

THE DAILY BEE.

B. ROSEWATER, EDITOR. TO CORRESPONDENTS. OUR CORRESPONDENTS will be pleased to hear from us on all matters connected with...

NATIONAL REPUBLICAN TICKET.

- FOR PRESIDENT: JAMES A. GARFIELD, of Ohio. FOR VICE-PRESIDENT: CHESTER A. ARTHUR, of New York. PRESIDENTIAL ELECTORS: GEORGE W. COLLINS, of Pennsylvania County; JAMES LAIRD, of Adams County; JOHN M. THURSTON, of Douglas County. REPUBLICAN STATE TICKET: For Member of Congress, EDWARD K. VALENTINE. For member of Congress (Contingent), THOMAS J. MAJOIS. For Governor, ALBINUS NANCE. For Lieutenant-Governor, E. C. CAIGNS. For Auditor, JOHN WALLICHS. For Treasurer, G. M. BARTLETT. For Attorney-General, C. J. FILLMORE. For Commissioner of Public Lands and Buildings, A. G. KENDALL. For Superintendent of Public Instruction, W. W. JONES. DISTRICT TICKET: For Attorney—Third Judicial District, N. J. BURHAM.

TAX EXEMPTION.

The tax payers of Omaha and Douglas county have a vital interest in the matter of railway taxation. Douglas county voted and donated six hundred thousand dollars in aid of railroads, and the city of Omaha voted one hundred thousand dollars of city bonds for the purchase of the U. P. depot grounds, or about eight years the tax payers of Omaha and Douglas county have been tied to the time of eighty thousand dollars a year to meet the interest on the railroad debt, not counting the large sum collected for the sinking fund. By the time the entire bonded debt incurred for the benefit of railroad corporations by this city and county has been liquidated, the enormous sum of over two millions of dollars will have been exacted from the tax-payers of this city and county for the benefit of the railroads. This sum represents the equivalent of twenty thousand dollars bonus to each of two hundred factories. In other words, with the money which Omaha and Douglas county tax payers will have paid for the benefit of the railroads, they could have established two hundred factories and paid each of them twenty thousand dollars to start with. If each of these factories had given employment to a hundred operatives Omaha would have afforded steady employment to twenty thousand mechanics and laborers, and it is fair to estimate that these twenty thousand working men would have increased the population of this city by fifty thousand.

While we admit that Omaha has derived material benefits from the railroads, and will continue to do so, we insist that we are entitled by the immense bonuses we have given these corporations to the benefit of the taxes due from their property in proportion to its value. We insist that the railroads should be compelled to bear their share of the burden of special taxes for improvements adjacent to their property, such as pavement, sewerage, etc.

Under the new law all railroad property including depot grounds, warehouse buildings, machine shops and stock houses are classed with rolling stock and equipment as personal property and are lumped with the roadway in the general estimate. This exempts the real estate of railroads from special taxation as well as from the general local taxes. It is simply outrageous that real estate owners of the First and Second wards of Omaha should be compelled to pay the entire cost of the South Omaha sewer and the railroads should not pay a dollar toward this improvement, when they own fully one-sixth of the real estate in those wards. If the law is not repealed, and the council next year should decide to pave Tenth street, which passes right in front of the depot grounds, the owners of Tenth street lots would have to pay the entire paving tax, and the railroads would not pay a dollar, although the pavement would be made mainly for their benefit and to their own records.

OMAHA showed her colors well in the front at Camp Buford. The victory of the Union Pacific band and company G, were deservedly earned and testified to the proficiency of our organization.

NOR HERN DOUGHFACES.

It is eminently in accord with the eternal fitness of things for the editor of the Herald to defend the census frauds of the south by declaring that there were also frauds in the north. Northern men always did make the most cruel slave drivers and northern democratic editors are the most brazen apologists for southern infamies. The way the southern herd was fired just before the war was by the incendiary appeals to the slave driver against the hell hounds of abolition, as they were called, in the New York Day Book. That paper was published in New York by a couple of northern doughfaces who made capital dough by clipping every item of news that tended to show northern sympathy for runaway slaves or expressed sentiments derogatory to the slavocracy and shiffling management of southern plantations, railroads and factories. The New York Day-Book was the Bible of the southern fire-eaters before the war, and did as much to precipitate the rebellion as the speeches of the Yancey's, Tombs' and Benjamin's.

It is so now. The most diabolical and inflammatory sheets of the present day are printed in the north by men of northern birth, who haven't the courage to do the fighting for the confederates, but bravely fight their battles with the pen. For instance, the Detroit Free Press, a democratic paper published in the loyal state of Michigan, prints two distinct editions, one for home consumption, with moderate well-guarded editorials on the political issues of the day; the other, known among the employes of the concern as the "rebel edition," intended strictly for circulation down south. That edition, gotten up on the Brick Pomeroy model, represents the southern people as downtrodden, oppressed and outraged, appeals to southern passions to avenge the Lost Cause, and holds out the promise of a restoration of the Confederacy to democratic domination. Of course this edition of the Detroit Free Press is not allowed to see daylight in the states of the north, but down south it is taken as the regular edition of the Free Press, and as a fair sample of northern democratic sentiment.

Now we concede that the great body of the northern democrats are loyal men, many of them have demonstrated their patriotism and devotion to the Union during the late war. But the democratic papers are for the most part edited by northern dough-faces who always cringe to the southern aristocrat and would black the boots of a confed brigadier at the time in order to show their devotion to the south. How any southern man can respect such lick-spittle always has been a mystery. The cardinal principle of the confederates is that every American owes allegiance to his native state above all his obligations to the government of the United States. Any northern man who professes to believe in state sovereignty and then turns traitor to his own state and section can stand no higher in the estimation of a southern man than a southern man who has deserted the confederates. These northern doughface editors may get their reward some day for their treason to state-sovereignty, but it will be when loyalty becomes a crime and treason is classed among the virtues. We don't propose to be personal in the matter, but it strikes us that Dr. Miller, a native of the Empire state who was formerly a very respectable figure among men of his own section when he became the mouthpiece, apologist and champion of Mississippi bulldozers, Louisiana leaguers and South Carolina seceders.

The Missourians are taking possession of Salt River valley, and establishing a polygamous colony. Work is being vigorously pushed at the Leaning rolling mill. All the different machinery at work and several buildings are being built. The catchments will be smaller than last year and stock men are growing because all sheep near the same time, keeping down prices.

Nevada. For the first time in over two years the Humboldt and Washoe counties, in Winnemucca, are again in full operation. Nearly all the buildings on the west side of Main street at Eureka, that were scorched by the fire, are repaired, or in course of repair. Measurements of the ore bodies in the Alexander mine, Yreka, county, give a total value of \$72,000,000, of which \$48,000,000 is in place. L. W. Harris of Round Hole, is receiving claims to have the champagne salt marsh of the state. He is erecting machinery and will soon be able to supply the whole country.

Montana. The hill tops are covered with new snow. Benton is to have a new, first-class hotel and \$20,000 has already been subscribed. Helena is not yet through rejoicing over the completion of its elegant opera house. A first-class hotel is being put up in the National Park where riding horses and outfit will be kept for stage tourists.

Information from the grain-producing sections of Montana is to the effect that the cereal crop will not so greatly exceed the year's average. The much written down Yogo diggings are said to be turning out iron ore. But too many were fooled to return to the district again soon. A party of members of the Utah and Northern railroad have pitched their tents on Camp creek. The party are to commence work on a tunnel 500 feet long. Several boats are expected at Benton before the river falls to its lowest stage, to convey quartz from the new mines to Bismarck for shipment to the smelting works.

The reports from the Quartz district in the Belt mountains, are favorable. Several tons of quartz have been shipped via the Missouri river, to test the ore in this city. The new post, Fort Maginnis, has been located in Big Horn county. It is not probable the government will have a reservation 150 miles unless the title of previous occupants is purchased. The sugar valley is getting so scarce in Deer Lodge Valley that dairy products are advancing and some owners think of soon feeding hay to their cattle in the fall. The late state of grass, and the continued dry weather, operated disastrously in a valley overstocked with cattle and sheep and in which a large area is now under fence.

Prospectors working not over fifty miles from Bozeman, have struck one of the richest and most extensive bodies of argentiferous galena ever discovered in the territory. One man, who recently returned from Leadville, has examined the "new strike," and declares it to be richer and apparently more extensive than any lead so far discovered in Leadville. The exact locality is kept secret. The mine is owned by the Globe Mining company. The altitude is over 4,000 feet.

NEVER shout until the returns are all in. The Southern Pacific track is advancing at the rate of two miles per day, and is now up to the line of New Mexico. The station at Sulphur Spring Valley is named Wilcox. Six feet. This will be the most important station east of Tucson, being the natural point of supply for Fort Grand, Bowie, Thomas, Rocker, San Carlos, Gila Valley, Los Caberos, Merry Detriest and the Globe mining country. The altitude is over 4,000 feet.

It looks now something like the celebrated serenade given to Marshall Hill. Like Ballou, Dr. Miller has a further use for his enemies. Every telegraphic dispatch picks a fiber from the tail of the democratic rooster.

OCCIDENTAL JOTTINGS.

Colorado. The headwaters of Snake river are attracting attention. The Poncho hot springs are to be carried to Leadville by pipe.

The coal output of the Como mines during the winter will probably average two hundred tons per day. Water for placer mining holds out well this season. The many storms have done this good in other.

The annual internal revenue of Colorado two years ago was \$68,000. Now it is \$1,700,000 for the whole of 1876.

The indications are that quartz will be greatly wanted at Leadville in the course of the next six months. The bullion value of Leadville for the year to date is \$10,164,047, as against \$10,760,060 for the whole of 1875.

The Pueblo and Kit Carson railway company intend to build a road from Pueblo to Kit Carson, on the Kansas Pacific.

The South Park telegraph line was completed to Pitkin, in the Gunnison country, on the 13th, and was the occasion of great rejoicing.

Five hundred graders were put to work last week on the Gunnison extension. The work will probably be completed by the end of the month.

The largest nugget of horn silver yet discovered in Silver Cliff camp was found on the California lode. It was fully as large as an egg. Several smaller pieces were found in the same opening.

The Denver and Rio Grande railway has let a contract for grading an extension from Kokomo to Breckenridge. The work will probably be completed by October 1st.

The largest output of ore, in tonnage, on record, was that made by Shift-boss Ballard, of the Chryslerite lode. The work was done by the crew of Mr. Ballard's shift, who in eight hours broke down and hoisted 200 tons, equal to about as many tons.

Kanahs hill is no longer the highest point in the United States. The grading on the western extension of the Denver & Rio Grande road, between Leadville and Kokomo, where it passes over the Continental divide, is several hundred feet higher.

Rails have been laid on the Julesburg track. Thirty-five car loads of ties and iron are being received per day. The track layers are crowding the graders. The graders will be cut of the way entirely in a few days and then the track-men can go ahead for 40 miles.

The mines of Sheep mountain are now showing up in a very striking way. Many lodes which have not heretofore been considered of any particular worth are showing mineral in larger or smaller quantities, and the miners, almost to a man, are steadily driving in the earth, well assured of success.

The latest craze is on Battle mountain, in the Eagle River mining district, some thirty miles north of Leadville. Developments have progressed so far and shown such an amount of mineral in that locality that a road and telegraph are being pushed forward from Leadville, and miners and capitalists are now going into this camp in large numbers. Carbonate deposits are rich and large. Smelters have already been erected.

WYOMING. The mines in the Bramel district are looking up. The stage that is to run between Laramie and Cummins City, is in hand.

Cheyenne Baptists have purchased a lot and will begin the erection of a new brick church.

The Merriams are taking possession of Salt River valley, and establishing a polygamous colony.

Work is being vigorously pushed at the Leaning rolling mill. All the different machinery at work and several buildings are being built.

The catchments will be smaller than last year and stock men are growing because all sheep near the same time, keeping down prices.

Nevada. For the first time in over two years the Humboldt and Washoe counties, in Winnemucca, are again in full operation.

Nearly all the buildings on the west side of Main street at Eureka, that were scorched by the fire, are repaired, or in course of repair.

Measurements of the ore bodies in the Alexander mine, Yreka, county, give a total value of \$72,000,000, of which \$48,000,000 is in place.

L. W. Harris of Round Hole, is receiving claims to have the champagne salt marsh of the state. He is erecting machinery and will soon be able to supply the whole country.

Montana. The hill tops are covered with new snow. Benton is to have a new, first-class hotel and \$20,000 has already been subscribed.

Helena is not yet through rejoicing over the completion of its elegant opera house. A first-class hotel is being put up in the National Park where riding horses and outfit will be kept for stage tourists.

Information from the grain-producing sections of Montana is to the effect that the cereal crop will not so greatly exceed the year's average.

The much written down Yogo diggings are said to be turning out iron ore. But too many were fooled to return to the district again soon.

A party of members of the Utah and Northern railroad have pitched their tents on Camp creek. The party are to commence work on a tunnel 500 feet long.

Several boats are expected at Benton before the river falls to its lowest stage, to convey quartz from the new mines to Bismarck for shipment to the smelting works.

The reports from the Quartz district in the Belt mountains, are favorable. Several tons of quartz have been shipped via the Missouri river, to test the ore in this city.

near Blackfoot City.

The mine excavated 800 acres of mineral land in Ophir gulch, including the bars. The ground is about thirty feet from the gravel averages about twenty feet in thickness. It will require a flume from two to three miles long to strike the bed rock at the lower end of the ground, but when this has been done, the company will have about four miles of pay ground at the head of the flume. There is ample water supply to run the flume, and the design is to put in a flume of sufficient capacity to utilize this water. Estimated cost of flume, \$20,000.

Plans are drawn for the industrial school to be erected at San Carlos. A tri-weekly stage will soon be put on between Globe and Tucson. Time, 30 hours.

Artificial incorporation has been filed with the secretary of the treasury, of a company called the "Maricopa, Phoenix and Prescott railroad company."

The falls of the Atlantic & Pacific Railroad are 1500 feet, and the distance in miles (including 25 miles of the N. M. & S. P. R. R.) from Albuquerque, towards Fort Wingate, leaving 300 miles to reach Prescott. The time for reaching Fort Wingate is fixed for the first of January next, and the point north and nearest to Prescott for next July, the entire route to be completed to the Colorado for June 1st, 1882.

The Kneesy Mills, Salem, are turning out 500 barrels of flour per day. Oats are scarce along North Peoria beach, owing to a freak in the Columbia.

Six hundred and fifty feet of the Coos Bay breakwater is completed. The appropriation being made for the harbor is an additional expenditure equal to that already made will give 24 feet on the bar.

The Saguaro hills are on the north branch of the Seaplane, and are unrivalled in picturesque beauty. They are in shape of a horseshoe. On one side of the stream the bank rises hundreds of feet, and is covered with the head of a mason.

Mrs. Yeakam, of Coos River, said by her daughter and one hired man, carries on her farm, and has this summer already sold down 1000 pounds of butter, for which she expects to realize 50 cents per pound in the winter; and besides sufficient hay for her stock she has forty tons to sell.

California. Dr. Glenn will harvest over 1,000,000 sacks of grain this season. Over 800 Indian hop-pickers are employed in Humboldt county.

There is a proposition to establish extensive smelting works in San Diego. A French company are negotiating for several hydraulic claims at Gardner's Point and St. Louis, Sierra county.

The hop-picking season at the San Jose hop ranches has begun. The crop this year is the largest and finest ever grown in the valley, and when dried will be shipped to London.

It is estimated that one thousand tons of tanbark will be peeled the present year north of Santa Cruz, a large portion of which will be delivered at the local tanneries.

At the San Jose Fruit Packing company's canneries, 300 persons are now employed. About 75 tons of fruit—peaches, pears and plums—are worked daily. At the Golden Gate cannery 1500 tons of fruit are being packed.

They have a steam cracker, steamer and feeder in a new cracker, and are actually carrying them into the cracker.

Yakima county has an area of 7648 square miles. The Newell Colony have selected land on Sherman prairie, 15 miles from Olympia.

A stick of timber was cut in Tacoma to fit in the ship Dashing Wave, that is 120 feet long and 24x14 inches in thickness.

Chinese prospectors are on the way in large numbers for the Swank mines in Washington territory. They are attracted by the recent find of a \$700 nugget of silver ore.

Indians are coming in in large numbers from the Sound and British Columbia, to engage in hop-picking. The crop of Puyallup valley, will be larger than the crop of last year.

A man reports that while ascending the Columbia river, he discovered Mount Baker, he observed the eruption in a state of violent eruption, flames streaming up from the summit, and large volumes of smoke ascending to the sky. Upon the return of the same phenomenon it was observed, that it was less noticeable.

Nebraska Republican Platform. 1. The Republicans of Nebraska most heartily endorse the profession of principles formulated by the national republican convention at Chicago, and which have an unswerving support to the candidates there nominated.

2. We affirm the doctrine of national sovereignty in the formulated principles upon which the perpetuity of the nation rests, and that the national government is enumerated by the democratic party, and the national extension of the Calhoun doctrine of state rights, is revolutionary in its character and destructive of the unity of the nation.

3. We regard the recent seizure of the polls and the wholesale robbery of the franchise of the people of Nebraska, as a gross violation of the rights of the people, and we demand that the government by its living ordinances should prevent the recurrence of such a crime.

4. We congratulate the people of the state upon the rapid increase of population, and we demand that the government should provide for the rapid rebuilding of our material interests, and we demand that the government should provide for the rapid rebuilding of our material interests, and we demand that the government should provide for the rapid rebuilding of our material interests.

5. We pledge our support to such legislation as may be necessary to prevent the effect of the recent seizure of the polls, and we demand that the government should provide for the rapid rebuilding of our material interests.

6. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

7. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

8. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

9. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

10. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

11. We most cordially invite the aid and cooperation in the latest defense of the national integrity and national purity of all Republicans and Democrats who have differed with us on temporary issues, or have clung to the party name.

only words that express it.

I was reduced to a skeleton, could not walk across the room without fainting, could not get up from my bed, and my stomach, I and my friends had given up all hope, my immediate death seemed certain. I can never be so thankful to those who recommended your medicine, for I now live to the surprise of everybody, and am able to do my own work. I desire to make this statement in order that those suffering may be cured, and that they have given your remedies a trial.

Yours respectfully, Mrs. Wm. D. BYERMAN.

Ask your druggist for "Prof. Guillet's French Liver Pills," and take no other.

INFLAMED GUMS

are instantly relieved, and will be permanently cured by the use of SOZODONT. The wider it is known, the better it is liked. It is history as a beneficial and most fragrant water. Other preparations for the teeth have opened and passed away, but SOZODONT remains.

It is easily managed, and strongly recommended by STALLING & GILBEY. It is always ready to be used, and may justly be termed "Semper paratus."

A CASE OF PILES OF 30 YEARS' STANDING.

For many years, I have been afflicted with piles, and have tried every remedy, but without success. I have been advised to have them cut out, but I have refused to do so. I have now used your medicine, and I feel that I have been cured. I can now sit down, and I can walk, and I can do my own work. I am very grateful to you for your medicine.

Yours truly, A. LEVY.

Are you worried, "Down in the mouth," and "weak in the back"? Do you walk, sitting, or lying in bed, and are you unable to do your own work? If you are, you are afflicted with piles, and you need a cure. I have now used your medicine, and I feel that I have been cured. I can now sit down, and I can walk, and I can do my own work. I am very grateful to you for your medicine.

INVALIDS AND OTHERS SEEKING HEALTH, STRENGTH AND ENERGY.

WITHOUT THE USE OF DRUGS, ARE REQUESTED TO SEND FOR THE ELECTRIC REVIEW, AN ILLUSTRATED JOURNAL, WHICH IS PUBLISHED BY THE ELECTRIC REVIEW COMPANY, 157 N. 3rd St., New York.

IT TREATS OF HEALTH, HYGIENE, AND PHYSICAL CULTURE, AND IS A COMPLETELY NEW AND ORIGINAL WORK. IT IS THE ONLY JOURNAL OF THE KIND, AND IS THE ONLY ONE THAT IS READ BY MILLIONS OF PEOPLE. IT IS THE ONLY ONE THAT IS READ BY MILLIONS OF PEOPLE.

YOUNG MEN

And others who are afflicted with Piles, Hemorrhoids, and other ailments, are requested to send for the Electric Review, which is a complete and original work, and is the only one of the kind.

PULVERMETER GALVANIC CO.

FOR EIGHTH AND VINE STS., CINCINNATI, O. 45 Years before the Public. THE GENUINE DR. C. McLANE'S LIVER PILLS.

are not recommended as a remedy for all the ills that flesh is heir to, but in the case of Biliousness, Headache, Constipation, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a peer.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking quinine. A simple and safe remedy for the cure of Ague and Fever.

BEWARE OF IMITATIONS.

The genuine is never signed counter. Each box has a red wax seal on the lid, and the name of the proprietor is blown in the glass.

PLEMING BROS., Pittsburgh, Pa.

are the only ones who have the name PLEMING BROS. blown in the glass of each bottle.

BOWEL COMPLAINTS.

A Specially and Effective Cure. PERRY DAVIS' PAIN-KILLER. Has stood the test of forty years' trial.

WANTED Local Agents everywhere to sell

Wanted Local Agents everywhere to sell our various goods, such as Tea, Coffee, Baking Powder, and other household necessities.

PASSENGER ACCOMMODATION LINE

OMAHA AND FORT OMAHA. Connects with Street Cars. Fare, 10 cents. Time, 15 minutes.

Attention, Builders and Contractors. We have a large stock of building materials, such as Lumber, Brick, and Stone.

ELECTION PROCLAMATION.

On Court House Bonds. At a session of the Board of County Commissioners of the County of Douglas, in the State of Nebraska, held on the 11th day of September, 1876.

The Board of County Commissioners of said county hereby submit the following proposition: That the County Commissioners of said county be authorized to issue bonds in the sum of one hundred thousand dollars for the purpose of constructing a bridge across the river of Omaha, in the City of Omaha.

The Board of County Commissioners of said county hereby submit the following proposition: That the County Commissioners of said county be authorized to issue bonds in the sum of one hundred thousand dollars for the purpose of constructing a bridge across the river of Omaha, in the City of Omaha.

The Board of County Commissioners of said county hereby submit the following proposition: That the County Commissioners of said county be authorized to issue bonds in the sum of one hundred thousand dollars for the purpose of constructing a bridge across the river of Omaha, in the City of Omaha.
