazaar and Fair during the week of the State Fair. They also intend furnishing suppers during the fair week. Twelve of them stay in Utah. The parade of the Leadville minstrels at noon yesterday was a very fine one indeed and attracted considerable attention. The music was excellent and the appearance of the boys in their new uniform was quite unique. The two Rocky mountain jacks were the objects of general admiration and the minstrels altogether made a decided hit. The Academy will doubt their performance at a late hour of the evening. THE FAIR.

Arrival of Some of the Exhibits from Iowa. Grand Prospects for the Coming Exposition. One week from Monday the Nebraska state fair, to be held in Omaha September 20th to 25th, both inclusive, will begin. For weeks past preparations have been in progress, the board of managers and the citizens' committee both actively pushing the work assigned to them. That work is now nearly completed, and is certainly so to give satisfaction to all interested in the great exposition, both in this city and abroad. As already stated the entries thus far have been largely in excess of those of previous years, and there is every indication that this will be the largest and most successful exposition of Nebraska's wealth and resources ever held within her borders. The whole week will be filled up with interesting events, and every day of the fair will be well worth attending. The interest manifested in the fair is very gratifying and from all parts of the state from the border counties in the south to those on the extreme north, reports come that everybody is looking forward to the time of the exposition and that the attendance will be immense. It is estimated that from 15,000 to 20,000 persons will visit the city during state fair week. THE GROUND AND BUILDINGS. A visit to the grounds yesterday revealed their excellent location, convenience and adaptability for the purpose for which they are now to be utilized. The drive out either by Sixteenth or Eighteenth street is one of the pleasantest in the vicinity. There is but one improvement in this respect to be suggested. Sixteenth street, while well graded and in general a good drive is full of chucks holes, which a few days' work on the part of the city would remove. It is to be hoped that the city council will order this work done, as there will be a great deal of fast driving done on this route, particularly, and it cannot but result in accidents if the road is left in its present condition. The grounds for all kinds of exhibits have been enlarged to forty acres, and are surrounded by a new, light board fence, nine or ten feet high, the main entrance being through a broad gateway on the east side, over which is an arch bearing the sign, "OMAHA DRIVING PARK ASSOCIATION." The race track within has been entirely reconstructed. It has been widened to sixty feet, and has been laid out and graded on scientific principles, having been improved by freighting packing with a heavy iron roller. A substantial ricket fence runs round the outside of the track, while a guard rail follows the inside clear around. The buildings are all large, substantial, and of fine appearance. They include the Fine Art hall, the amphitheater, the circus quarters, Agricultural hall, Row hall, two speed stables, dining hall, pool hall, and a building with numerous best imported structures. The barracks, appropriated to the use of company E. N. S. M., which is to be used for the purpose of driving fair week, and has been enlarged to accommodate the large and elegant designed live stock buildings within the inclosure. ENTERTAINMENT. In addition to the facilities for reaching the grounds from the city by means of vehicles, private or for hire, the taking of the Pacific railway train at intervals, carrying passengers at the rate of twenty cents for the round trip. They have made arrangements to run over the track of the O. & N. R. and have run a side track from the main line to within twenty rods of the main entrance. Notwithstanding every facility at hand for transportation, it is estimated that at least two thousand of the daily attendance are yet unprovided for, unless they choose to walk. To obviate trouble in this respect it is proposed to erect an ordinance allowing teams from the country or from adjoining cities to come in and run during the week, either free of charge or at a nominal price. Telephones and telegraph lines will furnish ample facilities for sending messages to and fro between the park and city. ENTERTAINMENT. During state fair week there will be ample means of amusement furnished the visitors. The Gulch-Bissell grand entertainment will give an entertainment every night during the week at the Academy of Music. Their paper is being posted to. On Tuesday the annual parade of the Omaha fire department will take place, with a grand ball at Creighton hall in the evening. Numerous other attractions are offered which will be fully noticed. BUSINESS PROMISING. This week will be an active one in preparation as stock and exhibits are already coming in. The first to arrive to-day was two carloads of sheep and hogs, from Taylor Bros., Iowa. President Dunham, who returned from Des Moines Saturday, says that most of the race horses which attended the Iowa state fair will arrive here the last of this week. The Sinton outfit company will come in Saturday in full uniform. The band of the Ninth infantry has been engaged to furnish the music, and will be par excellence. Sheriff Martin, of Adams county, who is assistant general superintendent, out of the fair grounds, is in the city, and has entered upon the discharge of his duties. Special trains, with reduced rates of fare, will be put on by all roads entering the city. The prospects are that the fair will eclipse the most sanguine expectations, not only of the managers themselves, but of everyone throughout the state. Everything has been arranged to make the coming state fair which is to be held in Omaha a success. No doubt the exhibitions made this season will eclipse everything of the past and if all the arrangements so far made are carried out visitors will decide that Omaha is the proper place for Nebraska to make her annual exhibition. Visitors to the state fair made also find in our city other places of interest which should be visited in order to fully appreciate our city. We have one manufacturing establishment, the smelting works, leather works, etc., and some of our leading stores would impress them favorably as models. The jewelry store of Esholm & Erickson opposite the postoffice is one of the leading attractions of our city. By calling here you will be shown a temple of practical ad-

A FIRE.

Clark Woodman's House Attacked by the Flames. About 1:20 o'clock yesterday an alarm of fire was sounded from box 17. The hooks and engines Nos. 1 and 3 responded promptly, under command of Acting Chief Meale. The fire was found to be at the residence of Mr. Clark Woodman, on Cummins, between 18th and 19th streets. It originated from the kitchen chimney, there being in times and just getting under good headway when the department arrived. The neighbors were all on hand and at work then, and a hole having been cut in the roof the flames were soon extinguished. The bucket brigade did good service. The engine got water on quickly, and but little damage was done, perhaps \$200 in all. The house was fully insured. It was fortunate that the fire was discovered in time as otherwise Mr. Woodman's magnificent collection of flowers and plants must have suffered severely. It pays to trade at Kurtz's. Police Court. James Ferguson, the lightning calculator, was unfortunate enough Saturday night to break one of the windows of Hank Hornberger's saloon. He was arrested but payment of damages the complaint was withdrawn. Three drunks were on hand from Sunday's round up, some also being guilty of disturbing the peace of the city. One paid \$2 and costs, the other two \$3 and costs. A representative of the Leadville Minstrels was fined \$7 for scattering dog-dung on the streets. The three men involved in the row at Curry's barber shop Friday night, paid \$3 and costs each this morning. Headquarters for Joe Schiela's Milwaukee beer at Merchants' Exchange, N. E.
