A remarkably beautiful sight was the electric display in and about the telephone exchange Friday. The great gong, and every bell in town was rung and the operator was hurled upon the floor several times.
Under the direction of acting Chief Engineer Melio, the boys are putting the department apparatus in good shape for the parade on Tuesday night. The hose carts No. 2 and 3 are respondent with new paint and engine No. 1 is being retouched and will look like new. As there has been some misunderstanding about the time of the grand parade of Tuesday, we will repeat the notice that the fire department will assemble at 9 o'clock a. m. of that day, on Douglas street, right reading of "Furcivient," and the procession will move at 10 o'clock sharp.
A very handsome lithograph of the scenery in and about Monterey, California, was left at our office Friday by Ben. Truman, of the Southern and Central Pacific roads. Monterey is the most charming view to be met in the world, and is surrounded by scenes of historic interest and great natural loveliness. The Hotel California, the elegant structure overlooking the bay, is the most interesting and not excepting that of Naples. To set forth all the attractions of Monterey would be to write of an enchanted land with the pen of a common mortal.

INAUGURAL DAY.

Yesterday being Sunday of course it was not expected that the preliminary work connected with the coming fair would attract the attention of many persons. Nevertheless, there were many here seeking information as exhibitors and visitors, and the consequence was that the several officials, connected with the fair, had to hasten dinner, after church time, and transfer the many calls at their private residences to the proper offices, No. 1,412 Farnham street.
On Saturday evening the military company from Station arrived and, as stated in The Bee, went immediately to the grounds for guard duty. They are a fine body of young men and in every way show that the fair officials did a sensible thing in selecting them as the proper guards of the fair property. The different subordinate officers on the grounds will be appointed this morning when every one, who receives the official compliment, will be expected to commence the exercises of his authority at once. Hon. Robert Ford, of the state militia, and the cultural society, will present this morning. The arrangement of floral and fruit hall has been well attended to, during his absence, by J. T. Allen, chief of the veteran florist, Charles T. Ryan.
The scene on the grounds cannot be properly described this morning. In fact, everything in proof of the bustle of business.

The office of the managers was moved to the fair grounds last night. Rain or shine the fair will go on and there will be plenty of accommodations on the grounds for those who have come to the fair, and are intent on a fair visit.
U. P. Band.
The U. P. Band was Saturday evening made the recipient of a very handsome compliment by the members of the No. 1 engine company. About 8 o'clock a core of men, firemen met at the hall, provided abundantly with edibles and refreshments, and took up their march to the band house, at the foot of Webster street. The band boys were at practice, and were taken completely by surprise. President Nichols arose and said that the object of this gathering was to faintly show the appreciation No. 1 had of the past favors of the band, and the company had unanimously voted to impress this sense of appreciation upon the band by visiting them and enjoying themselves together. The band gave three cheers for No. 1. After everybody had found seats, the refreshments were served, consisting of ham sandwiches, grapes, peaches, apples, cake, ice cream, cigars and not much of the Tontons' favorite beverage. The evening was devoted to songs, declamations and a few specialties. One of these specialties was a jig by Messrs. Hornberger and Hill, called the "Hibernian Reel." Mr. Hornberger, a member of the council committee on fire, was invited and brought to this scene of festivities. This exhibition brought down the house. Prof. Toozor told of the band's trip to Camp Buford, and what odds were against them in competing for the prize, which made their victory the more triumphant. He closed by thanking No. 1 company for the substantial evidence of their good will, and stated that whenever and wherever the band could do them honor it would most gladly do so. The festivities closed at eleven o'clock and everybody enjoyed himself highly.
A Welcome Visitor.
Major Ben. C. Truman, a journalist of twenty-six years experience, and a brilliant and able gentleman, was in the city yesterday and favored The Bee office with a call. Major Truman, who began his newspaper career on the New York Times, has for the past five years owned and edited the Los Angeles Daily Star. He has also for three years been at the head of the literary bureau of the Central and Southern Pacific railroads, in which interest the present trip to the east is made. He is accompanied by his wife and daughter and came in from California last night in the directors' car of the Union Pacific, which conveyed President Hayes and party from Omaha to the coast. Major Truman is well known to General King and other officers at Fort Omaha as well as a host of military men and journalists throughout the entire country. He temporarily abandoned editorial work in 1862 to go to Nashville as private secretary to Andy Johnson, who was then appointed Military Governor of Tennessee. He was afterwards first provost marshal of Nashville. Since the close of the war he has served the government in various capacities, and in the performance of his duties has visited nearly every part of the world. He will at every meet with a hearty welcome at The Bee headquarters.
